GEREE BELL J9

GEREE 1080P Wireless Video Doorbell Camera User Manual

Model: BELL J9

1. Product Overview

The GEREE Wireless Video Doorbell Camera provides advanced security and convenience for your home. Featuring 1080P HD video, a 166° wide-angle lens, and infrared night vision, it ensures clear monitoring day and night. With PIR motion detection, two-way audio, and instant notifications, you can stay connected to your doorstep from anywhere. The doorbell is designed for easy installation and offers flexible storage options.

2. What's in the Box

Verify that all components are present in the package:

- 1 x Video Doorbell
- 2 x Rechargeable Batteries
- 1 x Micro USB Cable
- 1 x Pack of Screws
- 1 x Quick User Guide
- Stickers

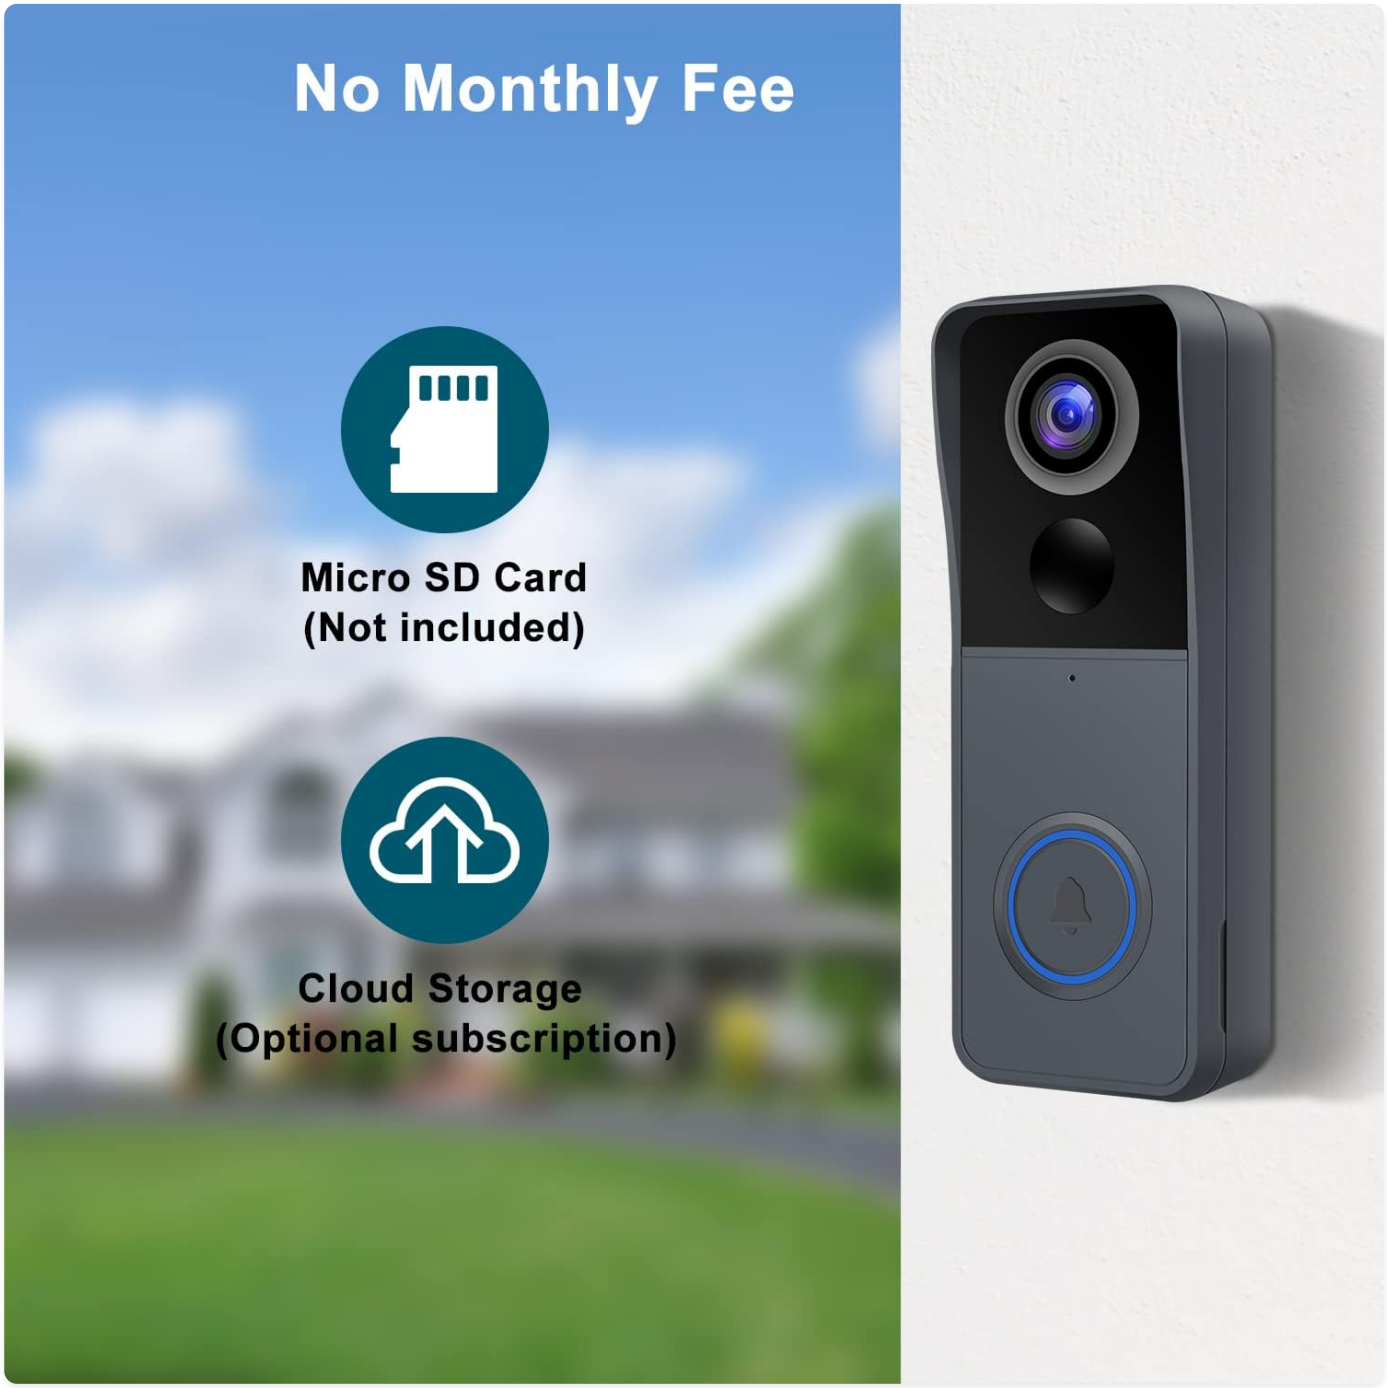

Image: A visual representation of the doorbell unit, rechargeable batteries, USB cable, screws, and quick start guide included in the product packaging.

3. Setup and Installation

3.1 Battery Charging

Before first use, fully charge the included rechargeable batteries using the Micro USB cable. The doorbell's app will display the remaining battery percentage.

3.2 App Download and Setup

Download the "Cloudot" app from Google Play Store or Apple App Store. Follow the in-app instructions to create an account and connect your doorbell to your 2.4G WiFi network (5G WiFi is not supported).

Image: Screenshots illustrating the Cloudot app download process from Google Play and the App Store, along with initial setup steps.

3.3 Physical Installation

The doorbell can be mounted using the provided screws or sticky pads. Choose a suitable location near your door. Ensure the mounting plate is securely attached to the wall or door frame, then slide the doorbell unit into place and secure it with the security screw.

Image: A visual guide demonstrating the simple steps for installing the doorbell onto a wall, including attaching the backplate and securing the unit.

4. Operating Instructions

4.1 1080P HD Video and Night Vision

The doorbell captures clear and vivid 1080P HD video. Its infrared night vision function provides clear visibility up to 16 feet (5 meters) even in low-light conditions, ensuring 24/7 monitoring.

Image: A split image showing the doorbell's view in daylight (top) and at night with infrared night vision (bottom), demonstrating clear visibility in both conditions.

4.2 Two-Way Audio and Voice Changer

Communicate directly with visitors at your door using the built-in microphone and speaker. When someone presses the doorbell, you receive an instant notification on your phone, allowing you to answer the call and speak. The doorbell also features a voice changer function for added privacy, offering options like "Clown" or "Uncle" voices.

Image: An illustration showing a user interacting with the doorbell via their smartphone, demonstrating two-way audio, voice message, and voice changer options.

