Type-C to 3.5mm Adapter*1

Instructions*1

Color-calibration report*1

All components included in the product packaging for the INNOCN 32Q1U monitor.

- INNOCN 32" OLED 4K PC Monitor
- Monitor Stand (Base and Arm)
- Power Cable

- Power Adapter
- Type-C Cable
- Type-C to 3.5mm Adapter
- Instruction Manual
- Color Calibration Report

2.2 Physical Setup

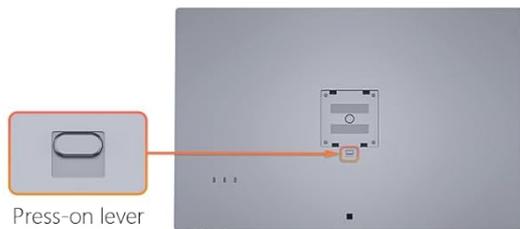

1. **Assemble the Stand:** Attach the monitor arm to the base. Ensure it clicks securely into place. The stand is designed for easy, tool-free assembly.
2. **Attach Monitor to Stand:** Carefully align the monitor with the stand arm and secure it. The monitor supports VESA 100mm x 100mm mounting for alternative setups.
3. **Connect Power:** Connect the power adapter to the monitor's power input and then plug the power cable into a wall outlet.
4. **Connect Devices:** Use the provided Type-C cable to connect your computer or other compatible devices to the monitor's USB Type-C input ports. The monitor features two USB Type-C ports for video input and power delivery, and one USB Type-C audio jack.

Designed for Comfort

No tools are required to install and remove the stand. Adjust at will to find the best viewing angle for you.

3. OPERATING INSTRUCTIONS

3.1 Power On/Off and Input Selection

Press the power button (location typically on the back or bottom right) to turn the monitor on or off. Use the OSD (On-Screen Display) menu to select your desired input source (USB-C 1 or USB-C 2).

3.2 Display Settings

Navigate the OSD menu using the control buttons to adjust various display settings:

- **Brightness/Contrast:** Adjust to your preferred viewing level.

- **Color Settings:** Fine-tune color temperature, gamma, and utilize the 6-Axis Color Correction for precise color accuracy. The monitor supports 99% DCI-P3 and 99% sRGB.
- **HDR Mode:** Enable HDR10 for enhanced dynamic range with compatible content.
- **Low Blue Light:** Activate this feature to reduce eye strain during prolonged use. The monitor is TÜV Rheinland certified for low blue light emission.

The advanced OLED 4K panel provides immersive and detailed visuals, supporting a wide range of color gamuts.

6-Axis Color Correction, Color Accuracy $\Delta E < 1$

A dual monitor setup illustrating the precision of 6-Axis Color Correction, crucial for professional design and video editing.

Care Your Eyes Day and Night

Low Blue Light technology can effectively reduce harmful blue light and protect your eyes when you edit images, videos or watch movies for a long time.

The monitor features Low Blue Light technology to protect your eyes during extended viewing sessions.

3.3 USB Type-C Functionality

The monitor's USB Type-C ports support video input, data transfer, and power delivery. Connect compatible laptops (e.g., MacBook Air/Pro, Mac mini) or other devices to charge them while displaying content. Note that power delivery is up to 90W when one device is connected, and 45W when two devices are connected simultaneously.

3.4 Picture-in-Picture (PIP) and Picture-by-Picture (PBP)

The monitor supports PIP and PBP modes, allowing you to view content from two different sources simultaneously. Refer to the OSD menu for options to configure the layout and input sources for these modes.

3.5 Audio

The monitor includes built-in 5W*2 stereo speakers. You can also connect external audio devices via the USB Type-C audio jack using the provided Type-C to 3.5mm adapter.

Decent Stereo Speakers, Immersive Experience

The monitor's integrated stereo speakers provide a decent audio experience for various media.

3.6 Ergonomic Adjustments

Adjust the monitor to your preferred viewing angle and height for optimal comfort:

- **Height Adjustment:** Adjust the monitor height by up to 5 inches (approx. 120mm).
- **Tilt Adjustment:** Tilt the screen forward by 5° or backward by 20°.
- **Swivel Adjustment:** Swivel the monitor left or right by 45°.
- **Pivot Adjustment:** Rotate the screen by $\pm 90^\circ$ for portrait or landscape orientation.

4. MAINTENANCE

4.1 Cleaning the Monitor

- Always power off the monitor and unplug it from the power outlet before cleaning.
- Use a soft, lint-free cloth slightly dampened with water or a non-abrasive screen cleaner.
- Do not spray cleaner directly onto the screen.
- Avoid using alcohol, ammonia, or abrasive cleaners, as they may damage the screen surface.

4.2 OLED Panel Care

To prolong the life of your OLED panel and prevent image retention:

- Avoid displaying static images for extended periods.
- Utilize screen savers or dynamic wallpapers.
- Turn off the monitor when not in use.
- Adjust brightness to appropriate levels for your environment.

5. TROUBLESHOOTING

Problem	Possible Cause	Solution
No image on screen	Power cable loose; Input source incorrect; Device not connected properly.	Check power connections. Select correct input source via OSD. Ensure USB-C cable is securely connected to both monitor and device.
No sound	Volume too low; Muted; Incorrect audio output selected on device.	Increase monitor volume. Check if monitor is muted. Ensure audio output on your device is set to the monitor.
Image is distorted or colors are off	Display settings incorrect; Cable issue.	Reset display settings to factory defaults. Try a different USB-C cable. Ensure your device's graphics drivers are up to date.
Monitor does not power on (DOA)	Internal component failure.	If the monitor does not power on out of the box, contact INNOCN customer support immediately for assistance or replacement.
