SAFETY INFORMATION

General Safety Guidelines

- Always wear a helmet when riding.
- Ensure all bolts and quick releases are securely tightened before each ride.
- Check tire pressure regularly.
- Verify brake functionality before each use.
- Ride in well-lit areas and use reflectors at night.
- Children should be supervised by an adult while riding.
- Adhere to local traffic laws and regulations.

PACKAGE CONTENTS

The AVASTA Govet 20" Kids Mountain Bike package includes the following components:

- Bike Frame (partially assembled)
- Front Wheel
- Handlebar
- Pedals (Left and Right)
- Saddle and Seatpost
- Front Reflector
- Rear Reflector
- Bell Ring
- Tool Kit (for assembly)

SETUP AND ASSEMBLY

Your AVASTA Govet 20" Kids Mountain Bike comes 85% pre-assembled. The following steps detail the final assembly process.

Assembly Steps Overview

SIMPLE ASSEMBLY STEPS

OPERATING INSTRUCTIONS

Rider Fit and Adjustment

The AVASTA Govet 20" Kids Mountain Bike is designed for children aged 6-13 years or with a height of 45-59 inches. Proper bike fit is crucial for safety and comfort. Adjust the saddle height so the rider can comfortably touch the ground with their toes while seated.

Pedal into adventure with our safe, stylish kids' bike – the perfect ride for your little explorer to grow, learn, and have fun!

Image: Bike size fitting guidance, illustrating how rider height and inseam length relate to saddle height and wheel size for optimal fit.

Gear Shifting (6 Speeds)

Your bike is equipped with a SHIMANO TX30 trigger shifter and a 6-speed drivetrain. Use the shifter on the handlebar to change gears. Shift to lower gears for climbing hills and higher gears for flat terrain or downhill riding. Practice shifting in a safe, open area until comfortable.

Comfortable Ergonomic Saddle

High Carbon Steel Frame

Braking System (Dual V-Brakes)

The bike features a dual V-braking system for reliable stopping power. The left-hand lever controls the front wheel brake, and the right-hand lever controls the rear wheel brake. Apply both brakes gently and evenly to slow down or stop. Avoid sudden, hard braking, especially with the front brake, to prevent loss of control.

Size Chart

Bike Size Fitting Guidance

Note: Kids Height is the most important criterion for evaluation.

Wheel Size	Saddle Height	Inseam Length	Kids Height	Bike Weight	Comes with
20"	23" ~ 26"	21" ~ 25"	44" ~ 55"	23lbs(10kg)	Kickstand

Suspension Fork

The front suspension fork helps absorb shocks and bumps, providing a smoother ride over varied terrain. This feature enhances comfort and control, particularly on unpaved paths.

Reliable Front Suspension

6-speed Shifter

MAINTENANCE

Regular maintenance ensures the longevity and safe operation of your bicycle.

- **Tire Pressure:** Check tire pressure before each ride. Refer to the tire sidewall for recommended PSI.
- **Chain Lubrication:** Lubricate the chain regularly, especially after riding in wet or dusty conditions. Use a bicycle-specific chain lubricant.
- **Brake Check:** Inspect brake pads for wear and ensure brake levers engage smoothly and effectively. Adjust as needed.
- **Bolt Tightness:** Periodically check all bolts and fasteners, especially on the handlebars, seatpost, and wheels, to ensure they are secure.
- **Cleaning:** Clean the bike regularly with mild soap and water. Avoid high-pressure washing directly on

bearings or electrical components.

TROUBLESHOOTING

Common Issues and Solutions

Problem	Possible Cause	Solution
Brakes feel spongy or ineffective	Brake cable too loose, worn brake pads, or misaligned pads.	Adjust brake cable tension, replace worn pads, or realign pads with the rim.
Gears not shifting smoothly	Derailleur cable tension incorrect, dirty drivetrain, or bent derailleur hanger.	Adjust derailleur cable tension, clean and lubricate the chain and gears, or inspect for damage.
Tires lose air quickly	Puncture in inner tube, loose valve stem, or improper tire seating.	Inspect for punctures and repair/replace inner tube, tighten valve stem, or re-seat tire.
Saddle slips down	Quick release lever not tight enough, or seatpost clamp is worn.	Ensure quick release lever is fully tightened. If issue persists, consider replacing the seatpost clamp.

SPECIFICATIONS

Feature	Detail
Bike Type	Mountain Bike
Age Range (Description)	Big Kid (6-13 years old)
Brand	AVASTA
Number of Speeds	6
Color	Black (other colors available)
Wheel Size	20 Inches
