## TEEHO TE001K

# TEEHO TE001K Keyless Entry Door Lock User Manual

Model: TE001K | Brand: TEEHO

## PRODUCT OVERVIEW

The TEEHO TE001K Keyless Entry Door Lock with Handle is an advanced electronic keypad deadbolt designed for high-security and convenience in homes and rental properties. It features multiple access options, smart locking capabilities, and a durable construction to ensure reliable performance.

This set includes a keypad deadbolt lock and two passage door knobs, offering a complete solution for your entryways. Its satin nickel finish provides a modern and sleek appearance.

## SETUP AND INSTALLATION

The TEEHO TE001K lock is designed for easy installation on most standard residential doors. Ensure your door meets the following specifications:

- **Door Preparation:** 1" (25.4mm) for cross bore, 2-1/8" (54mm) for bore hole.
- **Door Thickness:** 1-3/8" to 2" (35mm to 50mm).
- **Backset:** 2-3/8" or 2-3/4" (60mm or 70mm).

# Function & Security

Figure 2: Door dimensions and lock components for installation.

## Battery Installation

The lock requires 4 AA (1.5V) alkaline batteries (not included). Install them in the interior assembly of the deadbolt. The lock features a low battery indicator to alert you when replacement is needed.

For detailed step-by-step installation instructions, please refer to the [Installation Manual \(PDF\)](#).

## OPERATING INSTRUCTIONS

### Keyless Entry

The TEEHO TE001K offers convenient keyless access with up to 20 programmable access codes (4-10 digits). Two physical keys are also included for traditional entry.

Figure 3: Keypad with multiple user code and one-time PIN code capabilities.

### One-Time Code Feature

Generate one-time access codes for temporary visitors such as neighbors, cleaners, or delivery personnel. These codes are automatically deleted after a single use, enhancing security.

## Smart-Locking Features

- **Auto-Lock:** The lock can be configured to automatically lock within 10-99 seconds after the door closes. This feature can be disabled if preferred.
- **Manual Locking:** From the outside, hold any key on the keypad for 2 seconds to manually lock the door.
- **Anti-Peeping Password:** Enter random digits before or after your actual code to prevent others from guessing your passcode.
- **Backlit Keypad:** The keypad illuminates for easy visibility in low-light conditions.
- **Mute Mode:** Silence keypad tones for quiet operation.
- **Vacation Mode:** Disable all user codes for enhanced security when you are away for an extended period.

period.

*Video 1: This video demonstrates the process of unlocking and locking the TEEHO TE001K Keyless Entry Door Lock using the keypad.*

## MAINTENANCE

### Battery Management

The lock is powered by 4 AA alkaline batteries. It features a low battery indicator to notify you when the batteries need to be replaced. For optimal performance, it is recommended to use high-quality alkaline

batteries.

## Durability and Weather Resistance

The TEEHO TE001K is built with durable aluminum and is ANSI Grade 3 certified, ensuring high security. It is designed to withstand various environmental conditions:

- **IP54 Weather Resistance:** Protects against dust and splashing water.
- **Temperature Range:** Operates effectively in temperatures from -31°F to 150.8°F (-35°C to 66°C).

## TROUBLESHOOTING

If you encounter any issues with your TEEHO TE001K lock, please refer to the [User Guide \(PDF\)](#) for

detailed troubleshooting steps and solutions.

Common issues often relate to battery levels or incorrect code entry. Ensure batteries are fresh and codes are entered accurately.
