### Timex TW5M52000JT

## Timex UFC Takedown 33mm Digital Watch Instruction Manual

Model: TW5M52000JT

### 1. INTRODUCTION

This manual provides detailed instructions for the Timex UFC Takedown 33mm Digital Watch, Model TW5M52000JT. This timepiece is designed for durability and functionality, featuring a 100-hour chronograph, 24-hour countdown timer, 10-lap memory recall, customizable alarms, and INDIGLO backlight technology. It is water resistant up to 100 meters.

## 2. SETUP

---

### 2.1 Battery Information

Your watch comes with one Lithium Metal battery (CR2025) pre-installed. The battery is designed for long-lasting performance. When the display dims or functions become erratic, it may be time for a battery replacement.

### 2.2 Setting Time and Date

To set the time and date:

1. Press the **MODE** button repeatedly until the time setting mode is displayed (usually indicated by flashing digits).
2. Use the **SET/ADJUST** button (or similar, typically on the top right) to select the digit you wish to change (e.g., hours, minutes, year, month, day).
3. Use the **START/STOP** button (or similar, typically on the bottom right) to increase the selected value. Hold to advance rapidly.

4. Repeat steps 2 and 3 for all time and date settings.
5. Press the **MODE** button to exit the setting mode and return to the normal time display.

Figure 2: Side view showing watch buttons for control.

### 3. OPERATING INSTRUCTIONS

---

#### 3.1 Mode Navigation

Press the **MODE** button to cycle through the different functions: Time, Chronograph, Timer, and Alarm.

#### 3.2 Chronograph (Stopwatch)

The chronograph measures elapsed time up to 100 hours with 10-lap memory recall.

1. Enter Chronograph mode by pressing **MODE**.
2. Press **START/STOP** to begin timing.
3. Press **START/STOP** again to pause timing. Press again to resume.
4. To record a lap time, press **LAP/RESET** while the chronograph is running. The lap time will display briefly.
5. To reset the chronograph, ensure it is stopped, then press **LAP/RESET**.

### 3.3 Countdown Timer

The 24-hour countdown timer can be set for various durations.

1. Enter Timer mode by pressing **MODE**.
2. To set the timer, press and hold **SET/ADJUST** until digits flash.
3. Use **SET/ADJUST** to select hours, minutes, or seconds. Use **START/STOP** to adjust the value.
4. Press **MODE** to confirm settings.
5. Press **START/STOP** to start the countdown.
6. An audible alert will sound when the timer reaches zero.

### 3.4 Alarms

Set customizable alarms to alert you at specific times.

1. Enter Alarm mode by pressing **MODE**.
2. To set an alarm, press and hold **SET/ADJUST** until digits flash.
3. Use **SET/ADJUST** to select hours or minutes. Use **START/STOP** to adjust the value.
4. Press **MODE** to confirm settings.
5. To activate/deactivate the alarm, press **START/STOP** while in Alarm mode (not setting). An alarm icon will appear/disappear.

### 3.5 INDIGLO Backlight

Press the **INDIGLO** button (typically on the top left) to illuminate the watch face for easy viewing in low-light conditions.

## 4. MAINTENANCE

---

### 4.1 Water Resistance

This watch is water resistant to 100 meters (328 feet). This means it is suitable for splashes, rain, and brief immersion in water. It is **not** suitable for swimming, diving, or bathing, especially with hot water or steam, as this can compromise the seals.

- Do not operate buttons underwater.
- Ensure the crown (if applicable) is pushed in completely after setting the time.

### 4.2 Cleaning

To clean your watch, wipe it with a soft, damp cloth. Avoid using harsh chemicals or abrasive materials, which can damage the case or strap.

### 4.3 Battery Replacement

Battery replacement should ideally be performed by a qualified watch technician to ensure proper sealing and maintain water resistance.

## 5. TROUBLESHOOTING

---

If you encounter issues with your watch, please refer to the following common solutions:

- **No Display or Dim Display:** The battery may be low or depleted. Consider professional battery replacement.
- **Buttons Unresponsive:** Ensure the watch is not in a locked mode (if applicable). If the issue persists, a battery reset (professional service recommended) might be needed.
- **Incorrect Time/Date:** Re-follow the time and date setting instructions in Section 2.2.
- **Water Inside Watch:** Immediately take the watch to a professional watch repair service to prevent further damage.
