PERFASCIN ANG-MBE771-I-STAR-5-SDTSEV-US

PERFASCIN Replacement Remote Control for ISTAR Korea Receivers User Manual

INTRODUCTION

The PERFASCIN Replacement Remote Control is designed to operate various ISTAR Korea receiver models, including A8000, A1600, A65000, Zeed222 OTT, Zeed333 OTT, A9000, A8500, Z4, Z5, Zeed444, and A9700. This remote functions as a direct replacement and requires no programming or pairing, offering immediate use upon battery installation.

This manual provides essential information on setting up, operating, maintaining, and troubleshooting your new remote control.

SETUP

Follow these steps to prepare your remote control for use:

1. **Install Batteries:** Locate the battery compartment cover on the back of the remote control. Slide or lift the cover to open it. Insert two (2) AAA alkaline batteries, ensuring the positive (+) and negative (-) terminals align correctly with the indicators inside the compartment.

Image: Rear view of the remote control with the battery cover removed, revealing the slots for two AAA batteries.

2. **Close Compartment:** Replace the battery compartment cover, ensuring it clicks securely into place.
3. **Ready for Use:** The remote is now ready for immediate use with your compatible ISTAR Korea receiver. No additional setup or programming is required.

OPERATION

This remote control operates using infrared (IR) technology. To ensure proper functionality, point the remote directly at your ISTAR Korea receiver and press the desired function button. Ensure there are no obstructions between the remote and the receiver's IR sensor.

The remote features standard buttons for power, channel selection, volume control, menu navigation, and media playback, similar to your original remote. Familiarize yourself with the button layout for optimal use.

MAINTENANCE

- **Battery Replacement:** Replace batteries when the remote's performance diminishes or if it stops responding. Always replace both batteries simultaneously with new AAA alkaline batteries.
- **Cleaning:** To clean the remote, gently wipe its surface with a soft, dry cloth. Avoid using liquid cleaners, solvents, or abrasive materials, as these can damage the remote.
- **Storage:** Store the remote in a dry place, away from direct sunlight, extreme temperatures, and high humidity.
- **Avoid Drops:** Protect the remote from physical impact, as drops can damage internal components.

TROUBLESHOOTING

Remote Not Responding

- **Check Batteries:** Ensure the batteries are inserted correctly with the positive (+) and negative (-) terminals aligned as indicated.
- **Replace Batteries:** If the batteries are old or depleted, replace them with new AAA alkaline batteries.
- **Clear Line of Sight:** Verify that there is a clear, unobstructed path between the remote control's IR emitter and the IR sensor on your ISTAR Korea receiver.
- **Compatibility:** Confirm that the remote is compatible with your specific ISTAR Korea receiver model. Refer to the 'Introduction' section for a list of compatible models.

Intermittent Functionality

- **Low Battery Power:** Intermittent response often indicates low battery power. Replace the batteries.
- **Operating Range:** Ensure you are within the maximum operating range of 10 meters (approximately 33 feet) from the receiver.

SPECIFICATIONS

| | |
|--------------------------------|------------------------------------------------------------------------------------------------------------|
| Brand | PERFASCIN |
| Model Number | ANG-MBE771-I-STAR-5-SDTSEV-US |
