## Haotian FSR137-BR

# Haotian FSR137-BR 2-Drawer Slim Shoe Storage Cabinet Instruction Manual

Model: FSR137-BR | Brand: Haotian

## INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your Haotian FSR137-BR 2-Drawer Slim Shoe Storage Cabinet. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

## IMPORTANT SAFETY INFORMATION

### WARNING:

- Always assemble the cabinet according to the provided instructions.
- Use appropriate safety gear when handling sharp objects.
- Keep the cabinet away from heat sources.
- Do not place heavy objects on the top surface to prevent toppling.
- Anti-tipping kits are included to improve stability. Secure the cabinet to the wall to prevent accidental tipping, especially in households with children or pets.

## PACKAGE CONTENTS

Verify that all components are present before beginning assembly. If any parts are missing or damaged, please contact customer support.

- All necessary wooden panels for the cabinet structure.
- 2 Flip-Drawers with internal shelving.
- Handles (Aluminum).
- Assembly hardware (screws, dowels, etc.).
- Anti-tipping kit.
- Detailed assembly instructions.

## SETUP AND ASSEMBLY

Assembly is required for this product. Follow the detailed instructions included in your package. The process is designed to be straightforward with numbered components.

1. Unpack all components and lay them out on a clean, soft surface to prevent scratches.
2. Identify each component using the provided numbering in the assembly guide.
3. Assemble the main frame of the cabinet first, ensuring all connections are secure.
4. Install the flip-drawer mechanisms and attach the drawer fronts.
5. Attach the aluminum handles to the drawer fronts.
6. Finally, install the anti-tipping kit by securing the cabinet to a wall stud using the provided hardware.

This step is crucial for safety.

## OPERATING INSTRUCTIONS

The Haotian FSR137-BR shoe cabinet is designed for convenient shoe storage in entryways, hallways, living rooms, or porches.

- **Flip-Drawers:** Each of the two flip-drawers contains two layers of storage space. To open, gently pull the handle outwards and downwards. The drawer will pivot forward, allowing access to the shoe compartments.
- **Shoe Placement:** Place shoes into the designated compartments. The design prevents shoes from slipping through to the bottom of the cabinet.
- **Top Surface:** The spacious top surface can be used for placing small items such as keys, wallets, or decorative objects.
- **Hidden Door Opening:** The design of the flip-drawers allows for easy access and a neat appearance when closed.

Figure 3: Detail of shoes stored within an open flip-drawer.

## MAINTENANCE

To ensure the longevity and appearance of your shoe cabinet, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the cabinet with a damp cloth to clean. Avoid harsh chemicals or abrasive cleaners that may damage the wood finish.
- **Dusting:** Regularly dust the surfaces with a soft, dry cloth.
- **Spills:** Clean up spills immediately to prevent staining or damage to the wood.
- **Inspection:** Periodically check all screws and connections to ensure they remain tight. Retighten if necessary.

## TROUBLESHOOTING

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
Cabinet feels unstable.	Anti-tipping kit not installed or improperly secured.	Ensure the anti-tipping kit is correctly installed and securely fastened to a wall stud. Avoid placing excessively heavy items on top.
Drawers are difficult to open/close.	Obstruction in the drawer mechanism; misaligned components.	Check for any items blocking the drawer's movement. Verify that all assembly screws for the drawer mechanism are tight and correctly aligned.
Shoes do not fit in compartments.	Shoe size or type is too large for the compartment.	The cabinet is designed for slim shoe storage. Larger or bulkier shoes (e.g., boots, high heels) may need to be stored differently or placed diagonally. Each drawer contains two layers of storage space, which can be adjusted by removing the middle divider for more vertical room if needed.

## SPECIFICATIONS

- **Model Name:** FSR137-BR
- **Brand:** Haotian
- **Color:** Mocha
- **Material:** Engineered Wood (MDF)
- **Product Dimensions (D x W x H):** 9.1" x 23.4" x 31.3" (23.1 cm x 59.4 cm x 79.5 cm)
- **Item Weight:** 24 lbs (10.9 kg)
- **Load Capacity (Top Surface):** 44.1 lbs (20 kg)
- **Number of Drawers:** 2 (Flip-Drawers)
- **Number of Compartments:** 4 (2 per drawer, with adjustable shelves)
- **Mounting Type:** Floor Mount (with wall-anchoring option)
- **Assembly Required:** Yes
- **Included Components:** Shelves, Anti-tipping kit
