# Okaysou 2.2L Cool Mist Ultrasonic Humidifier & Essential Oil Diffuser Instruction Manual

Model: Q4  
Brand: Okaysou

## 1. INTRODUCTION AND OVERVIEW

Thank you for choosing the Okaysou 2.2L Cool Mist Ultrasonic Humidifier and Essential Oil Diffuser. This device is designed to improve air quality and comfort in your home by adding moisture to the air and allowing for the diffusion of essential oils. Its quiet operation and efficient design make it ideal for bedrooms, large rooms, and nurseries.

## 2. PRODUCT FEATURES

- **2.2L Large Water Tank:** Provides up to 15 hours of continuous humidification.
- **Humidifier & Diffuser 2 in 1:** Adds moisture to the air and allows for the addition of essential oils for aromatherapy.
- **Wide Coverage:** Effectively humidifies areas up to 300 square feet.
- **360° Mist Nozzle:** Double-rotating nozzles allow for precise direction of mist.
- **Dial Knob Mist Control:** Easily adjust mist output from low to high.
- **Ultrasonic Technology:** Ensures quiet operation and filterless design.
- **Auto Shut-off:** Automatically turns off when water level is low for safety.
- **Low Water Indicator:** Light indicates when it's time to refill the tank.
- **Easy-Fill Tank with Large Opening:** Simplifies refilling and cleaning.
- **Energy Efficient:** Operates at just 25 Watts.

## 2-in-1 Oil Diffuser & Humidifier

Your favorite essential oils will provide a relaxing, clean and fresh aroma in your room.

*\*Essential oils not included*

Figure 2: The humidifier functions as both a cool mist humidifier and an essential oil diffuser.

## Simple to Clean

**3.6 Inches** opening means cleaning is breeze by hand.

Figure 3: The wide opening of the water tank allows for simple and thorough cleaning.

### 3. SAFETY INSTRUCTIONS

- Always place the humidifier on a firm, flat, waterproof surface at least 12 inches (30 cm) away from walls and appliances.
- Do not immerse the base unit in water or other liquids.
- Unplug the humidifier from the power outlet before filling, cleaning, or performing any maintenance.
- Keep out of reach of children and pets.
- Do not block the mist outlet or air intake vents.
- Use only clean, cool tap water. For best results and to prevent white dust, use distilled or demineralized water.
- Do not add water to the mist outlet.
- The auto shut-off feature is a safety mechanism; do not attempt to bypass it.

### 4. SETUP

1. **Unpack:** Carefully remove the humidifier from its packaging and ensure all components are present: base unit, water tank, and top cover.
2. **Placement:** Place the humidifier on a flat, stable, and waterproof surface. Ensure it is not directly on carpet or near heat sources, direct sunlight, or furniture that could be damaged by moisture.
3. **Fill Water Tank:**
  - Remove the top cover from the water tank.
  - Fill the water tank with clean, cool tap water. For optimal performance and to minimize mineral buildup (white dust), distilled or demineralized water is recommended. Do not fill past the MAX fill line.
  - Replace the top cover securely.
4. **Add Essential Oils (Optional):** Locate the essential oil tray on the side of the base unit. Add a few drops of your favorite essential oil to the aroma pad. Do not add essential oils directly into the water tank.
5. **Connect Power:** Plug the power cord into a standard electrical outlet.

## 5. OPERATION

---

1. **Power On/Off:** Rotate the dial knob clockwise from the "OFF" position to turn the humidifier on. Rotate it counter-clockwise to turn it off.
2. **Adjust Mist Output:** Continue rotating the dial knob clockwise to increase the mist output. Rotate it counter-clockwise to decrease the mist output. The mist level can be adjusted continuously from low to high.
3. **Adjust Mist Direction:** The 360° rotating nozzle on top of the unit allows you to direct the mist flow to your desired area. Simply turn the nozzle to adjust.
4. **Low Water Indicator:** When the water level in the tank is low, the indicator light will illuminate, and the unit will automatically shut off. Refill the tank to resume operation.

## Adjustable Nozzle And Mist Control

Use The Control Dial To Adjust The Mist Output

Low Mist

Med Mist

High Mist

Figure 4: The dial knob provides easy and precise control over mist output.

## 6. MAINTENANCE

Regular cleaning is essential for optimal performance and to prevent mineral buildup and bacterial growth. Unplug the unit before any cleaning.

### Daily Maintenance:

- Empty the water tank and base reservoir.
- Rinse the tank and base reservoir with clean water.
- Wipe all surfaces dry with a clean cloth.

### Weekly Maintenance (Descaling):

- Unplug the humidifier.
- Remove the water tank and empty any remaining water.
- Pour 2-3 tablespoons of white vinegar into the water tank and base reservoir.
- Fill the tank with warm water (not hot) and let it sit for 20-30 minutes to loosen mineral buildup.

- Use a soft brush or sponge to clean the inside of the tank and the base reservoir, paying attention to the ultrasonic transducer (the small disc in the base).
- Rinse thoroughly with clean water until the smell of vinegar is gone.
- Wipe all surfaces dry.

**Storage:**

When not in use for an extended period, clean the humidifier thoroughly as per weekly maintenance instructions. Ensure all parts are completely dry before storing in a cool, dry place.

**7. TROUBLESHOOTING**

Problem	Possible Cause	Solution
No mist or weak mist.	Low water level; mineral buildup on transducer; unit not properly assembled.	Refill water tank; clean the ultrasonic transducer; ensure tank is seated correctly on the base.
White dust around the humidifier.	Hard water with high mineral content.	Use distilled or demineralized water. Clean the unit regularly to remove mineral deposits.
Unusual odor.	Stagnant water or dirty tank/base.	Empty and clean the water tank and base thoroughly. Change water daily.
Unit leaks water.	Water tank not properly sealed or damaged; overfilled tank.	Ensure the top cover is securely placed; do not overfill the tank. Check for cracks or damage.
