Larcele Panda Micro Building Blocks Set: Assembly Instructions

Model: KLJM-07

[Introduction](#) [Safety Information](#) [Package Contents](#) [Assembly Instructions](#) [Maintenance](#) [Troubleshooting](#) [Specifications](#) [Warranty & Support](#)

1. INTRODUCTION

This manual provides detailed instructions for assembling your Larcele Panda Micro Building Blocks Set (Model KLJM-07). This set contains 1628 micro-sized building bricks designed to create a detailed panda figure. Please read all instructions carefully before beginning assembly to ensure a smooth and enjoyable building experience.

2. SAFETY INFORMATION

- **Choking Hazard:** This product contains very small parts and is not suitable for children under 3 years of age. We recommend this product for individuals aged 14 and above due to the small size of the bricks and the complexity of assembly.
- Keep all packaging materials away from children.
- Do not ingest any parts of the building block set.
- Always supervise younger individuals if they are assisting with assembly.

3. PACKAGE CONTENTS

Your Larcele Panda Micro Building Blocks Set package should contain the following items:

- Approximately 1628 micro building bricks (various shapes and colors, primarily black and white).
- One (1) Instruction Manual (this document).

Image: A visual comparison showing the small size of the micro building blocks relative to common objects like coins and a human finger, highlighting the precision required for assembly.

4. ASSEMBLY INSTRUCTIONS

The assembly process involves building the panda figure layer by layer. Patience and attention to detail are key. It is highly recommended to use tweezers (not included) for handling the tiny bricks.

4.1. Preparation

1. **Unpack and Sort:** Carefully open the brick packages. It is advisable to sort the bricks by color and shape before starting. This will significantly aid in finding the correct pieces during assembly.
2. **Review Instructions:** Familiarize yourself with the instruction manual. Each step illustrates a layer of the model.

4.2. Layer-by-Layer Assembly

Follow the provided instruction diagrams precisely. Each diagram shows a specific layer and indicates where each brick should be placed. Pay close attention to the orientation and connection points.

- **Start from the Base:** Begin with the first layer as indicated in the manual. Ensure the base is stable and correctly formed.

- **Identify Connection Points:** For each subsequent layer, count the studs and identify the exact points where new bricks connect to the previous layer. The instructions will guide you on how to align the bricks.
- **Secure Placement:** Gently press each brick into place. Due to their small size, ensure they are firmly seated to prevent the structure from becoming unstable.
- **Symmetry:** Many parts of the model will have symmetrical placements. Use this to your advantage to ensure correct alignment.

4.3. Tips for Assembly

- **Use Tweezers:** The bricks are very tiny. Using a pair of fine-tipped tweezers can greatly assist in picking up and placing individual pieces accurately.
- **Work on a Clean, Flat Surface:** This prevents losing small pieces and provides a stable building area.
- **Take Breaks:** If you find the process challenging, take short breaks to rest your eyes and hands.
- **Double-Check Each Layer:** Before proceeding to the next layer, verify that all bricks in the current layer are correctly placed and secured according to the instructions.

5. MAINTENANCE

To keep your Larcele Panda Micro Building Blocks Set in good condition:

- **Cleaning:** Use a soft, dry cloth or a small brush to gently remove dust from the assembled model. For deeper cleaning, a slightly damp cloth can be used, but avoid excessive moisture. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** Store the assembled model or unbuilt bricks in a cool, dry place away from direct sunlight to prevent discoloration or material degradation.

6. TROUBLESHOOTING

Problem	Solution
Bricks do not fit together properly.	Ensure you are using the correct bricks for the current step. Double-check the instruction diagram for the exact shape and size. Apply gentle, even pressure. If a brick is consistently difficult to fit, it might be slightly warped; try another similar piece if available.
Model is unstable or falls apart.	Review previous layers to ensure all bricks are firmly pressed into place and correctly aligned. Incorrect placement in earlier layers can affect the stability of subsequent layers.
Missing pieces.	Thoroughly check your work area and packaging. Due to the small size, pieces can easily be overlooked. If pieces are genuinely missing, contact Larcele customer support.

Problem	Solution
Instructions are unclear.	Refer to the provided assembly video for visual guidance. Pay close attention to the highlighted areas in the diagrams which often indicate critical connection points.

7. SPECIFICATIONS

Feature	Detail
Brand	Larcele
Model Name	LCE-KLJM-07US
Model Number	KLJM-07
Theme	Animal (Panda)
Number of Pieces	1628
Material Type	Plastic
Item Dimensions (Assembled)	5.5 x 4.7 x 5.9 inches (14 x 12 x 15 cm)
Item Weight	0.45 Kilograms
Recommended Age	14+ years (Manufacturer minimum age 36 months, but 14+ recommended due to micro size)
Educational Objective	Construction Skills

SIZE
