FEZIBO L-Shaped Electric Height Adjustable Standing Desk User Manual

Model: SDE-75RC

1. Introduction

Thank you for choosing the FEZIBO L-Shaped Electric Height Adjustable Standing Desk. This manual provides essential information for the safe and efficient assembly, operation, and maintenance of your new desk. Please read this manual thoroughly before beginning assembly or operation.

The FEZIBO L-Shaped Standing Desk is designed to provide a versatile and ergonomic workspace, allowing you to easily switch between sitting and standing positions to promote a healthier work routine. Its robust construction and intelligent features ensure stability and convenience for various home office and gaming setups.

2. Safety Information

- **Maximum Weight Capacity:** Do not exceed the maximum recommended weight limit of 308 pounds (139.7 kg) to avoid potential damage or injury.
- **Assembly:** Assembly requires two people for safe and efficient setup.
- **Clearance:** Ensure there is sufficient clearance around the desk during height adjustments to prevent collisions with objects or people.
- **Power:** Use only the provided power adapter. Disconnect power before cleaning or maintenance.
- **Children and Pets:** Keep children and pets away from the desk during operation to prevent accidents.
- **Spills:** Avoid liquid spills on the desk surface, especially near the control panel and electrical components.

3. Setup and Assembly

The FEZIBO L-Shaped Standing Desk is designed for hassle-free installation, with detailed instructions and all necessary assembly tools included. It is recommended that two people assemble the desk for ease and safety.

Assembly Steps Overview:

1. Unpack all components and verify against the parts list.
2. Assemble the desk frame according to the detailed instructions provided in the packaging.
3. Attach the desktop sections to the assembled frame, ensuring proper alignment.
4. Connect the motor and control panel cables as instructed.
5. Install accessories such as the cable management tray and headphone hooks.
6. Place the desk in its desired location, ensuring a stable and level surface.

4. Operating Instructions

Your FEZIBO L-Shaped Standing Desk features an electric height adjustment system with a multi-function intelligent keypad for convenient operation.

Figure 4.1: Multi-Function Intelligent Keypad with 3 preset buttons and up/down controls.

Keypad Functions:

- **Up & Down Buttons (▲ / ▼):** Press and hold to continuously adjust the desk height. Release to stop at the desired height.
- **Preset Memory Buttons (1, 2, 3):** These buttons allow you to save and recall your preferred sitting and standing heights.
- **Save Button (S):** To save a height, adjust the desk to the desired position, then press 'S' followed by one of the preset buttons (1, 2, or 3).
- **Child-Friendly Memory/Screen Lock Button:** This feature provides an added layer of safety, preventing accidental adjustments. Refer to the detailed manual for activation/deactivation instructions.

Height Adjustment Range:

The desk offers a wide height adjustment range from 27.6 inches (minimum) to 46.9 inches (maximum), accommodating various user heights and preferences.

Anti-Collision Technology:

The desk is equipped with automatic anti-collision technology. If the desk encounters an obstacle during height adjustment, it will automatically stop and reverse slightly to prevent damage or injury.

5. Maintenance

To ensure the longevity and optimal performance of your FEZIBO standing desk, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the desk surface with a dry cloth. Avoid using harsh chemicals or abrasive cleaners that could damage the finish.
- **Regular Checks:** Periodically check all screws and bolts to ensure they are tight. Retighten if necessary.
- **Cable Management:** Utilize the included cable management tray to keep cables organized and prevent them from interfering with the desk's movement. Ensure cables have enough slack for full height adjustment.
- **Motor Care:** The triple motors are designed for durability. Avoid overloading the desk beyond its specified weight capacity.

6. Troubleshooting

If you encounter any issues with your FEZIBO standing desk, please refer to the following common troubleshooting tips:

Problem	Possible Cause	Solution
Desk does not move or respond to controls.	Power cable disconnected; control panel cable loose; motor overload.	Check all cable connections. Unplug the desk for 10 seconds, then plug back in to reset. Reduce weight on the desk.
Desk moves unevenly or makes unusual noises.	Uneven load; loose connections; obstruction.	Distribute weight evenly. Check and tighten all assembly bolts. Ensure no obstructions are in the path of the legs.
Anti-collision feature frequently activates.	Obstruction in path; sensitivity setting.	Clear any objects from the desk's path. Refer to the full manual for instructions on adjusting anti-collision sensitivity if available.
