## ECOVACS D-SO01-0025

# ECOVACS DEEBOT Multi-Surface Floor Cleaning Solution User Manual

Model: D-SO01-0025

## PRODUCT OVERVIEW

The ECOVACS DEEBOT Multi-Surface Floor Cleaning Solution is designed for safe and effective stain and dirt removal across a wide range of hard floor types. This 1-liter solution is infused with fresh floral notes to leave a light, refreshing scent after cleaning.

- **Compatibility:** Compatible with DEEBOT X1 OMNI/X1 TURBO/ T10 OMNI, DEEBOT X2 COMBO/X2 OMNI/ T20e OMNI/T20 OMNI/X1 OMNI/ X1 TURBO/T10 TURBO/T10 OMNI Series.
- **Extraordinary Cleaning Performance:** Provides deeper cleaning with less foam.
- **Long-lasting:** One 1L bottle can last for approximately 3 months based on average household usage.
- **Refreshing Scent:** Infused with Wild Bluebell scent to brighten the atmosphere.
- **Safe Formulation:** Meticulously tested by ECOVACS for safety and effectiveness on wood, laminate, vinyl, linoleum, stone, porcelain, and tile.

## SETUP AND USAGE

Follow these instructions for optimal use of your ECOVACS DEEBOT Cleaning Solution with compatible DEEBOT models.

1. **Prepare the Clean Water Tank:** Fill the clean water tank of your DEEBOT robot vacuum with water up to the designated fill line.
2. **Add Cleaning Solution:** Add two bottle caps of the ECOVACS DEEBOT Cleaning Solution into the clean water tank.
3. **Mix the Solution:** Close the lid of the tank and lightly swirl to mix the water and cleaning solution.

*Note: Using other cleaning solutions may cause DEEBOT slipping, water tank blockages, or other issues. Always use the recommended ECOVACS solution.*

### Clean More with Less

Just one bottle (1L) of DEEBOT can last for 3 months for the average household.\*

\*Calculation based on the following conditions: 4L water tank capacity, 20ml of cleaning solution per clean, 150m<sup>2</sup> cleaning area, 4 times per week and 10 minutes each time (pls check if we can have data support and the disclaimer here).

### Recommended Single Usage

Two bottle caps per clean for 4L water tank capacity.

Image: Visual guide for adding two bottle caps of solution to the clean water tank.

## OPERATING INSTRUCTIONS

Once the cleaning solution is properly mixed in the clean water tank, your DEEBOT is ready to perform its cleaning cycle. The solution is designed to work effectively with the robot's mopping system to provide a thorough clean.

- The solution helps in reducing foam production, which aids in easier vacuuming and grime removal from the floor.
- It is formulated for powerful cleaning across various flooring types, ensuring comprehensive cleaning for your entire home.

# Extraordinary Cleaning Performance

Deeper cleaning with less foam

Image: A DEEBOT robot vacuum actively cleaning a wooden floor, demonstrating the solution's effectiveness.

# One Cleaning Solution for Multiple Surfaces

Comprehensive  
cleaning solution for  
entire home

Image: The DEEBOT cleaning solution is suitable for multiple surfaces, as shown by the robot cleaning both tile and wood floors.

## MAINTENANCE

Regular maintenance of your DEEBOT and its water tanks is crucial for optimal performance and longevity of the cleaning solution. Ensure to empty and clean the dirty water tank after each use. Periodically rinse the clean water tank to prevent residue buildup.

The cleaning solution itself is designed to be gentle and fragrant, contributing to the overall cleanliness and freshness of your home.

## One Cleaning Solution for Multiple Surfaces

Formulated to provide powerful cleaning for a wide variety of flooring.

Image: The DEEBOT's self-cleaning feature ensures mop pads are clean, complementing the cleaning solution's effectiveness.

### TROUBLESHOOTING

If you encounter issues while using the ECOVACS DEEBOT Cleaning Solution, consider the following:

- **Excessive Foam:** Ensure you are using the recommended amount (two capfuls) of solution. Overdosing can lead to excessive foam.
- **Residue on Floor:** Verify that the clean water tank is filled to the line and the solution is properly mixed. If issues persist, ensure the robot's mop pads are clean and properly installed.
- **Lack of Scent/Cleaning Power:** Confirm the correct dosage of solution. If the issue continues, check the expiration date of the solution.
- **Robot Malfunction:** If the robot exhibits unusual behavior (e.g., slipping, tank blockage), immediately stop using the solution and consult your DEEBOT user manual for specific troubleshooting steps or contact ECOVACS customer support.

### SPECIFICATIONS

Attribute	Detail
Product Name	ECOVACS DEEBOT Multi-Surface Floor Cleaning Solution
Model Number	D-SO01-0025
