

ESR PD02UC

ESR HaloLock 3-in-1 Watch Wireless Charging Set Instruction Manual

Model: PD02UC

INTRODUCTION

Thank you for choosing the ESR HaloLock 3-in-1 Watch Wireless Charging Set. This device is designed to provide convenient and efficient wireless charging for your iPhone (12 series or later), Apple Watch (all series), and AirPods (Pro/3/2). This manual provides essential information for setup, operation, maintenance, and troubleshooting to ensure optimal performance and longevity of your charging set.

WHAT'S IN THE BOX

- MagSafe Charging Station
- Made for Apple Watch Charger
- Charging Station for MagSafe

SETUP INSTRUCTIONS

1. **Unpack Components:** Carefully remove all items from the packaging.
2. **Connect Power:** Plug the provided USB-C to USB-C cable into the charging station's USB-C port and connect the other end to the 20W PD charging adapter. Plug the adapter into a power outlet.
3. **Attach Apple Watch Charger:** The Apple Watch charger is portable and can be detached. To use it with the main station, align the USB-C connector of the Apple Watch charger with the designated port on the charging stand and firmly insert it. Ensure it is securely connected.

4. **Placement:** Place the charging station on a stable, flat surface.

OPERATING INSTRUCTIONS

1. **Charging iPhone:** Place your MagSafe-compatible iPhone (12 series or later) onto the magnetic charging pad. The strong magnetic lock (1,000 g holding force) will securely hold your phone in place and initiate charging.
2. **Charging Apple Watch:** Place your Apple Watch onto the dedicated Apple Watch charger. Ensure the watch is properly aligned for charging. The officially certified charger provides safe and reliable fast charging.
3. **Charging AirPods:** Place your AirPods Pro/3/2 charging case onto the base charging pad. The built-in magnets ensure instant, secure alignment for charging. Note: The AirPods charging pad does not support magnetic alignment for the AirPods case itself, but rather for the charging coils.
4. **Portable Watch Charging:** The small, lightweight USB-C Apple Watch charger can be disconnected from the main stand and used independently. Plug it into any powered USB-C port (e.g., laptop, power bank) to charge your Apple Watch on the go.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the charging station. Avoid using harsh chemicals or abrasive materials.
- **Storage:** Store the device in a cool, dry place when not in use for extended periods.
- **Handling:** Avoid dropping the device or subjecting it to strong impacts.

TROUBLESHOOTING

- **Device not charging:**
 - Ensure the charging station is properly connected to a working power outlet using the provided adapter.
 - Verify that your device is correctly aligned on the charging pad.
 - Remove any thick or metallic cases from your phone or AirPods that might interfere with wireless charging.
 - Check if the Apple Watch charger is securely inserted into the stand or powered USB-C port.
- **Slow charging:**
 - Ensure you are using the original 20W PD charging adapter and USB-C cable.
 - Avoid using your device while it is charging, as this can slow down the charging process.
- **Overheating:**
 - Ensure adequate ventilation around the charging station.
 - Remove any cases that might trap heat.
 - If overheating persists, discontinue use and contact customer support.
