MEGA Pokémon Lapras Building Set (Model HKT26) Instruction Manual

Your guide to assembling and enjoying your MEGA Pokémon Lapras building set.

1. INTRODUCTION

Thank you for choosing the MEGA Pokémon Lapras Building Set. This set allows you to construct a detailed and articulated model of Lapras, the Transport Pokémon, featuring a unique motion brick for dynamic play. This manual provides essential information for assembly, operation, and care of your new building set.

Image 1.1: The MEGA Pokémon Lapras Building Set packaging alongside the fully assembled Lapras model. The box displays the product name, piece count (527), and age recommendation (8+), while the model showcases its blue and yellow coloring and poseable features.

2. WHAT'S IN THE BOX

Your MEGA Pokémon Lapras Building Set contains the following components:

- 527 building pieces, including specialized motion bricks.
- Detailed instruction booklet for step-by-step assembly.

Please verify all pieces are present before beginning assembly. If any pieces are missing or damaged, please contact customer support.

3. ASSEMBLY INSTRUCTIONS

The Lapras building set consists of 527 pieces designed for a comprehensive and engaging construction experience. Follow the included instruction booklet for detailed, step-by-step guidance. The assembly process involves connecting various building blocks to form the body, head, shell, and flippers of Lapras.

1. Unpack all pieces and organize them by color or shape as suggested in the instruction booklet.
2. Begin assembly by following the numbered steps in the provided manual. Pay close attention to the orientation of each piece.
3. Ensure all connections are secure to maintain the structural integrity of the model.
4. The motion brick components are crucial for the model's articulated features. Assemble these carefully according to the instructions.

Image 3.1: A top-down view showing a child's hands actively engaged in assembling the Lapras building set. Various blue, grey, and yellow building blocks are spread across a white surface, illustrating the construction process.

For a complete visual guide, please refer to the official PDF instruction manual:[Download Official Instructions \(PDF\)](#)

4. OPERATING INSTRUCTIONS

The MEGA Pokémon Lapras model is designed with articulated and poseable features, including a unique motion function.

4.1 Head Motion

To activate Lapras's head movement, locate the red crank on its back, near the shell. Gently turn this crank to observe Lapras's head moving left and right, simulating a swimming motion.

Image 4.1: A close-up view of the assembled Lapras model's head, showing the mechanism for left and right movement. A blue arrow

indicates the direction of motion, highlighting the articulated neck and jaw.

4.2 Poseable Limbs

Lapras's flippers are poseable, allowing for various display options. Gently adjust the flippers to create different swimming or resting poses. Avoid excessive force to prevent damage to the connections.

4.3 Rolling Motion

When placed on a flat surface, the model can be gently pushed to simulate a rolling motion, further enhancing its dynamic display capabilities.

Image 4.2: A hand gently pushing the assembled Lapras model forward on a flat surface, illustrating its rolling motion capability. A black arrow indicates the direction of movement.

5. MAINTENANCE

Proper care will ensure the longevity of your MEGA Pokémon Lapras Building Set.

- **Cleaning:** To clean the model, gently wipe it with a dry, soft cloth. For stubborn dust, a slightly damp cloth can be used, followed by immediate drying. Avoid harsh chemicals or abrasive cleaners.
- **Storage:** Store the assembled model or disassembled pieces in a cool, dry place away from direct sunlight and extreme temperatures to prevent material degradation or discoloration.
- **Handling:** Handle the model with care, especially when adjusting articulated parts, to avoid accidental detachment of pieces.

6. TROUBLESHOOTING

If you encounter any issues during assembly or operation, consider the following:

- **Pieces not fitting:** Double-check the instruction booklet to ensure you are using the correct pieces and that they are oriented correctly. Sometimes, similar-looking pieces have subtle differences.
- **Motion mechanism not working:** Verify that all components of the motion brick assembly are correctly installed and securely connected. Ensure no pieces are obstructing the movement.
- **Model instability:** Re-examine the base and core connections. Loose connections can lead to instability. Press firmly to ensure all studs are fully engaged.
- **Missing pieces:** If you believe a piece is genuinely missing, refer to the manufacturer's customer support information for assistance.

7. SPECIFICATIONS

Feature	Detail
Product Name	MEGA Pokémon Lapras Building Set
Model Number	HKT26
Brand	Mega Brands
Piece Count	527 pieces
Assembled Height	Approximately 7 inches (17.8 cm)
Product Dimensions	2 x 13.5 x 10.3 inches (Box)
Item Weight	1.17 pounds (0.53 kg)
Recommended Age	8 years and up
Features	Articulated, Poseable, Motion Brick (head movement)

8. WARRANTY AND SUPPORT

For information regarding product warranty, replacement parts, or further assistance, please refer to the official Mega Brands website or contact their customer support directly. The full instruction manual in PDF format can be accessed via the link provided in the Assembly Instructions section.
