TaoHFE Litter Box Enclosure User Manual

Model: CT-CLBE001

INTRODUCTION

This manual provides comprehensive instructions for the assembly, operation, and maintenance of your TaoHFE Litter Box Enclosure. This furniture piece is designed to discreetly house a cat litter box, offering a private space for your feline companion while blending seamlessly with your home decor. It features a durable, water-resistant surface and includes an integrated cat scratch pad.

SAFETY INFORMATION

- Read all instructions carefully before assembly and use.
- Keep all small parts and packaging materials away from children and pets during assembly.
- Ensure all fasteners are securely tightened before use. Periodically check and re-tighten if necessary.
- Do not overload the top surface of the enclosure.
- Place the enclosure on a flat, stable surface to prevent tipping.
- This product is designed for pet use. Do not allow children to climb inside or on the enclosure.

PARTS LIST

Please verify that all parts are present before beginning assembly. If any parts are missing or damaged, contact customer support.

Part	Quantity	Description
A	1	Top Panel
B	1	Bottom Panel
C	2	Side Panels
D	1	Back Panel
E	2	Cabinet Doors

Part	Quantity	Description
F	4	Legs
G	1	Cat Scratch Pad
H	Various	Hardware (screws, dowels, hinges, handles)

ASSEMBLY INSTRUCTIONS

Assembly typically takes approximately 2 hours. A Phillips head screwdriver and a flathead screwdriver are required (not included).

Step 1: Attach Legs to Bottom Panel

Secure the four legs (F) to the designated corners on the underside of the Bottom Panel (B) using the provided screws.

Image description: An underside view of the litter box enclosure, highlighting the sturdy black legs securely fastened to the base.

Step 2: Assemble Side and Back Panels

Connect the Side Panels (C) and Back Panel (D) to the Bottom Panel (B) using dowels and cam locks. Ensure the pre-drilled holes align.

Image description: A view of the litter box enclosure during assembly, with the side and back panels upright and connected to the base, forming the main structure.

Step 3: Attach Top Panel

Place the Top Panel (A) onto the assembled side and back panels, aligning the holes. Secure it with cam locks and screws.

