Nuliie Z6

Nuliie Reusable Silicone Breastmilk Storage Bags (Model Z6) - Instruction Manual

Model: Z6

1. Introduction

Thank you for choosing Nuliie Reusable Silicone Breastmilk Storage Bags. These bags are designed to provide a safe, convenient, and eco-friendly solution for storing breastmilk and baby food. Made from durable, food-grade, BPA-free silicone, they feature a double leak-proof seal and a wide-mouth design for ease of use and cleaning. This manual provides essential instructions for proper setup, operation, maintenance, and storage to ensure optimal performance and longevity of your product.

2. Setup and First Use

Before using your Nuliie Silicone Breastmilk Storage Bags for the first time, it is crucial to clean and sterilize them thoroughly to ensure hygiene and safety for your baby.

Initial Cleaning and Sterilization:

1. **Wash by Hand:** Wash each bag and sealing rod with warm soapy water. Use a bottle brush to ensure all internal surfaces are clean. Rinse thoroughly with clean water.
2. **Boiling:** Place the bags and sealing rods in boiling water for 2-3 minutes. Ensure they do not touch the bottom or sides of the pot to prevent damage.
3. **Bottle Sterilizer:** Alternatively, use a steam bottle sterilizer according to its manufacturer's instructions.
4. **Drying:** Allow the bags to air dry completely on a clean drying rack or hang them upside down. Ensure no moisture remains before storage or use.

3. Operating Instructions

Filling the Bags:

- The bags feature a 4.3-inch wide mouth design, making them easy to fill with breastmilk, purees, or other baby foods.
- Pour the liquid directly into the bag. The transparent material and integrated scale (in ml and oz) allow for visual measurement of the contents up to 12oz/360ml.

Image 3.2: 360ml/12oz Capacity of the Nuliie Silicone Bag.

Sealing the Bags:

- The bags feature a double seal mechanism for enhanced leak protection.
- After filling, press out any excess air from the bag.
- Slide the sealing rod firmly across the top of the bag to create a secure, leak-proof closure.

Image 3.3: Double Seal for Leak-Proof Storage.

Labeling:

- Use the provided label stickers to record the date and volume of the contents. This helps in tracking and ensuring proper rotation of stored milk.

Image 3.4: Reusable Bags with Labeling Area.

Storage:

- The self-standing design allows the bags to be stored upright in the refrigerator or freezer.
- For space-saving, bags can also be laid flat in the freezer once contents are frozen.

Image 3.5: Space-Saving Storage in Refrigerator.

Thawing and Heating:

- Nuliie silicone bags are designed to withstand both cold and heat.
- **Thawing:** Thaw frozen milk in the refrigerator overnight or by holding the bag under cool running water, gradually increasing the water temperature.
- **Heating:** The bags can be used in bottle warmers, microwaves, and ovens (ensure sealing rod is removed before microwave/oven use). Always check the temperature of the milk before feeding.

4. Maintenance and Cleaning

Regular cleaning and proper maintenance will extend the life of your Nuliie Silicone Breastmilk Storage Bags and ensure continued hygiene.

Cleaning Methods:

- **Hand Washing:** Wash with warm, soapy water and a bottle brush. Rinse thoroughly.
- **Dishwasher Safe:** The bags are dishwasher safe. Place them on the top rack for cleaning.
- **Boiling:** For sterilization, boil in water for 2-3 minutes.
- **Bottle Sterilizer:** Compatible with standard bottle sterilizers.

Image 4.1: Nuliie Silicone Bags are Dishwasher Safe.

Drying:

- Allow to air dry completely before storing to prevent mold or mildew.
- Can be placed in a dryer on a low heat setting if desired.

5. Storage Guide for Breastmilk

Follow these guidelines for safe storage of breastmilk to maintain its nutritional value and prevent bacterial growth.

Image 5.1: Breastmilk Storage Guidelines.

Storage Place	Temperature	Safe Storage Time
Room Temperature	16-25°C (60-77°F)	4-6 hours
Refrigerator	4°C (39°F)	3-5 days
Freezer	-18°C (0°F)	3-6 months
Frozen Breast Milk Thawed in Refrigerator	N/A	24 hours in the refrigerator (Do Not refreeze)

6. Multi-Purpose Use

Beyond breastmilk, Nuliie silicone storage bags are versatile and can be used for various other purposes:

- **Baby Food:** Store homemade baby purees, fruit, or vegetable mashes.
- **Juices and Smoothies:** Ideal for storing fresh juices or smoothies for your child.
- **Snacks:** Convenient for carrying small snacks like crackers, fruit pieces, or cereal on the go.

Number of Items	7 bags
Closure Type	Zipper (with sealing rod)
Special Features	Leakproof, Washable, Self-Standing, BPA Free
Reusability	Reusable
Microwaveable	Yes (remove sealing rod)
Care Instructions	Clean after Use, Dishwasher Safe
Item Weight	340.19 Grams (total for 7 bags)

8. Troubleshooting

Issue: Milk absorbs freezer odors.

Possible Cause: Silicone is porous and can sometimes absorb strong odors from the freezer environment, which may transfer to the milk.

Solution:

- Ensure bags are completely sealed before placing them in the freezer.
- Store filled silicone bags inside an additional airtight container (e.g., a freezer-safe plastic container with a lid) to create an extra barrier against odors.
- Regularly clean your freezer and remove any strong-smelling items.
- For cleaning the bags, consider boiling them for 2-3 minutes or using a bottle sterilizer to help remove any lingering smells from the silicone itself.

9. Warranty and Support

Nuliie is committed to providing high-quality products and excellent customer service. If you encounter any issues or have questions regarding your Nuliie Reusable Silicone Breastmilk Storage Bags, please do not hesitate to contact our customer support team.

Customer Support: We offer 24/7 customer service. If your purchase does not meet your expectations, contact us for a hassle-free replacement or refund.
