SETUP

Battery Installation

1. Locate the battery compartment on the underside of the alarm clock.
2. Open the battery compartment cover using a small screwdriver (not included).

3. Insert 3 new AA/LR6 batteries, ensuring correct polarity (+/-) as indicated inside the compartment.
4. Replace the battery compartment cover and secure it with the screw.

The digital display should now light up, indicating the device is powered on. A low battery indicator will appear on the screen when batteries need to be replaced.

OPERATING INSTRUCTIONS

Setting the Time

1. Press and hold the **TIME SET** button (often marked with a clock icon) located on the back or bottom of the unit until the hour digits flash.
2. Use the **+** and **-** buttons to adjust the hour. Press the **TIME SET** button again to confirm the hour and move to minutes.

3. Use the **+** and **-** buttons to adjust the minutes. Press the **TIME SET** button one more time to confirm and exit time setting mode.

Setting the Alarm

1. Press and hold the **ALARM SET** button (often marked with a bell icon) until the alarm hour digits flash.
2. Use the **+** and **-** buttons to adjust the alarm hour. Press the **ALARM SET** button again to confirm the hour and move to minutes.
3. Use the **+** and **-** buttons to adjust the alarm minutes. Press the **ALARM SET** button one more time to confirm and exit alarm setting mode.
4. To activate/deactivate the alarm, press the **ALARM SET** button briefly. An alarm icon will appear/disappear on the display.

Adjusting Alarm Volume and Ringtones

While in alarm setting mode (after setting the time), you may be able to cycle through ringtone options and adjust volume using the **+** and **-** buttons or a dedicated button (refer to specific button labels on your device).

Nightlight Function

The Ladybug figure on top of the alarm clock functions as a nightlight. Press down on the Ladybug figure to activate the nightlight. It will illuminate for a few minutes before automatically turning off.

Sound Effects

Press the dedicated **SOUND EFFECT** button (often marked with a musical note or character icon) to play various sound effects inspired by the Miraculous Ladybug universe.

Snooze Function

When the alarm sounds, press down on the Ladybug figure or the top of the alarm clock to activate the snooze function. The

alarm will temporarily stop and sound again after a few minutes (typically 5-10 minutes).

To turn off the alarm completely, press the **ALARM OFF** button (if available) or the **ALARM SET** button briefly.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the surface of the alarm clock. Do not use abrasive cleaners or solvents.
- **Battery Replacement:** Replace batteries when the low battery indicator appears or when the display becomes dim. Always replace all three batteries at once.
- **Storage:** If the alarm clock will not be used for an extended period, remove the batteries to prevent leakage and store the device in a cool, dry place.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Display is blank or dim.	Batteries are low or incorrectly installed.	Replace batteries with new AA/LR6 batteries, ensuring correct polarity.
Alarm does not sound.	Alarm is not activated or set incorrectly.	Ensure the alarm is set and activated (alarm icon visible on display). Check alarm volume settings.
Nightlight does not turn on.	Batteries are low or the Ladybug figure was not pressed firmly.	Replace batteries. Press the Ladybug figure firmly.
Sound effects do not play.	Batteries are low or the sound effect button was not pressed correctly.	Replace batteries. Ensure the sound effect button is pressed firmly.
