

Child Craft Toddler Guard Rail Conversion Kit

Child Craft Toddler Guard Rail Conversion Kit

Instruction Manual for SOHO and Tremont Cribs

Model: Toddler Guard Rail Conversion Kit

INTRODUCTION

The Child Craft Toddler Guard Rail is designed to facilitate the conversion of your Child Craft SOHO or Tremont crib into a toddler bed, providing a secure barrier for your child. This guard rail helps prevent accidental falls as your child transitions from a crib to a more open sleeping environment.

Please read these instructions carefully before installation to ensure proper assembly and safe use. Keep this manual for future reference.

SETUP AND INSTALLATION

The Child Craft Toddler Guard Rail is an accessory designed to attach to compatible Child Craft cribs (SOHO and Tremont models) after the front panel has been removed. **Important:** This guard rail may require specific hardware or a full conversion kit (sold separately) depending on your crib model. Please ensure you have all necessary components before beginning installation.

Required Tools (Not Included):

- Screwdriver (appropriate type for your crib's hardware)
- Any specific hardware or extenders required by your crib model's conversion instructions

Installation Steps:

1. **Prepare the Crib:** Carefully remove the front panel of your Child Craft SOHO or Tremont crib according to your crib's original assembly instructions. Ensure all original hardware from the front panel is safely stored.
2. **Position the Guard Rail:** Align the Child Craft Toddler Guard Rail with the designated attachment points on the crib where the front panel was previously installed. The guard rail should sit securely between the two end panels of the crib.
3. **Secure the Guard Rail:** Using the appropriate hardware (either from your crib's original conversion kit or separately purchased extenders/bolts), attach the guard rail to the crib frame. Ensure all screws are tightened firmly, but do not overtighten to avoid damaging the wood.
4. **Verify Stability:** Once installed, gently push and pull on the guard rail to confirm it is securely attached and does

not wobble. The guard rail should be stable and provide a firm barrier.

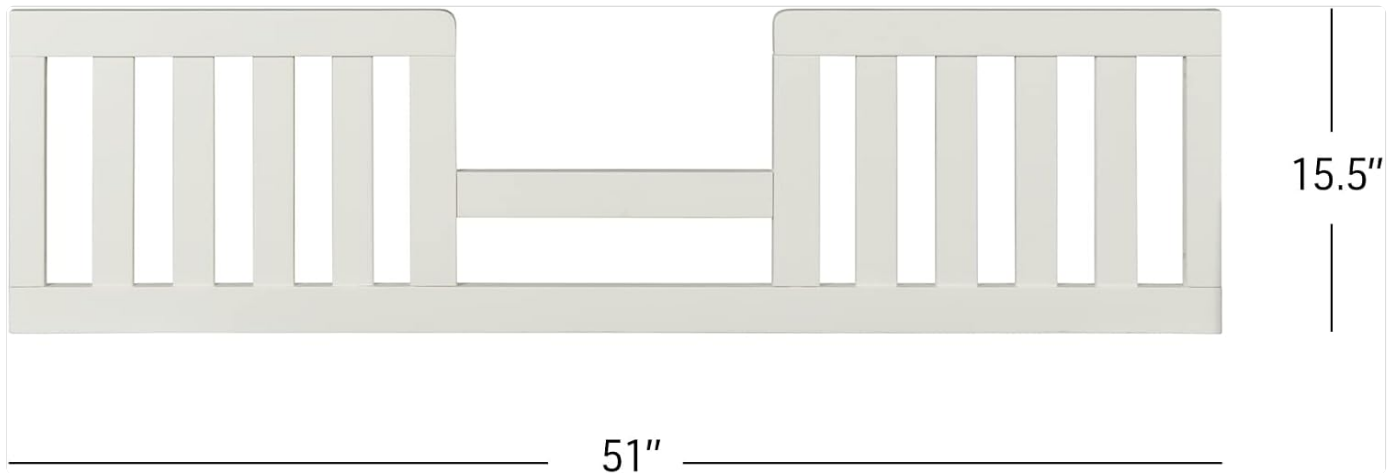

Image Description: A white Child Craft crib converted into a toddler bed, featuring the Child Craft Toddler Guard Rail installed on the front opening. The guard rail is white and matches the crib, providing a partial barrier for the child's safety.

Image Description: A top-down view of the Child Craft Toddler Guard Rail, showing its overall length of 51 inches and height of 15.5 inches. The guard rail consists of two slatted sections connected by a central horizontal bar.

Installation Video:

Video Description: An official seller video titled "Toddler Safe Guardrail" demonstrating the installation and use of a toddler guard rail on a crib. The video shows the guard rail being attached to a crib, converting it into a toddler bed, and highlights its safety features.

OPERATING INSTRUCTIONS

Once properly installed, the Child Craft Toddler Guard Rail functions as a protective barrier for your child. It allows your toddler to independently enter and exit their bed while minimizing the risk of rolling out during sleep.

- Ensure the guard rail remains securely attached to the crib frame at all times.
- Regularly check for any loose connections or damage.
- The guard rail is designed for toddlers who are transitioning from a crib and can safely climb in and out of bed.

CARE AND MAINTENANCE

Proper care will ensure the longevity and safety of your Child Craft Toddler Guard Rail.

- **Cleaning:** Wipe the guard rail with a damp cloth and mild soap. Avoid using abrasive cleaners or harsh chemicals, as these can damage the finish. Dry thoroughly after cleaning.
- **Inspection:** Periodically inspect the guard rail for any signs of wear, damage, or loose hardware. Check for cracks in the wood, splintering, or any components that appear compromised.
- **Storage:** If storing the guard rail, keep it in a dry, temperate environment away from direct sunlight or extreme temperature fluctuations to prevent warping or damage.

TROUBLESHOOTING

Guard Rail Does Not Fit or Is Unstable:

- **Check Compatibility:** Ensure your crib is a Child Craft SOHO or Tremont model. This guard rail is specifically designed for these models.
- **Verify Hardware:** Confirm that you are using the correct hardware for your specific crib model. Some cribs may require a separate conversion kit or specific extenders that are not included with this guard rail. Refer to your crib's original instruction manual for conversion requirements.
- **Re-tighten Connections:** Ensure all screws and bolts are securely tightened. Loose connections can lead to instability.

Damage or Wear:

- If the guard rail shows significant signs of damage, such as large cracks, splinters, or broken components, discontinue use immediately.
- Contact Child Craft customer support for replacement parts or further assistance.

PRODUCT SPECIFICATIONS

Brand	Child Craft
Model	Toddler Guard Rail Conversion Kit
Material	Strong Pine Wood Construction
Color	White
Product Dimensions (L x W x H)	52" L x 1" W x 14" H (132 cm L x 2.5 cm W x 35.6 cm H)
