### FUWANG A3354/A3355/A3356/A2696 A2757 A2777

# FUWANG Keyboard Case for iPad A16 (11th Gen) and iPad 10th Gen User Manual

Model: A3354/A3355/A3356/A2696 A2757 A2777

## INTRODUCTION

---

This manual provides comprehensive instructions for the FUWANG Magnetic Detachable 7-Color Backlit Folio Cover Keyboard Case. This accessory is designed to enhance your iPad experience by offering protection, versatile viewing angles, and a comfortable typing solution. Please read this manual thoroughly before using the product to ensure proper operation and longevity.

## COMPATIBILITY

---

This keyboard case is specifically designed for the following iPad models:

- iPad (A16) 11th Generation 11-inch 2025 (Model Numbers: A3354, A3355, A3356)
- iPad 10th Generation 10.9 inch 2022 (Model Numbers: A2696, A2757, A2777, A3162)

To confirm your iPad model number, please check the back of your tablet for the 'AXXX' designation. This case is not compatible with any other iPad models.

## SETUP INSTRUCTIONS

### 1. Installing Your iPad into the Case

1. Gently align your iPad with the protective shell of the case.
2. Press the iPad firmly into the case, ensuring all corners and edges are securely fitted. The precise cutouts should align with your iPad's camera, speakers, and buttons.

# Magnetic Removable Keyboard Case

Flexibility to use the keyboard for work or play at any time

Image: Step-by-step visual guide for inserting the iPad into the case.

## 2. Charging the Keyboard

Before initial use, fully charge the wireless keyboard. Connect the provided Type-C charging cable to the keyboard's charging port and a suitable USB power source. The Charge LED (Red) will light up during charging and turn off when fully charged. A full charge typically takes 2-3 hours.

# Type-c Fast Charging Port

Built-in 500mAh high-capacity battery for long battery life.

### 3. Pairing the Keyboard via Bluetooth

1. Turn on the keyboard by sliding the 'ON/OFF' switch to the 'ON' position. The Power LED (Blue) will light up for 2 seconds.
2. Press the 'CONNECT' button on the keyboard. The BT LED (Blue) will start flashing, indicating it's in pairing mode.
3. On your iPad, go to 'Settings' > 'Bluetooth' and turn Bluetooth 'On'.
4. Look for 'Bluetooth Keyboard' in the 'MY DEVICES' list and tap to connect. The BT LED will turn off automatically once paired.

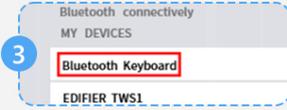

# Quick and Easy Way to Link

Push the button to ON the POEWE light is on.

Press the connect button, the BT light is on.

Select the Keyboard Bluetooth on the iPad.

## Your Bluetooth link is not working?

1. If the keyboard is connected to another device, please "Forget this Device" first. Note: Clicking Disconnect is not effective.
2. Turn the Bluetooth Keyboard on your iPad to "Forget this Device".
3. Restart the keyboard on/off key.
4. Press the CONNECT button again, the BT button will light up and reconnect.

## OPERATING INSTRUCTIONS

### 1. Adjusting Viewing Angles

The case features multiple grooves to securely hold your iPad at various viewing angles, allowing for comfortable typing, drawing, or media consumption. Simply adjust the iPad's position within the grooves to find your preferred angle.

Image: Illustrates various usage modes: drawing, work, typing, and reading, showcasing the case's flexibility.

## 2. Using the Backlit Keyboard

The keyboard features 7 backlight colors and 3 brightness levels. To cycle through the backlight colors, press the **Light Bulb** key. To adjust brightness, press the **Sun** key (often combined with the Light Bulb key or a dedicated brightness key).

# Your Mobile Productivity Workstation

Customize your typing experience

Video: Demonstrates the various backlight colors and brightness settings of the keyboard.

### 3. Keyboard Shortcut Keys

The keyboard includes a row of dedicated shortcut keys for increased productivity. These keys provide quick access to common functions such as volume control, media playback, and screen lock.

## A Whole Row of Shortcuts Key

Image: Detailed view of the keyboard's shortcut key row, highlighting their functions.

### 4. Auto Sleep/Wake Function

The case supports the iPad's auto sleep/wake function, which helps conserve battery life. When you close the case, your iPad will automatically go to sleep, and when you open it, the iPad will wake up. For optimal performance of this feature, it is recommended to remove the wireless Bluetooth keyboard from the case, as the keyboard's internal magnets may interfere with the case's magnetic attraction to the iPad.

