honeyguaridan A40

HoneyGuaridan A40 Automatic Pet Feeder

User Instruction Manual

1. Introduction

Thank you for choosing the HoneyGuaridan A40 Automatic Pet Feeder. This device is designed to provide scheduled and portion-controlled meals for your pets, ensuring a consistent feeding routine. Please read this manual thoroughly before use to ensure proper operation and maintenance.

2. Safety Information

- This appliance is for indoor use only.
- Do not immerse the main unit in water or any other liquid.
- Keep out of reach of children and pets to prevent tampering.
- Use only dry pet food. Do not use wet, canned, or moist food.
- Ensure the power adapter cable is not chewed by pets.
- Always unplug the feeder before cleaning.

3. Package Contents

Please check the package for the following items:

- Automatic Pet Feeder Main Unit
- Food Container
- Stainless Steel Food Bowl
- Power Adapter
- Desiccant Bag
- User Manual

4. Product Overview

Familiarize yourself with the components of your HoneyGuaridan A40 Automatic Pet Feeder.

Image: An exploded view diagram illustrating the internal structure of the feeder, highlighting the safety seal lock lid, desiccant compartment, anti-clog design, and damp-proof sealing part, ensuring food freshness.

- **Food Container:** Holds up to 4.5 liters (approximately 16 cups) of dry pet food.
- **Control Panel:** Features an LCD display and buttons for programming meal times, portions, and voice recording.
- **Dispenser Outlet:** Where food is dispensed into the bowl.
- **Stainless Steel Bowl:** Removable for easy cleaning.
- **Desiccant Bag Compartment:** Located under the lid to keep food fresh.
- **Power Port:** For connecting the DC power adapter.

- **Battery Compartment:** Located at the bottom for backup power (requires 4 D-alkaline batteries, not included).

5. Setup

5.1 Assembly

1. Place the main unit on a flat, stable surface.
2. Insert the stainless steel bowl into its designated slot at the base of the feeder.
3. Ensure the food container is securely attached to the main unit.

5.2 Power Supply

The feeder supports dual power options:

Image: A diagram illustrating the dual power options: 4*D Batteries (not included) and a Power Adapter (5V-1A). The internal battery compartment is shown.

- **AC Adapter:** Connect the provided power adapter to the feeder's power port and plug it into a wall outlet. This is the primary power source.
- **Battery Backup:** For power outages, install 4 D-alkaline batteries (not included) into the battery compartment at the bottom of the unit. The feeder can operate for up to 3 months on battery power alone.

5.3 Filling the Food Container

1. Open the lid of the food container.

2. Place the desiccant bag into its designated slot under the lid to maintain food freshness. Replace the desiccant bag every 1-2 months.
3. Pour dry pet food into the container. The feeder is suitable for kibble sizes between 0.5cm and 1.2cm (0.19in-0.47in).
4. Close the lid securely to ensure the safety seal is engaged.

