SafeTag Mag 4G

SafeTag Mag 4G GPS Tracker User Manual

Model: Mag 4G

1. INTRODUCTION

The SafeTag Mag 4G is a rechargeable magnetic GPS tracker designed for real-time monitoring of vehicles such as cars, vans, motorcycles, and caravans. This manual provides detailed instructions to help you set up, operate, and troubleshoot your device effectively.

2. PRODUCT OVERVIEW

Key Features

- **4G LTE Connectivity:** Ensures reliable and fast real-time tracking.
- **Magnetic Attachment:** Strong integrated magnets for easy and secure installation.
- **Long Battery Life:** Up to 90 days standby, typically 16-32 days with 1-2 hours of daily movement.
- **Real-time Monitoring:** Position updates every 10-40 seconds.
- **Alerts & Notifications:** GeoFence, movement, battery, and overspeed alerts.
- **USB-C Fast Charging:** Modern and efficient charging port.

3. SETUP GUIDE

3.1 Initial Charging

Before first use, fully charge your SafeTag Mag 4G tracker using the provided USB-C cable. Connect the cable to the USB-C port on the device and a compatible power source. The charging indicator light will illuminate during charging.

3.2 SIM Card Installation

The SafeTag Mag 4G comes with a pre-installed internal SIM card. No manual installation is required.

3.3 Powering On/Off

Locate the On/Off switch on the side of the device. Slide the switch to the 'On' position to power on the tracker. To power off, slide the switch to the 'Off' position.

3.4 App Download and Device Registration

1. Download the **SafeTag Tracking** app from the App Store (iOS) or Google Play Store (Android), or access the web platform via www.safetagtracking.com.
2. Create an account or log in if you already have one.
3. Follow the in-app instructions to add your new tracker. You will need to enter the IMEI number, which is typically found on a sticker on the device or its packaging.
4. Assign a friendly name to your device for easy identification.
5. Select a suitable subscription plan for your tracking needs. A 7-day free trial is available.

The image displays the SafeTag app interface with three subscription plans on the left and key features on the right. The plans are: **SAFETAG STANDARD** at €5.99/month with 40s position updates, **SAFETAG PLUS** at €6.99/month with 20s updates, and **SAFETAG PRO** at €7.99/month with 10s updates. The 'PLUS' and 'PRO' plans are marked as 'POPOLARE' (Popular). The features section includes a 7-day free trial, no hidden costs, real-time alerts, and lifetime support. The app logo and download instructions for the App Store and Google Play are also shown.

Plan	Price	Update Frequency	Label
SAFETAG STANDARD	€5.99 /mese	40s	VALORE
SAFETAG PLUS	€6.99 /mese	20s	POPOLARE
SAFETAG PRO	€7.99 /mese	10s	POPOLARE

4. OPERATING INSTRUCTIONS

4.1 Real-time Tracking

Once your device is set up and active, open the SafeTag Tracking app or web platform. You will see the current location of your tracker displayed on a map. Position updates occur every 10-40 seconds, depending on your subscription plan and signal availability.

Figure 4.1: Real-time tracking interface on the SafeTag Tracking mobile application.

4.2 Location History

The app and web platform allow you to view the historical route data of your tracker. This feature provides a detailed record of where the device has been over a specified period.

4.3 Indicator Lights

The SafeTag Mag 4G features indicator lights to show its status:

- **Data Signal Indicator:** Indicates cellular network connectivity.
- **GPS Signal Indicator:** Indicates GPS satellite signal reception.

Refer to the Quick Start Guide for specific light patterns and their meanings.

5. ALERTS AND NOTIFICATIONS

The SafeTag Mag 4G provides various alerts to keep you informed about your vehicle's status. These notifications are sent in real-time to your mobile device via the app.

- **Movement Alert:** Notifies you if the tracker detects movement.
- **GeoFence Alert:** Alerts you when the tracker enters or exits a predefined safe zone.

- **Battery Alert:** Informs you when the device's battery level is low and requires recharging.
- **Overspeed Alert:** Notifies you if the tracker exceeds a set speed limit.

Figure 5.1: Examples of real-time alerts displayed on the SafeTag Tracking app.

6. BATTERY LIFE AND CHARGING

The SafeTag Mag 4G is equipped with a high-performance battery designed for extended use.

- **Standby Duration:** Up to 90 days.
- **Active Use Duration:** Typically 16-32 days, depending on usage patterns (e.g., 1-2 hours of movement per day).

To charge the device, use the provided USB-C cable and connect it to a standard USB power adapter (not included). The charging indicator light will confirm the charging status.

7. SPECIFICATIONS

Feature	Detail
Brand	SafeTag
Special Feature	Magnetic, GeoFence, Movement, Speed Alerts/Notifications, Real-time Monitoring, Location History, Long Battery Life
Connectivity Technology	Cellular 4G LTE and GPS/GNSS/Beidou/GLONASS + 2G

8. TROUBLESHOOTING

8.1 Device Not Powering On

- Ensure the device is fully charged.
- Verify the On/Off switch is in the 'On' position.

8.2 No GPS Signal

- Ensure the device has a clear view of the sky. GPS signals can be obstructed by buildings, tunnels, or dense foliage.
- Move the device to an open area.

8.3 No Data Connection

- Check your subscription status in the SafeTag Tracking app or web platform.
- Ensure the device is in an area with cellular network coverage.

8.4 Inaccurate Tracking

- GPS accuracy can be affected by environmental factors.
- Ensure the device is securely mounted and not obstructed.

9. WARRANTY AND SUPPORT

All SafeTag trackers include a 7-day free trial to allow users to evaluate the system before committing to a subscription. SafeTag is committed to providing high-quality support. For any questions or assistance, please contact our support team. Response times are typically within 2 hours during business hours and 8 hours outside business hours. For further details on warranty and support, please refer to the official SafeTag website or contact customer service.

ASK A QUESTION ABOUT THIS MANUAL

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page's manual context to help answer it.
