## LUXRITE LR21730-24

# LUXRITE S14 Edison LED Red Light Bulbs Instruction Manual

Model: LR21730-24

## INTRODUCTION

Thank you for choosing LUXRITE S14 Edison LED Red Light Bulbs. These bulbs are designed to provide vibrant red light for various decorative applications, both indoors and outdoors. They feature an E26 base, a classic S14 shape, and are energy-efficient with a low power consumption of 0.5 watts. This manual provides important information regarding the safe installation, operation, and maintenance of your light bulbs.

## SAFETY INFORMATION

Please read all safety instructions before installation and use. Failure to follow these instructions may result in electric shock, fire, or other hazards.

- **Risk of Electric Shock:** Disconnect power before installation or servicing.
- **Risk of Fire:** Do not exceed the wattage rating of the fixture. These bulbs are 0.5W.
- **Wet Location Rated:** These bulbs are suitable for wet locations, but ensure the fixture itself is also rated for wet locations.
- **Non-Dimmable:** Do not use with dimmer switches. These bulbs are non-dimmable.
- **Operating Temperature:** Do not install in enclosed fixtures that restrict airflow, as this may shorten bulb life.
- **UL Listed:** This product is UL Listed for safety.

## PACKAGE CONTENTS

Your package should contain the following items:

- 24 x LUXRITE S14 Edison LED Red Light Bulbs (Model: LR21730-24)

## INSTALLATION INSTRUCTIONS

1. **Power Off:** Ensure the power to the light fixture is turned off at the circuit breaker before beginning installation.
2. **Remove Old Bulb (if applicable):** Carefully unscrew any existing bulb from the fixture.
3. **Insert New Bulb:** Gently screw the LUXRITE S14 Edison LED Red Light Bulb into the E26 medium base socket. Do not overtighten.

4. **Restore Power:** Once all bulbs are securely installed, restore power to the fixture at the circuit breaker.

5. **Test:** Turn on the light switch to ensure the bulbs are functioning correctly.

## OPERATING INSTRUCTIONS

These LED bulbs are designed for simple operation. Once installed in a compatible E26 base fixture and power is supplied, they will illuminate when the fixture's switch is turned on.

- **Intended Use:** Ideal for string lights, party lighting, event lighting, holiday lighting, and general decorative lighting.
- **Indoor/Outdoor:** Suitable for both indoor and outdoor applications due to their wet-rated design.

## MAINTENANCE

These LED bulbs require minimal maintenance.

- **Cleaning:** Ensure power is off before cleaning. Wipe the bulb with a soft, dry cloth. Do not use liquid cleaners or abrasive materials.
- **Replacement:** Replace bulbs only after they have cooled down.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Bulb does not light up.	No power to the fixture, loose connection, or faulty bulb.	Check circuit breaker. Ensure bulb is screwed in tightly. Test with a known working bulb.
Bulb flickers.	Loose connection, incompatible dimmer switch, or voltage fluctuation.	Tighten bulb. Ensure no dimmer switch is used (these bulbs are non-dimmable). Check power supply.
Bulb life is shorter than expected.	Installed in an enclosed fixture with poor ventilation.	Ensure bulbs are installed in open or well-ventilated fixtures.
