1. Introduction

Thank you for choosing the Casfuy 6-Speed Rechargeable Dog Nail Grinder, Model N60. This electric pet nail grinder is designed to provide a safe, efficient, and comfortable nail trimming experience for dogs of all sizes. Featuring enhanced power, six adjustable speeds, dual LED lights for improved visibility, and a quiet, low-vibration motor, this tool helps maintain your pet's paw health with ease. Please read this manual thoroughly before first use to ensure proper operation and safety.

2. Important Safety Information

- Keep the device out of reach of children and pets when not in use.
- Do not attempt to disassemble, repair, or modify the device. This will void the warranty and may cause injury.
- Avoid contact with water or other liquids. Do not operate the grinder with wet hands.
- Use only the provided USB charging cable and a compatible power adapter (not included) for charging.
- Do not over-grind the pet's nails. Grind for short intervals to prevent overheating and injury to the quick.
- If the device shows signs of damage or malfunction, discontinue use immediately and contact customer support.
- Ensure your pet is calm and comfortable before and during the grinding process.

3. Product Overview

The Casfuy N60 Nail Grinder features a user-friendly design with multiple functions to ensure effective and safe nail care.

Image: Overview of the Casfuy N60 Dog Nail Grinder, highlighting its key features and components.

Key Components:

- **Grinding Head:** Diamond drum bit for efficient and comfortable grinding.
- **Protective Cap with Ports:** Features three different sized ports suitable for small, medium, and large pets. The cap can be removed for larger nails or faster grinding.
- **Dual LED Lights:** Provides illumination to help identify the nail quick, enhancing safety.
- **Speed Adjustment Dial:** Allows selection of 6 speeds from 7000 RPM to 12000 RPM.
- **Power Button:** Turns the device on/off.
- **LED Light Button:** Independently controls the dual LED lights.

- **Charging Port:** USB port for recharging the internal battery.

4. Setup

4.1 Charging the Grinder

1. Before first use, fully charge the nail grinder.
2. Connect the provided USB cable to the charging port on the grinder.
3. Plug the other end of the USB cable into a compatible USB power adapter (e.g., phone charger, computer USB port, power bank, car charger).
4. The indicator light will show charging status. A full charge typically takes approximately 3 hours and provides up to 2 hours of continuous use.

5. Operating Instructions

5.1 Familiarizing Your Pet

It is crucial to acclimate your pet to the grinder to ensure a stress-free experience.

1. Allow your pet to sniff and investigate the grinder while it is off.
2. Turn on the grinder (without touching their paw) so they can get used to the sound and vibration. Offer treats and praise.
3. Gently touch the grinder to your pet's paw (not the nail) for short periods, continuing to offer treats and praise.
4. Once your pet is comfortable, proceed to nail grinding.

5.2 Selecting the Right Speed

The Casfuy N60 offers 6 adjustable speeds to accommodate different nail hardness and pet sensitivities.

- Rotate the speed adjustment dial to select a speed from 1 (7000 RPM) to 6 (12000 RPM).
- Start with a lower speed for nervous pets or softer nails. Gradually increase the speed as your pet becomes comfortable and for harder nails.

Image: A detailed view of the 6-speed control dial on the Casfuy N60 Dog Nail Grinder, showing the range from 7000 to 12000 RPM.

5.3 Grinding Your Pet's Nails

1. Turn on the LED lights by pressing the dedicated light button. The dual LED lights illuminate the nail, making the quick visible and preventing over-grinding.
2. Choose the appropriate port on the protective cap based on your pet's nail size. For very large nails or faster grinding, the cap can be removed.
3. Gently hold your pet's paw and carefully place the nail into the chosen port.
4. Grind each nail for no more than 5 seconds at a time. This prevents the nail from overheating and causing discomfort.
5. Repeat the process as needed, checking the nail frequently to avoid grinding too far.
6. Always reward your pet with treats and praise after each successful grinding session.

Image: The dual LED lights on the Casfuy N60 Dog Nail Grinder illuminate the nail, making it easier to identify the quick and prevent over-grinding. The image shows a 'Before' and 'After' comparison of quick visibility.

6. Maintenance

6.1 Cleaning the Grinder

Regular cleaning ensures optimal performance and longevity of your grinder.

1. After each use, turn off the grinder and remove the protective cap.
2. Gently wipe the grinding head and the inside of the cap with a soft, dry cloth or a small brush to remove nail

dust.

3. Do not rinse the grinding head or the main body of the device under water.
4. Reattach the protective cap after cleaning.

6.2 Storage

- Store the grinder in a cool, dry place, away from direct sunlight and moisture.
- Ensure the device is fully charged before storing for extended periods to maintain battery health.

7. Troubleshooting

Problem	Possible Cause	Solution
Grinder does not turn on.	Battery is low or depleted.	Charge the grinder fully (approx. 3 hours).
Low grinding efficiency.	Grinding head is clogged with nail dust.	Clean the grinding head thoroughly.
Low grinding efficiency.	Speed setting is too low for nail hardness.	Increase the speed setting gradually.
Pet is anxious or uncomfortable.	Not properly acclimated to the grinder.	Re-introduce the grinder slowly, using treats and praise. Start with the lowest speed.
Grinder randomly turns on.	Possible internal malfunction.	Contact customer support for assistance.