## Auto Wake and Sleep

\*For best sleep/wake results, remove the keyboard, as keyboards with iron may prevent the magnets from attracting each other.

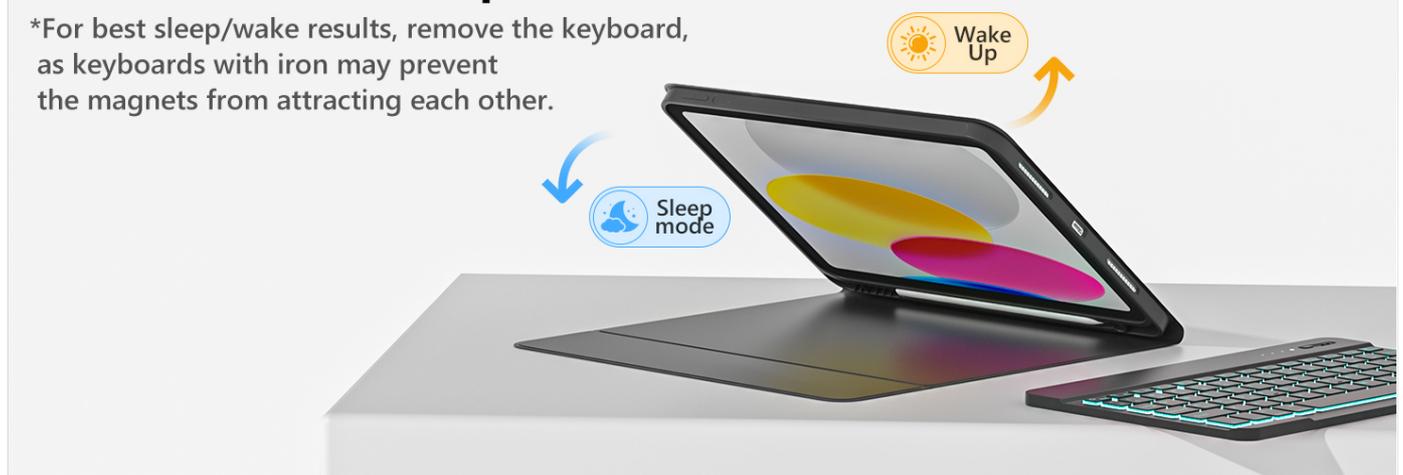

Image: Illustration of the auto sleep/wake feature, showing the iPad entering sleep mode when the case is closed and waking when opened.

## MAINTENANCE

### 1. Cleaning the Case and Keyboard

- **Case:** Wipe the PU leather exterior with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners.
- **Keyboard:** Use a soft, dry cloth to clean the keys. For stubborn dirt, a slightly damp cloth can be used, ensuring no moisture enters the keyboard. Do not immerse the keyboard in water.

### 2. Storage

When not in use for extended periods, store the keyboard case and keyboard in a cool, dry place. Ensure the keyboard is turned off to preserve battery life.

### 3. Battery Care

To maintain optimal battery health, avoid fully discharging the keyboard battery frequently. Recharge the keyboard when the battery level is low.

## TROUBLESHOOTING

---

### Keyboard Not Connecting via Bluetooth

1. **Check Keyboard Power:** Ensure the keyboard is turned on and has sufficient battery charge.
2. **iPad Bluetooth:** Verify that Bluetooth is enabled on your iPad (Settings > Bluetooth).
3. **Forget Device:** If the keyboard was previously paired but is not connecting, go to your iPad's Bluetooth settings, tap the 'i' icon next to 'Bluetooth Keyboard', and select 'Forget This Device'. Then, attempt to pair again following the 'Pairing the Keyboard via Bluetooth' steps.
4. **Restart Devices:** Turn off both your iPad and the keyboard, then restart them and attempt pairing again.
5. **Interference:** Ensure there are no other Bluetooth devices causing interference nearby.

### Backlight Not Working/Changing

- **Check Battery:** Low battery can affect backlight functionality. Ensure the keyboard is charged.
- **Press Light Bulb Key:** Repeatedly press the **Light Bulb** key to cycle through colors and ensure the backlight is active.
- **Adjust Brightness:** Use the **Sun** key to adjust brightness levels.