4.3 PIR Motion Detection and Notifications

The doorbell features PIR (Passive Infrared) motion detection to alert you to activity at your door. You can adjust the detection sensitivity (5 modes) and set customizable motion zones within the app to reduce false alarms and focus on specific areas of interest. When motion is detected, you will receive instant notifications on your smartphone.

Image: A smartphone screen displaying a live view of a house with yellow shaded areas indicating customizable motion detection zones, designed to reduce unnecessary alarms.

4.4 Storage Options

The GEREE doorbell offers flexible video storage solutions:

- **Cloud Storage:** A 7-day free trial is available. After the trial, cloud storage is an optional subscription service.
- **Local Storage:** Supports a Micro SD card up to 128GB (not included) for continuous recording without a monthly fee. The system can overwrite older footage when the card is full.

Image: A graphic illustrating the two storage options: Micro SD Card (not included) and Cloud Storage (optional subscription), emphasizing no monthly fee for local storage.

4.5 Video Sharing

The Cloudot app allows you to share device access with family members or trusted individuals, enabling multiple users to

view live feeds and receive alerts.

Image: A smartphone screen showing the device share option within the app, surrounded by icons representing multiple users, indicating the video sharing capability.

5. Maintenance

5.1 Battery Maintenance

Recharge the doorbell batteries as needed. The app will notify you when the battery level is low. For continuous power, consider using a battery pack if you prefer not to remove the doorbell for charging.

5.2 Weather Resistance

The GEREE doorbell is IP66 waterproof, designed to withstand various weather conditions including rain, snow, and dust. Periodically wipe the lens and casing with a soft, damp cloth to ensure optimal performance and clear image quality.

Image: The doorbell mounted on a wall, with icons representing its resistance to rain, snow, sunshine, temperature variations, and dust, highlighting its IP66 waterproof rating.

6. Troubleshooting

- **No Power:** Ensure batteries are fully charged and correctly inserted.
- **No Notifications:** Check app settings to ensure notifications are enabled. Verify your phone's notification settings for the Cloudot app.
- **Poor Wi-Fi Connection:** Ensure the doorbell is within range of your 2.4G WiFi router. Avoid placing it too far from the router or near strong interference sources.
- **Video Quality Issues:** Check your internet connection speed. Ensure the camera lens is clean and free from obstructions.
- **Motion Detection Issues:** Adjust PIR sensitivity settings in the app. Review and modify customizable motion

zones.

7. Specifications
