Keenso 12V Car Fan Instruction Manual

Model: 853f58b2-968f-4b44-8731-426498fc6220

1. INTRODUCTION

The Keenso 12V Car Fan is a portable, adjustable speed cage fan designed to provide efficient cooling in various vehicles. It operates on a 12V DC power supply, making it suitable for cars, trucks, RVs, SUVs, and ATVs. Its compact design and low noise level ensure a comfortable and unobtrusive experience.

2. SAFETY INFORMATION

- Ensure the fan is securely mounted to prevent movement during vehicle operation.
- Only connect the fan to a 12V DC power source. Using an incorrect voltage may damage the device or vehicle.
- Do not obstruct the air inlet or outlet vents. Maintain clear space around the fan for optimal performance.
- Keep the fan away from water or excessive moisture. This product is not waterproof.
- Unplug the fan from the cigarette lighter when not in use or when leaving the vehicle.
- Do not attempt to disassemble or repair the fan. There are no user-serviceable parts inside.
- The fan features a safety cage design without exposed rotating blades. However, avoid inserting fingers or foreign objects into the vents.

No rotation leaves, more safe to use.

3. PACKAGE CONTENTS

Please check the package for the following items:

- 1 x Keenso 12V Car Fan
- 2 x Adhesive Pads
- 1 x User Manual

4. SETUP

1. **Choose a Mounting Location:** Select a flat, clean surface in your vehicle where the fan will not obstruct your view or interfere with driving controls. Common locations include the dashboard or center console.
2. **Attach Adhesive Pads:** Peel the backing from the adhesive pads and firmly press them onto the base of the fan.
3. **Mount the Fan:** Press the fan firmly onto the chosen surface in your vehicle. Ensure it is stable and secure.

4. **Connect Power:** Insert the cigarette lighter plug into your vehicle's 12V power outlet. The fan is now ready for operation.

5. OPERATING INSTRUCTIONS

1. **Power On:** Once the fan is plugged into the 12V cigarette lighter socket, turn the knob located on the fan to select the desired speed.
2. **Adjust Fan Speed:** The fan offers two adjustable speeds (low and high). Rotate the knob to switch between these settings.
3. **Adjust Airflow Direction:** The cage-like design allows the fan to rotate up and down. Manually adjust the fan body to direct the airflow to your preferred area within the vehicle.
4. **Power Off:** To turn off the fan, rotate the knob to the 'OFF' position or unplug the cigarette lighter plug from the power outlet.
