2. IMPORTANT SAFETY INSTRUCTIONS

When using electrical appliances, basic safety precautions should always be followed, including the following:

- Read all instructions.
- Do not touch hot surfaces. Use handles or knobs.
- To protect against fire, electric shock, and injury to persons, do not immerse cord, plugs, or electric kettle in water or other liquid.
- Close supervision is necessary when any appliance is used by or near children.
- Unplug from outlet when not in use and before cleaning. Allow to cool before putting on or taking off parts, and before cleaning the appliance.
- Do not operate any appliance with a damaged cord or plug or after the appliance malfunctions, or has been damaged in any manner. Return appliance to the nearest authorized service facility for examination, repair, or adjustment.
- The use of accessory attachments not recommended by the appliance manufacturer may result in fire, electric shock, or injury to persons.
- Do not use outdoors.

- Do not let cord hang over edge of table or counter, or touch hot surfaces.
- Do not place on or near a hot gas or electric burner, or in a heated oven.
- Always attach plug to appliance first, then plug cord into the wall outlet. To disconnect, turn any control to "off", then remove plug from wall outlet.
- Do not use appliance for other than intended use.
- The electric hot water kettle has an auto shut-off feature and built-in boil-dry prevention. When the water boils or when there is no water left in the kettle, it will automatically shut off.

3. PARTS AND FEATURES

Familiarize yourself with the components of your INTASTING Electric Kettle:

- **Gooseneck Spout:** 0.65mm ultra-fine spout for precise water flow control.
- **Lid:** Securely covers the kettle opening.
- **Handle:** Ergonomically designed for comfortable pouring.
- **Kettle Body:** Made of food-grade 304 stainless steel.
- **Power Base:** Rectangular cordless design with control panel.
- **Control Panel:** Features Start/Stop button, Temperature/Celsius/Fahrenheit toggle, Timer, and Hold functions.

Stable Power Base

4. SETUP AND FIRST USE

Before using your kettle for the first time, please follow these steps:

1. Unpack the kettle and all accessories. Remove any packaging materials.
2. Wipe the exterior of the kettle with a damp cloth.
3. Fill the kettle with water to the MAX fill line.
4. Place the kettle securely on the power base.
5. Plug the power base into a standard electrical outlet.
6. Press the START button to boil the water.
7. Once boiled, discard the water. Repeat this process 2-3 times to clean the interior and remove any manufacturing residues.

5. OPERATING INSTRUCTIONS

Your INTASTING Electric Kettle is designed for ease of use with precise control.

Boiling Water

1. Fill the kettle with fresh water. Do not exceed the MAX fill line (0.9L/30oz).
2. Place the kettle firmly on the power base.
3. Press the START button on the control panel. The indicator light will illuminate.
4. The 1200W heating element will rapidly boil the water (typically 3-5 minutes).
5. The kettle will automatically shut off once the water reaches boiling point.

Figure 3: 1200W Fast Heating Element

Temperature Control and Hold Function

The control panel allows for precise temperature settings and a hold function:

- Use the dial on the control panel to select your desired temperature.
- Press the °F/°C button to switch between Fahrenheit and Celsius display.
- Press the HOLD button to maintain the set temperature for up to 2 hours. This is ideal for multiple servings or specific brewing needs.
- The TIMER function can be used for specific brewing durations.

Precise Pour-over Control

Figure 4: Precise Pour-over Control

1200W FAST HEATING

The built-in 1200W heating element can realize super high power heating. It only takes 3-5 minutes to heat 0.9L water to 194~212°F.

6. MAINTENANCE AND CLEANING

Proper care ensures the longevity and performance of your kettle.

- **Hand Wash:** The kettle body should be hand washed only. Do not immerse the power base in water.
- **Descaling:** Over time, mineral deposits (limescale) may build up inside the kettle, especially in hard water areas. To descale, fill the kettle with a mixture of equal parts water and white vinegar. Boil the mixture and let it sit for 30 minutes to an hour. Discard the mixture and rinse the kettle thoroughly several times with fresh water.
- **Exterior Cleaning:** Wipe the exterior with a soft, damp cloth. Do not use abrasive cleaners or scouring pads.
- Ensure the kettle and power base are completely dry before storage or next use.

7. TROUBLESHOOTING

If you encounter any issues with your kettle, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Kettle does not turn on.	Not plugged in; power outlet malfunction; kettle not properly seated on base.	Ensure power base is securely plugged in. Check if the outlet is working. Re-seat the kettle firmly on the base.
Water not boiling.	Insufficient water; limescale buildup.	Ensure water level is above MIN mark. Perform descaling procedure.
Kettle leaks water.	Overfilled; lid not properly closed; defect.	Do not overfill past MAX line. Ensure lid is securely closed. If problem persists, contact customer support.
Automatic shut-off not working.	Malfunction.	Unplug and re-plug the kettle. If the issue continues, discontinue use and contact customer support.

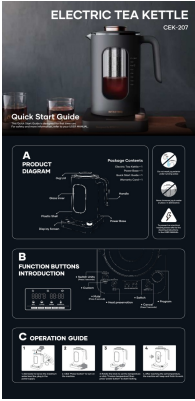

8. SPECIFICATIONS

- **Model Name:** FLOW B9 Lite
- **Item Model Number:** CEK-205
