- Safety Booklet

In the Box

Charger
Quick Start Guide
Safety Booklet
USB Type C Cable
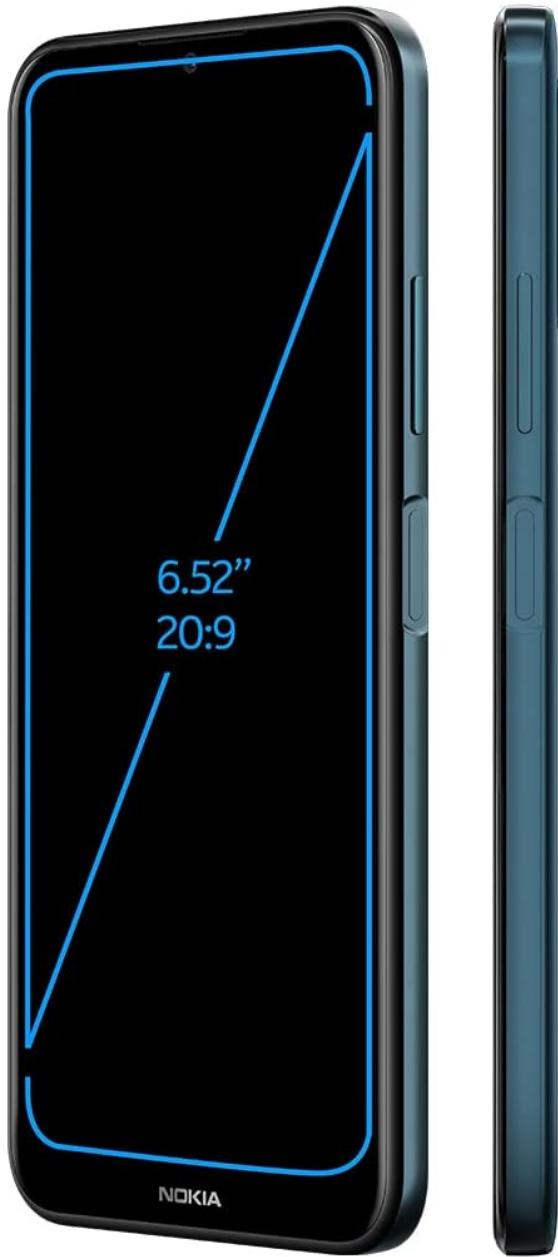

Image Description: A flat lay showing the Nokia G100 smartphone, a USB Type-C cable, a wall charger, and a SIM ejector tool, all neatly arranged next to a box labeled 'In the Box' with a list of contents.

1.2 Carrier Compatibility

The Nokia G100 is designed for universal compatibility with various mobile network providers. Confirmed compatible carriers include:

- AT&T
- Verizon
- T-Mobile
- Boost
- Cricket
- H2O Wireless
- Metro
- Mint
- Net10
- Simple Mobile
- Tracfone

Please note that carrier network coverage is dependent upon the carrier's service area. It is recommended to confirm compatibility with your chosen carrier prior to use.
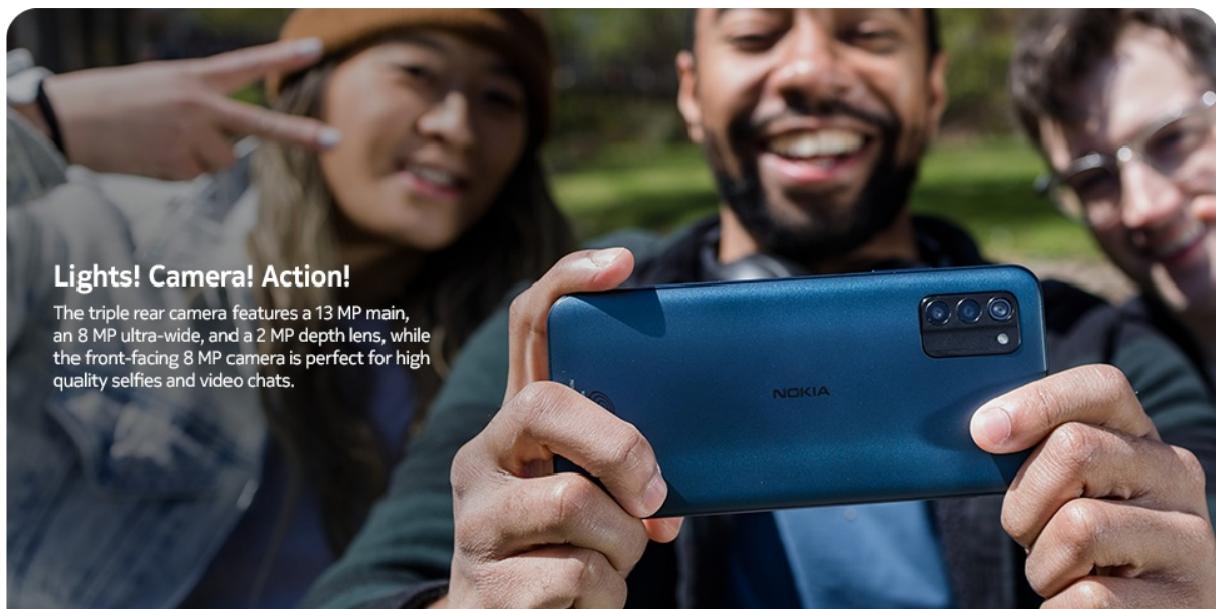

Lights! Camera! Action!
The triple rear camera features a 13 MP main, an 8 MP ultra-wide, and a 2 MP depth lens, while the front-facing 8 MP camera is perfect for high quality selfies and video chats.

2.5 Software Updates

Keep your Nokia G100 up-to-date with the latest software for improved performance and security.

Your browser does not support the video tag.

Video Description: An animated guide demonstrating how to check for and install software updates on a Nokia phone, showing the steps to navigate through settings to the system update option.

3. MAINTENANCE: BATTERY LIFE

The Nokia G100 is equipped with a 5000 mAh Lithium Polymer battery, designed to provide extended usage. It offers up to 3 days of standby time with data and 18 hours of talk time. A full charge typically takes 3 hours.

Long-lasting battery

Up to 2-days[1] of battery on a single charge.

Image Description: A close-up of the Nokia G100's screen displaying the battery settings, showing 100% charge and an estimated 'About 2 days left', emphasizing its long-lasting battery.

3.1 Rebooting Your Phone

If your phone is unresponsive or experiencing minor issues, a simple reboot can often resolve the problem.

Your browser does not support the video tag.

Video Description: An animated guide illustrating how to perform a hard reboot on a Nokia phone by pressing the volume up and power buttons simultaneously until the phone vibrates.

4. TROUBLESHOOTING

4.1 Charging Issues

If your Nokia G100 is not charging, follow these steps:

1. **Check Power Source:** Ensure the issue is not with the power outlet. Try plugging your phone into a different outlet.
2. **Inspect Cable and Port:** Examine the charging cable and the phone's charging port for any visible

      damage or debris.

3. **Reboot and Reconnect:** Turn your phone off completely and then plug it into the charger. If the battery is fully drained, it may take 2-3 minutes before it starts charging.

4.2 Contacting Support

If you encounter issues that cannot be resolved with the provided troubleshooting steps, Nokia offers customer support.
