Auto Joe 24V-AJVAC-P1

Auto Joe 24V Cordless Wet/Dry Handheld Vacuum

Model: 24V-AJVAC-P1

INTRODUCTION

The Auto Joe 24V Cordless Wet/Dry Handheld Vacuum is designed for efficient and convenient clean-ups in various environments, including homes, offices, vehicles, garages, workshops, boats, and RVs. This manual provides essential information for the safe and effective operation and maintenance of your vacuum cleaner.

PRODUCT COMPONENTS

The 24V Cordless Wet/Dry Handheld Vacuum comes with a comprehensive kit to address various cleaning needs. Please ensure all components are present upon unboxing.

Image: The Auto Joe 24V Cordless Wet/Dry Handheld Vacuum, its 2.0 Ah 24V lithium-ion battery, a carrying bag, and various attachments including an extension tube, crevice nozzle, water nozzle, wet + dry utility nozzle, and dust brush nozzle.

Included Accessories:

- **Extension Tube:** For extended reach in tight spaces or on floors.
- **Crevice Nozzle:** Ideal for narrow gaps and corners.
- **Water Nozzle:** Designed for picking up liquid spills.
- **Wet + Dry Utility Nozzle:** A versatile nozzle for both wet and dry debris.
- **Dust Brush Nozzle:** For dusting delicate surfaces and upholstery.
- **Carrying Bag:** For convenient storage and transport of the vacuum and its accessories.
- **2.0 Ah 24V Lithium-Ion Battery:** Provides cordless power for the vacuum.
- **Charger:** For recharging the lithium-ion battery.

EXTENSION TUBE, PLUS CREVICE, WATER, WET + DRY UTILITY AND DUST BRUSH NOZZLES

CONVENIENT CARRYING BAG

Image: The convenient carrying bag, designed to store the vacuum and all its accessories.

SETUP

Before first use, ensure the battery is fully charged. The vacuum operates on the IONMAX 24V rechargeable battery system.

Battery Installation and Charging:

1. **Charge the Battery:** Connect the charger to a power outlet and then connect the battery to the charger. Allow the battery to charge completely before initial use. Refer to the battery and charger manual for specific charging indicators and times.
2. **Insert the Battery:** Align the battery with the battery slot on the rear of the vacuum cleaner. Slide the battery firmly into place until it clicks, indicating it is securely locked.
3. **Remove the Battery:** To remove the battery, press the battery release button (if present) and slide the battery out of the slot.

2.0 AH 24V LITHIUM-ION BATTERY + CHARGER

OPERATING INSTRUCTIONS

The Auto Joe handheld vacuum is designed for versatile cleaning. Follow these steps for optimal performance.

General Operation:

1. **Select Attachment:** Choose the appropriate nozzle or attachment for your cleaning task. For general dry debris, the utility nozzle is suitable. For tight spaces, use the crevice nozzle. For liquids, use the water nozzle.
2. **Power On:** Press the power button located on the handle to turn on the vacuum.
3. **Vacuuming:** Move the vacuum slowly and steadily over the area to be cleaned. For wet spills, ensure the water nozzle is attached and empty the tank frequently to prevent overflow.
4. **Power Off:** Press the power button again to turn off the vacuum.

**GREAT FOR THE HOME, OFFICE, AUTO,
GARAGE, WORKSHOP, BOAT + RV**

MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your vacuum cleaner. This includes emptying the dust tank and cleaning the HEPA filter.

Emptying the Dust Tank:

1. **Detach Dust Tank:** Locate the release button or latch for the dust tank, usually near the nozzle. Press or unlatch it and carefully pull the dust tank away from the main body of the vacuum.
2. **Empty Contents:** Hold the dust tank over a trash receptacle and empty all collected debris. For wet spills, dispose of the liquid appropriately.
3. **Reattach Dust Tank:** Align the dust tank with the vacuum body and push it firmly until it clicks into place.

Cleaning the HEPA Filter:

The advanced HEPA filtration system traps pollen, dirt, sand, hair, dust, and other debris. The HEPA filter is washable and reusable.

1. **Remove Filter:** After detaching the dust tank, carefully remove the HEPA filter from its housing.
2. **Clean Filter:** Tap the filter gently over a trash can to dislodge loose debris. For a more thorough cleaning, rinse the filter under cool, running water until the water runs clear. Do not use hot water or detergents.
3. **Dry Filter:** Allow the filter to air dry completely for at least 24 hours before reinserting it into the vacuum. Ensure it is

completely dry to prevent mold or damage to the vacuum.

4. **Reinstall Filter:** Once dry, place the HEPA filter back into its housing within the dust tank, then reattach the dust tank to the vacuum body.

TROUBLESHOOTING

If you encounter issues with your Auto Joe vacuum, refer to the table below for common problems and solutions.

Problem	Possible Cause	Solution
Vacuum does not turn on.	Battery is not charged or not properly inserted.	Ensure battery is fully charged and securely inserted.
Low suction power.	Dust tank is full, filter is clogged, or nozzle is blocked.	Empty dust tank, clean HEPA filter, check for blockages in the nozzle or hose.

Problem	Possible Cause	Solution
Vacuum shuts off during use.	Battery is low or vacuum is overheating.	Recharge battery. If overheating, turn off and allow to cool before resuming use.
Water leaks from vacuum (wet use).	Dust tank is overfilled or not properly sealed.	Empty dust tank before it reaches max fill line. Ensure dust tank is securely attached and sealed.

SPECIFICATIONS

Feature	Detail
Brand	Auto Joe
Model Name	24V-AJVAC-P1
Special Feature	Dry, HEPA, Portable, Wet
Filter Type	HEPA Filter (Washable, Reusable)
Cordless	Yes
Capacity	18.3 fl oz dust tank
Wattage	120 watts
Suction Power	33 air-watt max
Vacuum Pressure	8 kPa max
Recommended Uses	Home, office, auto, garage, workshop, boat, RV
Form Factor	Handheld
Color	Green
Battery Type	2.0 Ah 24V Lithium-Ion (IONMAX System)
Noise Level	70 dB
Item Weight	3.5 pounds
Product Dimensions	1"L x 1"W x 1"H
UPC	842470135093
