Key Features:

- **Enhanced Storage:** Transforms cabinet and pantry spaces for better organization of kitchen accessories and various items.
- **Smooth Operation:** Features an upgraded design with bottom-rolling, 3-section ball bearing slide rails for sturdy, smooth, and silent gliding.
- **Full Extension:** Conveniently slides out completely, eliminating the need to reach deep into cabinets.
- **Durable Construction:** Made from metal with a chrome finish, offering rust resistance and a maximum weight recommendation of 100 pounds.
- **Easy Installation:** Designed for quick setup, typically completed within 10 minutes.

2. SAFETY INFORMATION

Please read and understand all instructions before installation and use. Failure to follow these instructions may result in

injury or product damage.

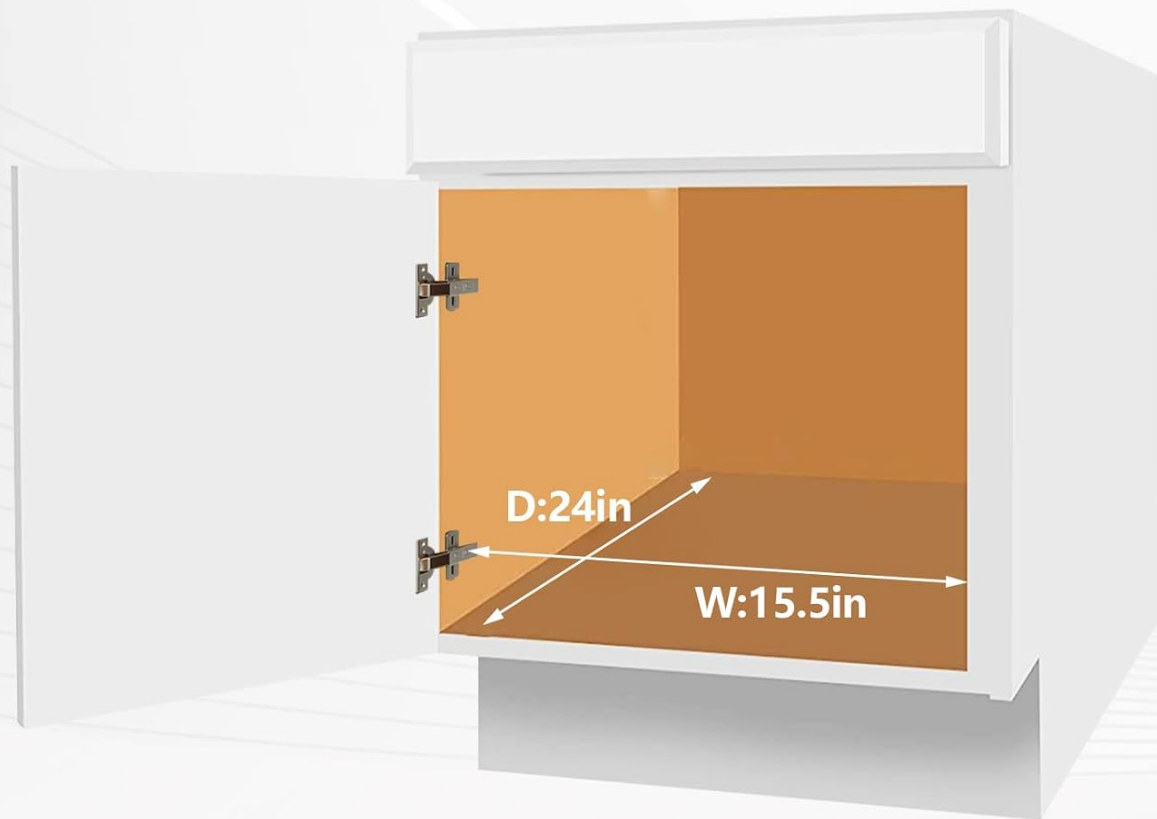

- **Weight Limit:** Do not exceed the maximum weight capacity of 100 pounds (approximately 45 kg) for the organizer. Overloading can cause damage to the unit or the cabinet.
- **Secure Installation:** Ensure the organizer is securely mounted to the cabinet floor and/or back wall using all provided screws. Loose installation can lead to instability and potential hazards.
- **Cabinet Compatibility:** Verify that your cabinet dimensions meet the minimum requirements (opening width 15.5 inches or more, depth 24 inches or more) to ensure proper fit and function.
- **Sharp Edges:** Handle components with care during assembly to avoid cuts from metal edges.
- **Children and Pets:** Keep children and pets away from the installation area. Do not allow them to play with the organizer, especially when it is extended, to prevent pinching or tipping.
- **Cleaning:** Use mild cleaning agents and avoid abrasive materials that could damage the chrome finish.

3. PACKAGE CONTENTS

Verify that all components are present before beginning assembly.

