Dogtra RR Deluxe Extra RX

Dogtra RR Deluxe Additional Receiver Instruction Manual

Model: RR Deluxe Extra RX

INTRODUCTION

The Dogtra RR Deluxe Additional Receiver is designed to expand the capabilities of your Dogtra remote release system, allowing you to control multiple bird or bumper launchers. This receiver is compatible with Dogtra PL & QL launchers and other non-Dogtra launchers, providing a versatile solution for dog training, upland hunting, and field trial competitions. It features a 1-mile range, multiple sound modes including a realistic duck call and beep, and is rechargeable for convenience.

SAFETY INFORMATION

Your Dogtra product is intended for humane use in training and educating your dog. It is not designed for use with other animals or humans. To prevent skin irritation, avoid leaving the receiver in the same location on your dog's neck for extended periods. If the receiver must be worn for long durations, periodically reposition it to move the contact points to a different area of the neck. Always inspect your dog's neck each time you use the unit.

KEY FEATURES

- **1-Mile Range:** Operates Dogtra PL & QL launchers or compatible non-Dogtra launchers up to 1 mile away, ideal for upland hunting or retriever work.
- **Expandability:** The RR Deluxe handheld remote transmitter can control up to 8 receivers, allowing for extensive training setups.
- **Multiple Sound Modes:** Includes a realistic duck call and a beep sound, essential for Hunt Tests or Field Trial Competitions. The beeper horn assists in location identification.
- **Launcher Compatibility:** Compatible with Dogtra QL & PL launchers, capable of controlling up to two launchers per RR Deluxe receiver.
- **Rechargeable Batteries:** The receiver features rechargeable batteries with an LED indicator light for convenience.

PRODUCT OVERVIEW

The Dogtra RR Deluxe Additional Receiver, showing its compact design, antenna, and ports for connecting to launchers. This unit expands your training system.

Dogtra is a training device manufacturer, who supports and works with professional dog trainers that educate and train dogs and their owners to encourage a safe dog training community.

While we do not provide the training service, we highly encourage you to train and educate yourself as much as you would with your dog.

With the proper understanding of the device and a good mix of balanced training approaches, you can make every dog exceptional.

An image detailing Dogtra's philosophy: "Dogtra is a training device manufacturer, who supports and works with professional dog trainers that educate and train dogs and their owners to encourage a safe dog training community. While we do not provide the training service, we highly encourage you to train and educate yourself as much as you would with your dog. With the proper understanding of the device and a good mix of balanced training approaches, you can make every dog exceptional."

SETUP

1. **Charge the Receiver:** Before first use, fully charge the RR Deluxe receiver using the provided charger. The LED indicator will show charging status.
2. **Pairing with Transmitter:** Refer to your Dogtra RR Deluxe handheld remote transmitter manual for specific pairing instructions. The system uses a coding system for easy connection.
3. **Connect Launchers:** Connect your Dogtra PL or QL launchers, or other compatible launchers, to the receiver's ports. The receiver can control up to two launchers.
4. **Placement:** Position the receiver and connected launchers in the desired training area, ensuring clear line of sight for optimal range.

OPERATING INSTRUCTIONS

1. **Power On/Off:** Press and hold the power button on the receiver to turn it on or off.
2. **Remote Activation:** Use your paired RR Deluxe handheld remote transmitter to activate the receiver and trigger the connected launchers.
3. **Sound Modes:** Select the desired sound mode (duck call or beep) via your remote transmitter, if applicable, to provide auditory cues for your dog.
4. **Multiple Receivers:** If using multiple receivers, ensure each is properly coded and selected on your transmitter for individual or simultaneous activation.

MAINTENANCE

- **Cleaning:** Wipe the receiver with a damp cloth to remove dirt or debris. Do not use harsh chemicals.
- **Storage:** Store the receiver in a cool, dry place when not in use. Ensure it is fully charged before long-term storage.

- **Battery Care:** Recharge the battery regularly, even if not in frequent use, to maintain battery health. Avoid overcharging or completely draining the battery.
- **Inspection:** Periodically check the receiver for any signs of damage, especially to the antenna and connection ports.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Receiver not responding	Low battery; Not paired; Out of range.	Charge receiver; Re-pair with transmitter; Move closer to transmitter.
Launchers not firing	Improper connection; Launcher issue.	Check cable connections; Refer to launcher manual.
Short range	Obstructions; Interference; Low battery.	Ensure clear line of sight; Avoid areas with strong interference; Charge receiver.
