Ganiza GJ10

Ganiza GJ10 Cold Press Slow Masticating Juicer User Manual

Model: GJ10

1. INTRODUCTION

Thank you for choosing the Ganiza GJ10 Cold Press Slow Masticating Juicer. This manual provides essential information for the safe and efficient operation, assembly, maintenance, and troubleshooting of your new juicer. Please read all instructions carefully before first use and retain this manual for future reference.

2. IMPORTANT SAFETY INSTRUCTIONS

- Read all instructions before operating the appliance.
- Ensure the appliance is unplugged before assembling, disassembling, or cleaning.
- Do not immerse the motor base in water or other liquids.
- Keep hands and utensils out of the feed chute during operation to prevent injury. Use the pusher provided.
- Do not operate the appliance if any part is damaged. Contact customer service for assistance.
- This appliance is for household use only. Do not use outdoors.
- Keep the appliance out of reach of children.
- Ensure the cover lid is closed and locked correctly before operation. The juicer will not function if the lid is not properly aligned with the lock symbol.

3. PRODUCT COMPONENTS

The Ganiza GJ10 Juicer comes with several components designed for optimal juicing and ease of use. Familiarize yourself with each part:

- 1. Motor Base:** The main unit containing the motor and control knob.
- 2. Juicer Chamber:** The main body where juicing occurs.
- 3. Feeding Cup:** The top container for feeding fruits and vegetables.
- 4. Pusher:** Used to gently guide ingredients into the juicer chamber.
- 5. Spiral Auger:** The component that crushes and presses ingredients.
- 6. Filter Frame:** Holds the juicing filters.
- 7. Juicing Filters (3 types):** Different mesh sizes for various fruits and vegetables (e.g., for harder fruits, more fibrous

fruits, less fibrous fruits).

8. Juice Cup: Collects the extracted juice.

9. Pulp Cup: Collects the separated pulp.

10. Cleaning Brush: For easy cleaning of components.

4. ASSEMBLY INSTRUCTIONS

Follow these steps to correctly assemble your Ganiza GJ10 Juicer:

1. **Step 1: Set up the Juicing Bowl.** Place the juicer chamber onto the motor base, ensuring it is securely seated.
2. **Step 2: Insert the Spiral Auger.** Place the spiral auger into the center of the juicing chamber.

3. **Step 3: Insert the Filter.** Select the appropriate filter for your ingredients (refer to the recipe book or filter guide for mesh selection) and insert it into the filter frame. Then, place the combined filter and frame into the juicing chamber, ensuring it is pressed down completely to the bottom.
4. **Step 4: Insert the Feeding Cup.** Place the feeding cup on top of the juicing chamber. Align the guide mark on the feeding cup with the lock symbol on the juicer chamber and turn clockwise until it locks into place. The juicer will not operate unless properly locked.
5. **Step 5: Position Cups.** Place the juice cup under the juice spout and the pulp cup under the pulp spout.

5. OPERATING INSTRUCTIONS

Before juicing, ensure all components are correctly assembled and locked. Plug the juicer into a power outlet.

1. **Prepare Ingredients:** Wash fruits and vegetables thoroughly. For best results, remove large seeds or hard pits. The 4.3-inch wide feed chute allows for whole fruits and vegetables without pre-cutting in many cases.
2. **Start Juicing:** Turn the control knob to the "ON" position. The juicer will begin operating.
3. **Feed Ingredients:** Slowly feed ingredients into the feed chute. Use the pusher to gently guide them down. Do not force ingredients or overload the juicer.
4. **Reverse Function:** If ingredients become clogged, turn the knob to the "REV" (Reverse) position and hold it for a few seconds to clear the blockage. Then, return to "ON" to continue juicing.
5. **Finish Juicing:** Once all ingredients are processed, turn the knob to "0" (Off) and unplug the appliance.

4.3" Extra Large Feed Chute

For Most juiceable vegetables and fruits

6. MAINTENANCE AND CLEANING

Regular cleaning ensures the longevity and hygiene of your juicer. All detachable parts are easy to clean.

1. **Disassembly:** Turn the control knob to "0" (Off) and unplug the juicer. Rotate the feeding cup counter-clockwise to unlock and remove it. Then, remove the filter frame with the filter, followed by the spiral auger, and finally the juicing chamber from the motor base.
2. **Cleaning Parts:** Rinse all detachable parts (feeding cup, pusher, spiral auger, filter frame, filters, juice cup, pulp cup) under running water. Use the provided cleaning brush to remove any pulp residue from the filters and other intricate areas.
3. **Motor Base:** Wipe the motor base with a damp cloth. Never immerse the motor base in water.
4. **Drying:** Allow all parts to air dry completely before reassembling or storing.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Juicer does not turn on.	Not properly assembled or plugged in.	Ensure all parts are correctly locked and the power cord is securely plugged into an outlet.
Juicer stops during operation.	Overloaded or clogged with ingredients.	Turn to "REV" to clear blockage. If it persists, disassemble and clean. Avoid forcing ingredients.
Excessive pulp in juice.	Incorrect filter used or ingredients not properly prepared.	Ensure the correct filter is used for the type of produce. Pre-cut fibrous ingredients if necessary.
Low juice yield.	Ingredients not suitable for juicing or processed too quickly.	Refer to the recipe book for optimal juicing ingredients and processing times. Feed ingredients slowly.

8. SPECIFICATIONS

Brand: Ganiza

Model Name: GJ10

Special Feature: Masticating

Product Dimensions: 14"D x 6.65"W x 12"H

Item Weight: 6 pounds

Motor Power: Max 350W

RPM: 64 RPM (Slow Masticating Technology)

Noise Level: <60dB

Feed Chute Size: 4.3-inch wide

Material: BPA-Free, Food-Grade Materials

Care Instructions: Hand Wash Only (detachable parts are easy to clean)