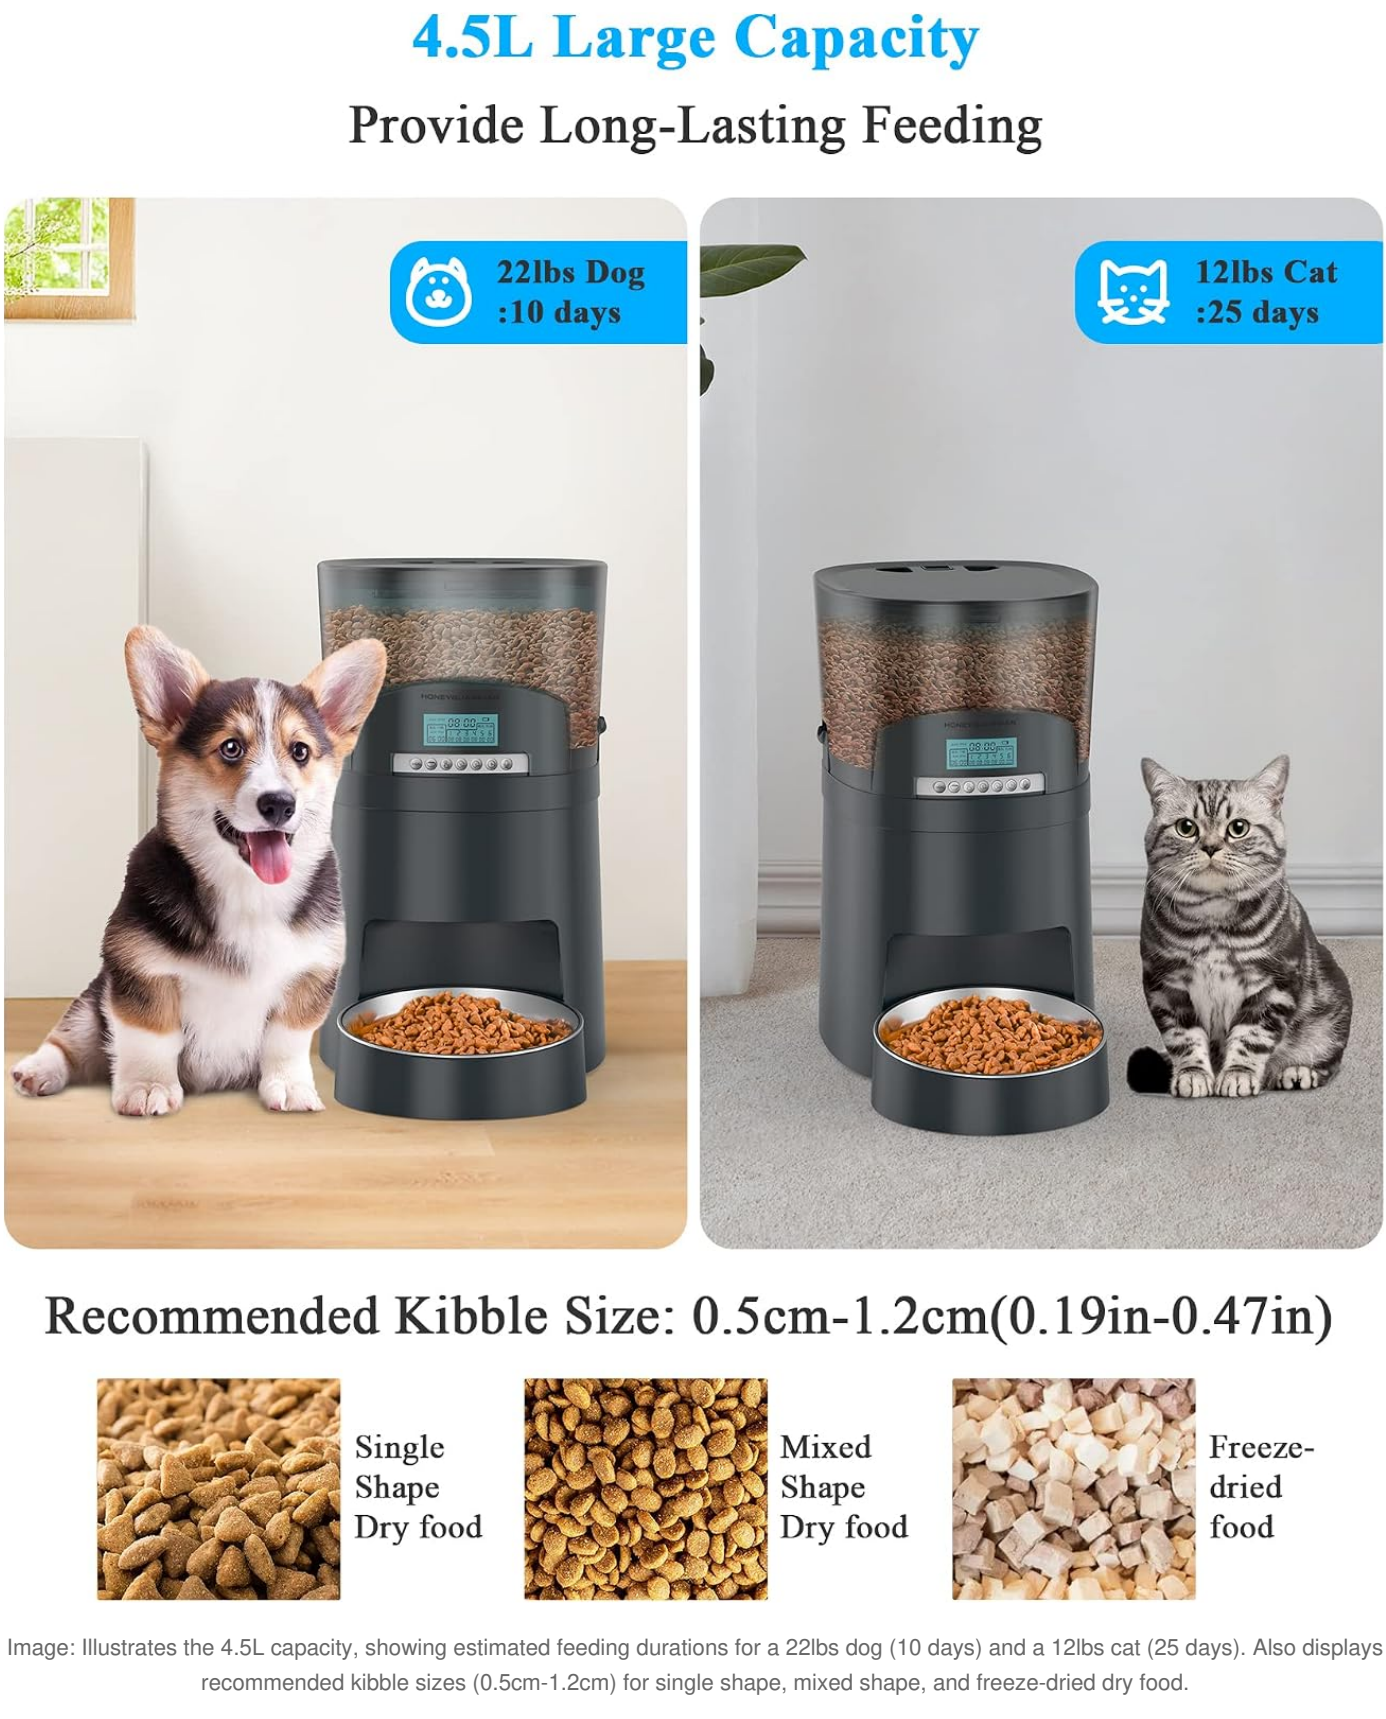

Image: Illustrates the 4.5L capacity, showing estimated feeding durations for a 22lbs dog (10 days) and a 12lbs cat (25 days). Also displays recommended kibble sizes (0.5cm-1.2cm) for single shape, mixed shape, and freeze-dried dry food.

6. Operating Instructions

6.1 Setting the Clock

Refer to the specific instructions on the control panel for setting the current time. This is crucial for accurate meal scheduling.

6.2 Programming Feeding Schedules

The feeder allows you to program up to 6 meals per day, with 1 to 48 portions per meal. Each portion is approximately 6g (0.3oz).

Image: The HoneyGuaridan A40 Automatic Pet Feeder with icons indicating customizable feeding schedule features: 1-6 meals, 1-48 portions, 1 portion ≈ 6g, and a programmable timer.

1. Access the programming menu on the control panel.
2. Select the meal number (e.g., Meal 1, Meal 2).
3. Set the desired feeding time for each meal.
4. Adjust the number of portions (1-48) for each scheduled meal.
5. Confirm and save your settings. The schedule will be permanently stored even if power is lost and the feeder switches to battery backup.

6.3 Customizable Voice Recording

You can record a 10-second voice message to call your pet to their meal.

Image: The HoneyGuaridan A40 Automatic Pet Feeder with a cat approaching, illustrating the 10-second meal call recording feature. A speech bubble indicates a recorded message: "Baby, It's time to have meal!"

1. Press and hold the record button on the control panel.