- Pull-Out Basket (1 Tier)
- 3-Section Ball Bearing Slide Rails (2 units)
- Mounting Brackets
- Screws for Installation
- Mounting Template
- Instruction Manual

FIT CABINET SIZE

**Please make sure the cabinet opening, depth, height.
Please start from the obstacle (hinge) when measuring.**

5. INSTALLATION

Follow these steps for a quick and secure installation of your LOVMOR Pull Out Cabinet Organizer.

Tools Required:

- Drill
- Screwdriver (Phillips head recommended)
- Pencil
- Measuring Tape

Pre-Installation Check:

- Measure your cabinet opening: Ensure it is at least 15.5 inches wide.
- Measure your cabinet depth: Ensure it is at least 24 inches deep.

- Clear the installation area: Remove any items from the cabinet.

Step-by-Step Installation:

1. **Prepare the Mounting Template:** Fold the provided mounting template along the dotted line to fit the front edge of your cabinet.

Image: The mounting template in use, indicating the precise locations for drilling pilot holes.

2. **Mark and Pre-Drill Holes:** Place the template inside the cabinet, aligning it correctly. Use a pencil to mark the four screw locations. Pre-drill pilot holes (approximately 2.5mm diameter) at these marked spots.

Image: A drill being used to create pilot holes in the cabinet base, guided by the mounting template.

3. **Assemble the Slide Rails:** Attach the 3-section ball bearing slide rails to the mounting brackets. Ensure they are oriented correctly for smooth operation.

Video: "Super Easy Installation" - Demonstrates the assembly of the slide rails and their attachment to the cabinet.

4. **Mount the Slide Rails:** Position the assembled slide rails inside the cabinet, aligning them with the pre-drilled holes. Secure them firmly using the provided screws.
5. **Attach the Basket:** Once the slide rails are securely mounted, gently slide the pull-out basket onto the rails until it clicks into place.

Before

Make your home more tidy and orderly

After

Image: A visual guide illustrating the two main steps of installation: marking drill points and securing the basket onto the rails.

6. **Test Operation:** Gently pull the basket out and push it back in to ensure smooth and unobstructed movement.

6. USAGE

The LOVMOR Pull Out Cabinet Organizer is designed for convenient access and efficient storage.

- **Loading Items:** Place items evenly distributed within the basket to maintain balance and smooth operation. Avoid concentrating heavy items on one side.
- **Pulling Out:** Gently pull the basket forward using the front handle. The ball bearing slides will allow for full extension.
- **Pushing In:** Push the basket back into the cabinet until it is fully recessed.
- **Optimal Storage:** Utilize the open design to store various kitchen items such as pots, pans, spices, cleaning supplies, or small appliances.

2-Step Installation

Video: "Take It to Your Cabinet, Redefining Your Cabinets" - Showcases the organizer's functionality and how it can be used to store various kitchen items.

7. MAINTENANCE

Regular maintenance will ensure the longevity and smooth operation of your organizer.

- **Cleaning:** Wipe down the metal surfaces with a soft, damp cloth and a mild detergent. Avoid harsh chemicals or abrasive cleaners that can damage the chrome finish. Dry thoroughly after cleaning.
- **Lubrication:** Periodically check the slide rails for smooth movement. If they become stiff, apply a small amount of

silicone-based lubricant to the ball bearings.

- **Tighten Screws:** Over time, screws may loosen. Periodically check all mounting screws and tighten them as needed to maintain stability.
- **Avoid Overloading:** Adhere to the maximum weight limit to prevent strain on the slides and potential damage to the unit.

8. TROUBLESHOOTING

If you encounter any issues with your LOVMOR Pull Out Cabinet Organizer, refer to the following common problems and solutions:

- **Organizer does not slide smoothly:**
 - Check for obstructions on the slide rails or in the cabinet.
 - Ensure the cabinet is not overloaded.
 - Apply lubricant to the ball bearing slides.
 - Verify that the mounting screws are tight and the rails are installed parallel.
- **Organizer feels wobbly or unstable:**
 - Tighten all mounting screws on the cabinet floor and/or back wall.
 - Ensure the cabinet itself is stable and on a level surface.
 - Verify that the basket is correctly seated on both slide rails.
- **Organizer does not fit in the cabinet:**
 - Re-measure your cabinet opening and depth. The organizer requires a minimum opening width of 15.5 inches and a minimum depth of 24 inches.
 - Ensure no cabinet door hinges or other internal obstructions prevent proper installation.
- **Missing parts:**
 - Refer to the "Package Contents" section. If parts are missing, contact LOVMOR customer support.

9. WARRANTY & SUPPORT

LOVMOR products are designed for quality and durability. For specific warranty details, please refer to the documentation included with your purchase or visit the official LOVMOR website.

If you require assistance with installation, troubleshooting, or have questions about your product, please contact LOVMOR customer support through the retailer where you purchased the item or via the contact information provided on the LOVMOR brand store page.
