## 1.2 Important Safety Instructions

- Read all instructions before using this heater.
- Do not use this heater in the immediate vicinity of a bath, shower, or swimming pool.
- Do not cover the heater. Covering the heater may cause overheating.
- Keep flammable materials such as furniture, curtains, and other combustible items at least 1 meter (3 feet) from the front and sides of the heater.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.
- If the supply cord is damaged, it must be replaced by the manufacturer, its service agent, or similarly qualified persons in order to avoid a hazard.
- Ensure the heater is connected to a properly grounded outlet.
- The heater has IP24 splash protection, making it suitable for use in bathrooms, but it should not be directly exposed to water jets.

## 3. SETUP AND INSTALLATION

---

The TRESKO heater offers flexible installation options: freestanding with wheels or wall-mounted.

### 3.1 Freestanding Installation (with Wheels)

1. Carefully remove the heater from its packaging.
2. Turn the heater upside down on a soft, flat surface to avoid scratching the display.
3. Attach the four wheels to the designated slots at the bottom of the heater using the provided screws. Ensure they are securely fastened.
4. Place the heater upright on a stable, level surface, ensuring adequate clearance from walls and furniture.

### 3.2 Wall-Mounted Installation

1. Choose a suitable wall location, ensuring it is away from flammable materials and has a power outlet nearby.
2. Using the wall mounting bracket as a template, mark the drilling points on the wall.
3. Drill holes at the marked positions and insert wall plugs (if necessary, depending on wall material).
4. Securely attach the wall mounting bracket to the wall using the provided screws.
5. Carefully hang the heater onto the wall mounting bracket, ensuring it is firmly seated and level.

1. **Download the App:** Search for "Smart Life" in your smartphone's app store (iOS or Android) and install it.
2. **Register/Log In:** Create an account or log in if you already have one.
3. **Add Device:** Follow the in-app instructions to add your TRESKO heater. This typically involves putting the heater into pairing mode (refer to the heater's display for WiFi indicator) and connecting it to your home WiFi network.
4. **Control:** Once connected, you can control all heater functions (power, temperature, modes, timer, weekly schedule) directly from the app.

## 4.3 Operating Modes and Features

- **Comfort Mode:** Maintains a comfortable ambient temperature (e.g., 20°C by default).
- **ECO Mode:** Operates at a lower power setting to save energy while still providing warmth.
- **Anti-frost Mode:** Automatically activates heating if the room temperature drops below a certain threshold (e.g., 5-7°C) to prevent freezing.

- **Weekly Mode:** Allows programming of different temperature settings for various times and days of the week.
- **Timer Function:** Set a countdown timer for the heater to turn off automatically after a specified duration (1-24 hours).
- **Child Lock:** Locks the control panel to prevent unintended operation.
- **Overheating Protection:** The heater will automatically shut off if it detects an unsafe internal temperature.
- **Tip-over Protection:** The heater will automatically shut off if it is accidentally knocked over.

## 5. MAINTENANCE

Regular maintenance ensures the longevity and efficient operation of your heater.

### 5.1 Cleaning

- Always unplug the heater from the power outlet and allow it to cool completely before cleaning.

- Wipe the exterior surfaces with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- Ensure no water enters the internal components of the heater.
- Do not immerse the heater in water or any other liquid.

## 5.2 Storage

If storing the heater for an extended period, clean it thoroughly and store it in a cool, dry place, preferably in its original packaging.

## 6. TROUBLESHOOTING

If you encounter issues with your heater, refer to the following common problems and solutions.

Problem	Possible Cause	Solution
Heater does not turn on.	No power supply; Power button not pressed; Overheating protection activated; Tip-over protection activated.	Check power cord connection and wall outlet; Press the power button; Unplug, wait 10 minutes, then plug back in; Ensure heater is upright on a stable surface.
Heater not heating effectively.	Temperature setting too low; ECO mode active; Room size too large for wattage.	Increase desired temperature; Switch to Comfort mode; Ensure heater wattage is appropriate for the room size (2000W for up to 40m <sup>2</sup> ).
WiFi connection issues.	Incorrect WiFi password; Router too far; Heater not in pairing mode; App issues.	Verify WiFi password; Move heater closer to router; Follow app instructions to put heater in pairing mode; Restart app and heater.
Control panel unresponsive.	Child lock activated.	Deactivate child lock (refer to operating instructions for specific button combination).

If the problem persists after trying these solutions, please contact TRESKO customer support.
