## 5. MAINTENANCE

---

Proper care will ensure the longevity and enjoyment of your building set:

- **Cleaning:** To clean the bricks and figures, wipe them gently with a soft, damp cloth. Avoid using harsh chemicals or abrasive materials, as these can damage the plastic or paint.
- **Storage:** Store the set in a cool, dry place away from direct sunlight to prevent discoloration or warping of the plastic. Keeping the pieces in their original box or a dedicated storage container can help prevent loss.
- **Handling:** While durable, avoid excessive force when connecting or disconnecting pieces to prevent breakage.

## 6. TROUBLESHOOTING

---

Most issues with building sets can be resolved with simple checks:

- **Missing Pieces:** Double-check all packaging and sorting areas. If a piece is genuinely missing, refer to the warranty and support section for contact information.
- **Difficulty Connecting Pieces:** Ensure you are using the correct pieces as indicated in the instruction manual. Sometimes, a firm but gentle push is required to fully connect bricks.
- **Figures Not Posing Correctly:** Ensure all joints are properly assembled. If a joint feels loose, it may not be fully seated.
- **Crane or Forklift Malfunction:** Verify that all gears and connecting pieces are correctly assembled and free from obstruction.