2. Speak your message into the microphone.
3. Release the button to save the recording.
4. You can choose to enable or disable the voice playback during meal times through the settings.

6.4 Manual Feeding

To dispense food manually, press the manual feed button on the control panel. This will dispense one portion of food immediately.

7. Maintenance

7.1 Cleaning

Regular cleaning ensures hygiene and proper functioning of the feeder.

1. Unplug the feeder from the power source and remove any batteries.
2. Remove the food container and the stainless steel bowl.
3. Wash the food container and stainless steel bowl with mild soap and water. Rinse thoroughly and dry completely before reassembling.
4. Wipe the main unit with a damp cloth. Do not submerge the main unit in water.
5. Ensure all parts are dry before refilling with food and reconnecting power.

7.2 Desiccant Bag Replacement

Replace the desiccant bag every 1-2 months to maintain optimal food freshness.

8. Troubleshooting

Problem	Possible Cause	Solution
Feeder not dispensing food.	No power; Food jammed; Incorrect settings.	Check power connection/batteries; Clear food path; Verify feeding schedule and portions.
Display not working.	No power; Batteries low.	Check power adapter; Replace D-alkaline batteries.
Food not fresh.	Lid not sealed; Desiccant bag expired.	Ensure lid is closed tightly; Replace desiccant bag.
Voice recording not playing.	Recording disabled; No recording saved.	Enable voice playback in settings; Re-record message.

9. Specifications
