FOHERE MFA-10L-I

FOHERE Skincare Mini Fridge User Manual

Model: MFA-10L-I | Brand: FOHERE

1. INTRODUCTION

Thank you for choosing the FOHERE Skincare Mini Fridge. This portable 10-liter appliance is designed for versatile use, offering both cooling and warming functions. It features a built-in LED mirror, making it ideal for cosmetics, beverages, snacks, and more, whether at home or on the go.

The FOHERE Skincare Mini Fridge, showcasing its compact design and interior capacity for various items.

What's in the Box:

- 10 Liter LED Mini Fridge
- 110V-120V AC Home Charge Cable
- 12V DC Car Charge Cable
- User Manual (this document)
- Two Removable Shelves

2. SETUP

Placement:

Place the mini fridge on a flat, stable surface. Ensure there is adequate ventilation around the unit (at least 4 inches of space on all sides) to allow for proper heat dissipation and efficient operation. Avoid placing it in direct sunlight or near heat sources.

Power Connection:

The FOHERE Mini Fridge supports both AC (home) and DC (car) power. Use the appropriate power cord for your desired location.

- **For Home Use (AC):** Connect the 110V-120V AC home charge cable to the AC port on the back of the fridge, then plug it into a standard wall outlet.
- **For Car Use (DC):** Connect the 12V DC car charge cable to the DC port on the back of the fridge, then plug it into your vehicle's 12V cigarette lighter socket.

Home & Car Use

Equipped with adapters for AC and DC

The mini fridge can be powered by both AC for home use and DC for car use.

3. OPERATING INSTRUCTIONS

Cooling Function:

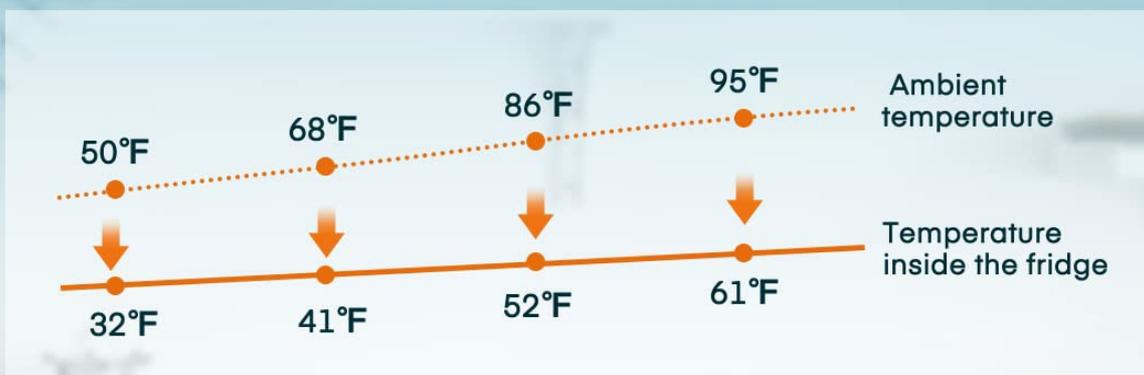

To activate the cooling function, ensure the fridge is powered on and the switch is set to the 'COOL' position. The

fridge will cool items to approximately 59-68°F (15-20°C) below ambient temperature, with a lowest achievable temperature of 37.4°F (3°C). Allow 1-2 hours for the unit to reach its optimal cooling temperature.

Cool Function

Cool to 50-65°F lower than ambient temperature

*Reference 3-hour test laboratory data

The cooling function maintains items at a temperature significantly lower than the surrounding environment.

Warming Function:

To activate the warming function, set the switch to the 'WARM' position. The fridge can warm items up to 149°F

(65°C). This function is ideal for keeping breast milk, warm towels, or certain food items at a desired temperature. Allow time for the unit to heat up.

Warm Function

Keep breast milk fresh all the time

The warming function is suitable for keeping items like breast milk warm.

LED Mirror and Light Operation:

The fridge door features an integrated mirror with LED lighting. There are three adjustable light levels. To cycle

through the brightness options (low, medium, high) or turn the light off, gently touch the light icon on the mirror surface.

LED Makeup Mirror Door

3 brightness options are available

High Light

Middle Light

Soft Light

Adjust the LED mirror light to your preferred brightness level.

Capacity and Storage:

The 10-liter capacity allows for ample storage. The interior includes two removable shelves, providing flexibility to

organize items of various sizes. You can remove one or both shelves to accommodate taller items like bottles or larger containers.