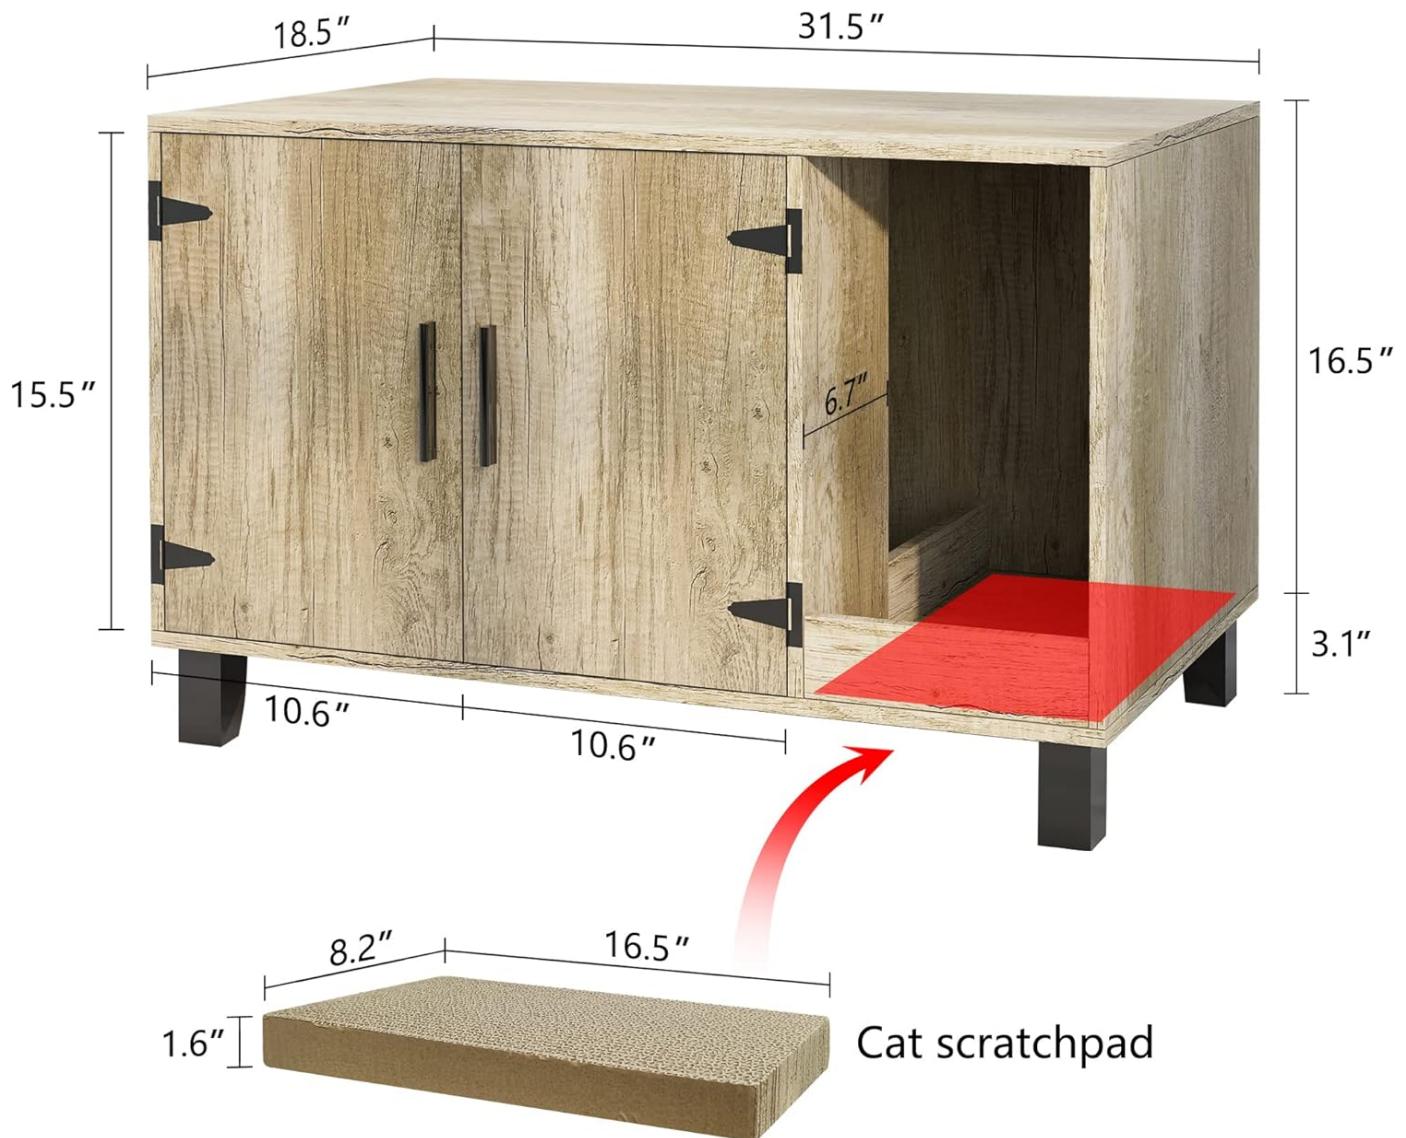

Image description: The litter box enclosure fully assembled, viewed from the front, showcasing its complete structure with the top panel in place.

Step 4: Install Cabinet Doors

Attach the hinges to the Cabinet Doors (E) and then to the main enclosure frame. Install the door handles.

Image description: A light wood-colored litter box enclosure with its two cabinet doors closed, and a fluffy grey cat sitting calmly in front of the side entrance.

Step 5: Place Cat Scratch Pad

Insert the Cat Scratch Pad (G) into the designated slot in the open side of the enclosure.

Step 6: Final Check

Ensure all screws and fasteners are tight. The enclosure is now ready for use.

OPERATING INSTRUCTIONS

Placing the Litter Box

Open the cabinet doors. Place your cat's litter box (not included) inside the main compartment. Ensure it fits comfortably within the dimensions (suitable for litter boxes no more than 20 inches).

Image description: The litter box enclosure with its double doors open, revealing a litter box placed neatly inside the main compartment.

Cat Entry and Exit

Cats can enter and exit through the side opening. The integrated scratch pad helps to remove litter from paws, reducing tracking.

Ventilation

The enclosure features ventilation holes to help maintain air circulation and reduce odor.

Image description: A close-up image showing the circular ventilation holes located on the back panel of the litter box enclosure.

MAINTENANCE

Cleaning the Enclosure

The walnut veneered surface is water-resistant and can be wiped clean with a damp cloth. Avoid abrasive cleaners.

Image description: A close-up view of the wood-grain surface of the enclosure, highlighting its water-resistant properties.

Replacing the Scratch Pad

The included scratch pad is replaceable. Monitor its condition and replace it when it becomes worn to ensure continued effectiveness in litter trapping.

TROUBLESHOOTING

Odor Issues

Ensure the litter box is cleaned regularly. The enclosure's ventilation helps, but proper litter box hygiene is key. Consider using odor-absorbing litter or a deodorizer inside the enclosure.

Litter Tracking

The integrated scratch pad is designed to minimize tracking. Ensure it is properly positioned and replace it if it is worn out. You may also consider using a litter mat outside the enclosure for additional litter control.

Assembly Difficulties

If you encounter difficulties during assembly, double-check the instruction manual steps and diagrams. Ensure all parts

are correctly oriented. If issues persist, contact customer support.

SPECIFICATIONS

- **Model:** CT-CLBE001
- **Brand:** TaoHFE
- **Material:** Engineered Wood
- **Color:** Oak
- **Product Dimensions (L x W x H):** 31.5" x 18.5" x 19.7"
