Spigen Rugged Armor Case for AirPods Pro 2nd Generation (USB-C/Lightning) Instruction Manual

INTRODUCTION

This manual provides detailed instructions for the proper installation, usage, and maintenance of your Spigen Rugged Armor case for AirPods Pro 2nd Generation. Please read this guide thoroughly to ensure optimal performance and protection for your device.

PRODUCT OVERVIEW

The Spigen Rugged Armor case is engineered to provide robust protection for your AirPods Pro 2nd Generation charging case. It features a matte-black finish that resists fingerprints and a hybrid polymer construction for dual-layer defense against drops and scratches. The design ensures the power light remains visible for quick battery status checks.

- **Material:** Hybrid Polymer Technology for dual-layer protection.
- **Finish:** Matte black, resistant to fingerprints.
- **Visibility:** Supports visibility of the power light.
- **Portability:** Includes a metal carabiner and features cutouts for lanyard compatibility.
- **Compatibility:** Specifically designed for AirPods Pro 2nd Generation (USB-C/Lightning Cable) charging cases. **Not compatible with other AirPods models.**

INSTALLATION GUIDE

Follow these steps to properly install your AirPods Pro 2nd Generation charging case into the Spigen Rugged Armor case:

1. **Prepare the Case:** Ensure your AirPods Pro 2nd Generation charging case is clean and free of debris.

2. **Insert Bottom Half:** Carefully slide the bottom portion of your AirPods Pro charging case into the lower part of the Spigen Rugged Armor case. Ensure it seats firmly.

3. **Install Top Half:** Place the top cover of the Spigen Rugged Armor case onto the lid of your AirPods Pro charging case. Press down gently but firmly until it is securely attached. Some models may include an adhesive sticker for the lid to ensure a tighter fit; apply if provided.

4. **Check Fitment:** Verify that the case is fully enclosed and all cutouts align correctly with the charging port, speaker, and pairing button.

Total protection.

Fully protects from everyday drops and scratches.

Air Cushion Technology

The AirPods Pro 2nd Generation charging case securely housed within the Spigen Rugged Armor case, illustrating comprehensive protection.

OPERATING INSTRUCTIONS

Accessing AirPods

To access your AirPods, simply open the lid of the Spigen Rugged Armor case. The precise design allows for smooth opening and closing while keeping your AirPods secure.

Charging

The Spigen Rugged Armor case supports both wired and wireless charging methods for your AirPods Pro 2nd Generation charging case.

- **Wired Charging:** Connect a USB-C or Lightning cable (depending on your AirPods Pro 2nd Gen model) to the charging port at the bottom of the case. The case features a precise cutout for easy access.
- **Wireless Charging:** Place the entire case, with your AirPods inside, onto a compatible wireless charging pad. The case is designed to allow wireless charging without removal.
- **Important Note:** This case is **NOT compatible with Apple Watch chargers**.

Out of battery?

Keep the case on while charging your device.

Plug-in.

Charge wirelessly.

*MagSafe charger and cables not included.

The case supports both wired charging via the port and wireless charging on a compatible pad.

Portability

Utilize the included metal carabiner to easily attach your AirPods Pro case to bags, belt loops, or keys for convenient everyday carry. The case also features a dedicated cutout for attaching a lanyard, offering additional carrying options.

The included carabiner and lanyard cutout provide versatile carrying options for your AirPods Pro case.

MAINTENANCE

To maintain the appearance and functionality of your Spigen Rugged Armor case, follow these simple guidelines:

- **Cleaning:** Wipe the case regularly with a soft, damp cloth to remove dust and fingerprints. Avoid using harsh chemicals or abrasive materials, as these may damage the matte finish.
- **Storage:** Store the case in a cool, dry place away from direct sunlight and extreme temperatures when not in use.

TROUBLESHOOTING

If you encounter any issues with your Spigen Rugged Armor case, refer to the following common solutions:

- **Case Not Fitting Properly:** Ensure your device is an AirPods Pro 2nd Generation charging case. This case is precisely designed for this specific model and will not fit other AirPods versions. Re-check the installation steps to ensure the case halves are securely attached.
- **Lid Feels Loose:** If the top cover feels loose, ensure it is pressed down firmly. Some units may

include a small adhesive strip to secure the lid more tightly; apply this if available and needed.

- **Charging Light Not Visible:** The case is designed with a cutout to allow the power light to be visible. If you cannot see the light, ensure the AirPods case is correctly seated within the Spigen case and that the cutout aligns.

- **Difficulty Accessing Pairing Button:** The case has a precise cutout for the pairing button. If you are having trouble, ensure the AirPods case is correctly aligned within the Spigen case.

Precise cutouts ensure full access to the pairing button and built-in speaker of the AirPods Pro 2nd Generation.