Compact 10L Size

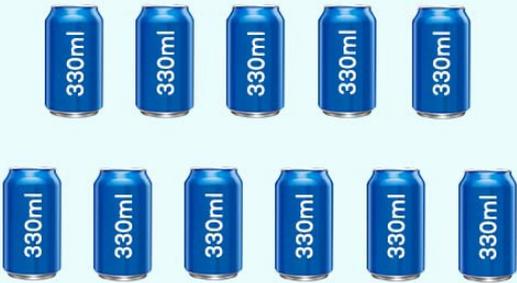

Meet Daily Storage Needs

13.4 in

11.4 in 9.5 in

10L 11 cans

4L 6 cans

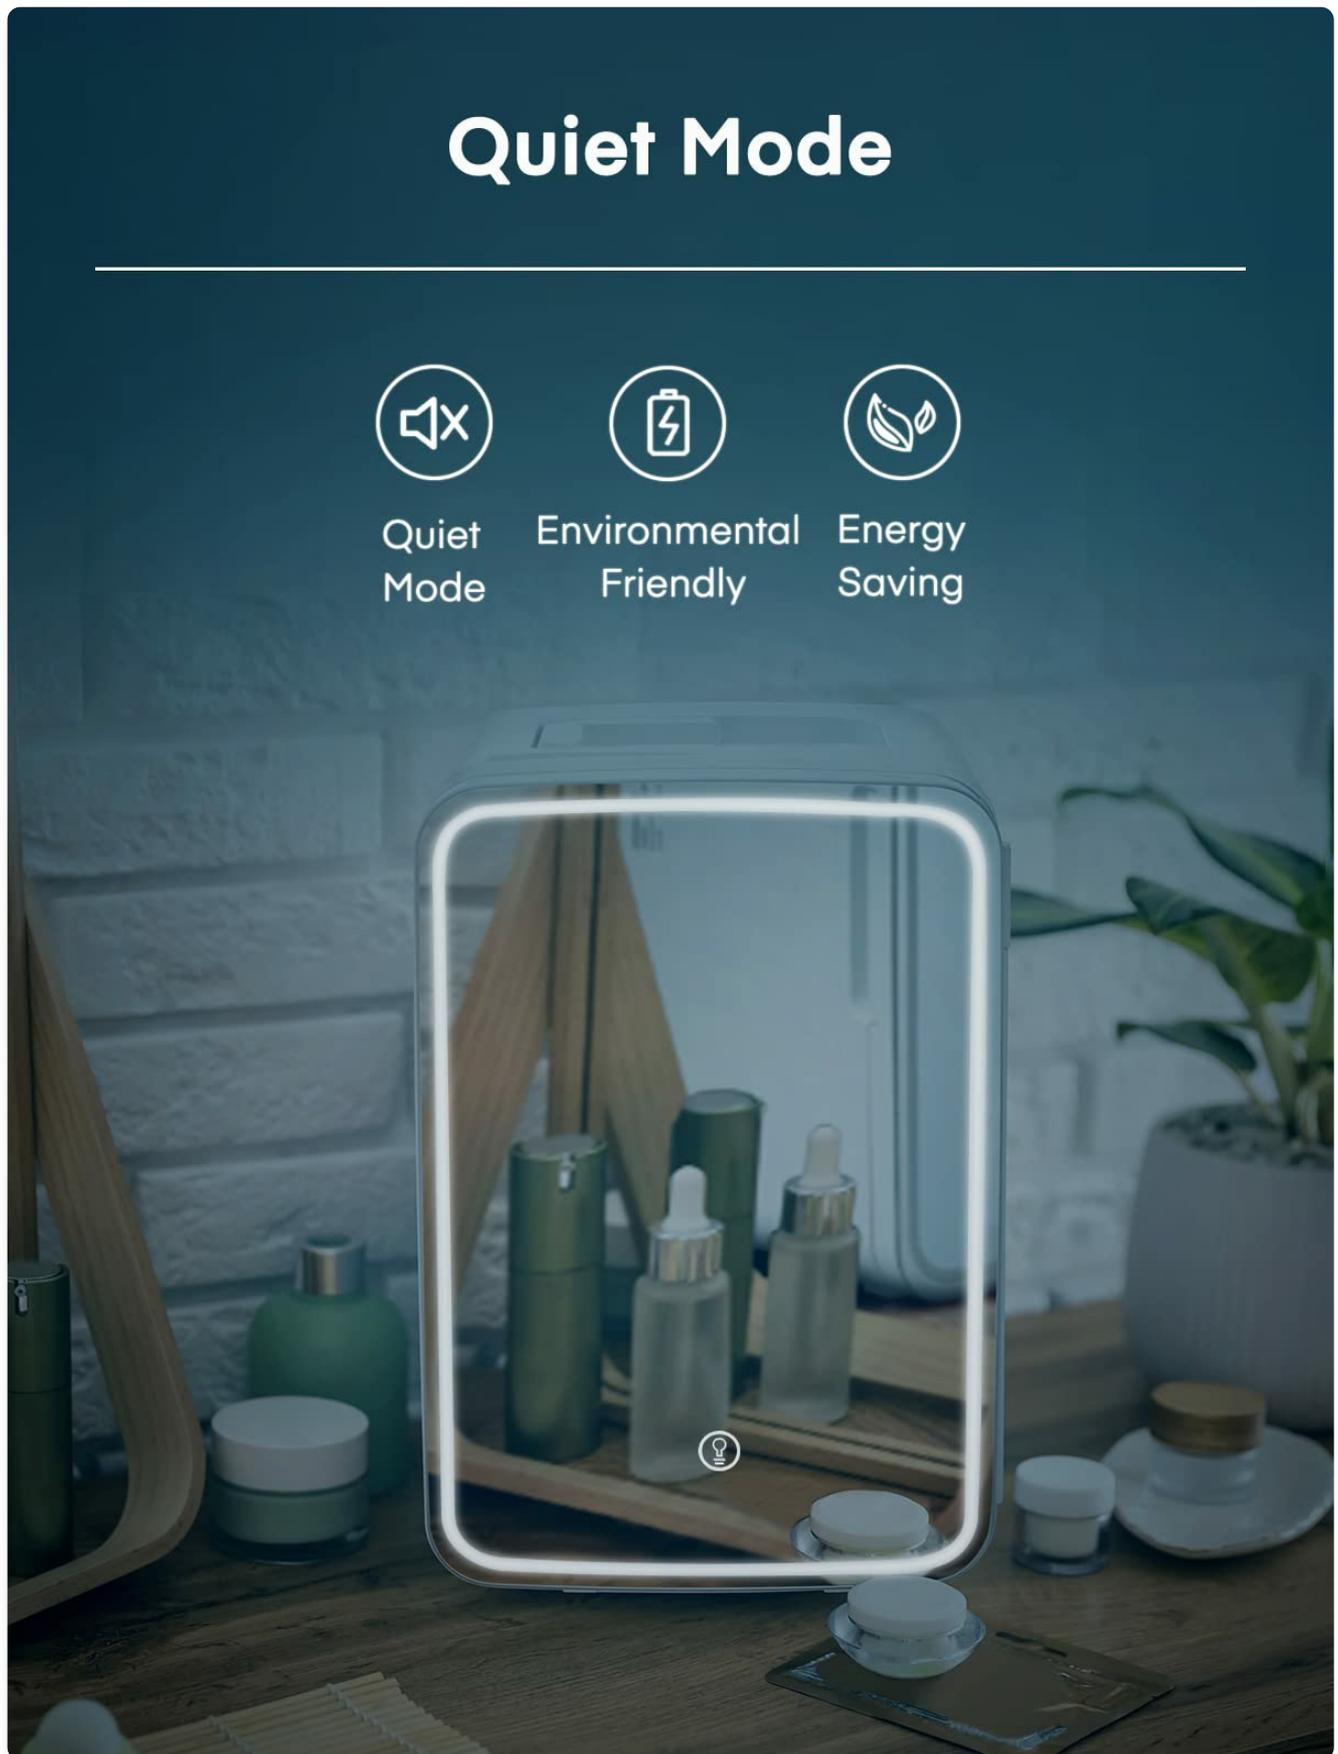

The 10-liter capacity can hold up to 11 standard 330ml cans.

Quiet Mode:

The fridge operates with advanced semiconductor refrigeration technology, ensuring low noise levels. For an even quieter environment, activate the Mute mode, which is ideal for bedrooms or quiet office spaces.

The quiet mode ensures minimal disturbance, perfect for personal spaces.

Multiple Usage Scenarios:

This versatile mini fridge is suitable for various settings, including bedrooms, offices, dormitories, and even in your car for travel. Its compact size and dual power options make it highly adaptable.

Multiple Usage Scenarios

Mini fridge that can be used anywhere

The mini fridge is designed for use in various environments, from home to car.

4. MAINTENANCE

Cleaning:

To clean the interior and exterior of the fridge, unplug the unit and wipe surfaces with a soft cloth dampened with mild soap and water. Do not use abrasive cleaners or immerse the unit in water. Ensure the unit is completely dry before plugging it back in.

Storage:

If storing the fridge for an extended period, ensure it is clean and dry. Store it in a cool, dry place away from direct sunlight and extreme temperatures. Leave the door slightly ajar to prevent odors and mildew buildup.

5. TROUBLESHOOTING

Problem	Possible Cause	Solution
Fridge not cooling/warming	Not plugged in; power switch off; insufficient ventilation; fan blocked.	Ensure power cord is securely plugged in; turn power switch to 'COOL' or 'WARM'; ensure adequate space around the unit; check for obstructions around the fan.
Excessive noise	Fan obstruction; unit not level.	Check for any objects blocking the fan; ensure the fridge is on a flat, stable surface. Activate Mute mode if available.
Condensation inside	Frequent door opening; high humidity.	Minimize door opening; wipe away condensation regularly.
LED light not working	Light function off; power issue.	Touch the light icon on the mirror to cycle through settings; ensure the fridge is powered on.
