ANPABO HC-302

ANPABO Ride on Dump Truck Instruction Manual

Model: HC-302

Brand: ANPABO

1. INTRODUCTION

Thank you for choosing the ANPABO 12V Ride on Dump Truck. This manual provides essential information for the safe and effective operation, assembly, and maintenance of your new construction vehicle. Designed for children aged 36 months to 6 years, this ride-on toy offers an engaging and realistic play experience with its automatic lifting dump bed, dual control modes, and multimedia features. Please read this manual thoroughly before initial use and retain it for future reference.

2. SAFETY INFORMATION

Safety is paramount when operating the ANPABO Ride on Dump Truck. Adhere to the following guidelines to ensure a safe play environment:

- **Age and Weight Limit:** This vehicle is suitable for children aged 36 months to 6 years and can support a maximum load of 66 lbs (30 kg).
- **Adult Supervision:** Always ensure direct adult supervision during operation.
- **Safety Devices:** The truck features a soft start mechanism for smooth acceleration, a key start for controlled activation, and a seat with a safety belt. Ensure the safety belt is properly fastened before each ride.
- **Lockable Doors:** The doors are designed to lock securely, preventing accidental opening during play.
- **Remote Control:** For younger children or in situations requiring immediate intervention, parents can utilize the remote control to manage speed and direction, including an emergency stop function.
- **Material Safety:** The vehicle is constructed from non-toxic and odorless materials.
- **Terrain:** While designed for various terrains including asphalt, grassland, and gravel, always operate on flat, clear surfaces free from obstacles or hazards.

Wear-Resistant Wheels

Ensure all connections are secure and the battery is fully charged before the first ride. The charger is included in the box.

5. OPERATING INSTRUCTIONS

Starting the Vehicle

- Insert the key into the ignition and turn it to the "ON" position. You will hear an engine start sound.
- Ensure the safety belt is securely fastened.

Control Modes

The ANPABO Dump Truck offers two primary control modes:

1. **Manual Mode:** The child operates the truck using the foot pedal and steering wheel. There are 2 speed options available in this mode.
2. **Remote Control Mode:** Parents can control the truck's direction and speed using the provided remote control. This mode offers 3 different speed settings and includes an emergency "P" button to stop the vehicle instantly.

Automatic Lifting & Dumping

The dump bed can be automatically lifted and lowered:

- To activate the dump bed, locate the safety handle under the seat and pull it out.
- Use the joystick on the control panel to tilt the dump bed up or down.

7. MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your ANPABO Ride on Dump Truck:

- **Charging:** Always use the provided charger. Ensure the battery is fully charged before each use and do not overcharge.
- **Storage:** Store the truck in a dry, covered area, ideally away from direct sunlight and rain, to protect electronic components and extend battery life.
- **Cleaning:** Wipe down the truck with a damp cloth. Avoid using harsh chemicals or abrasive cleaners.
- **Inspection:** Regularly check for loose screws, damaged wires, or worn parts. Address any issues promptly.

8. TROUBLESHOOTING

If you encounter any issues with your ANPABO Ride on Dump Truck, consider the following common solutions:

Problem	Possible Cause	Solution
Vehicle does not move	Low battery; Loose battery connection; Blown fuse; Motor issue.	Charge battery fully; Check and secure battery terminals; Replace fuse if necessary; Contact customer support if motor is suspected.
Remote control not working	Remote batteries low/dead; Remote not paired; Interference.	Replace remote batteries; Re-pair remote according to instructions; Move to an area with less interference.
Dump bed not lifting/dumping	Safety handle not engaged; Motor issue for dump function.	Ensure safety handle is pulled out; Check for obstructions; Contact customer support.
Unusual noises during operation	Loose parts; Debris in wheels/gears; Worn components.	Inspect for loose parts and tighten; Clear any debris; Contact customer support if noise persists.

If the problem persists after attempting these solutions, please contact ANPABO customer support for further assistance.
