#### 1. Initial Pairing:

- Open the charging case. The earbuds will automatically power on and enter pairing mode.
- On your device (smartphone, tablet, etc.), enable Bluetooth.
- Search for "TWE-210" in the list of available Bluetooth devices and select it to connect.
- Once connected, you will hear an audible confirmation, and the earbud LED indicators will turn off or flash slowly.

## TROUBLESHOOTING

Problem	Possible Solution
Earbuds not pairing with device.	Ensure earbuds are charged. Turn off Bluetooth on your device and turn it back on. Forget "TWE-210" from your device's Bluetooth list and try pairing again. Place earbuds back in the case, close the lid, wait a few seconds, then open again.
Only one earbud is working.	Ensure both earbuds are charged. Place both earbuds back in the charging case, close the lid, then take them out together. Try resetting the earbuds (refer to manufacturer's specific reset instructions if available, otherwise, forgetting and re-pairing is the common method).
Low volume or poor sound quality.	Adjust volume on both your device and the earbuds. Ensure earbuds are properly seated in your ears. Clean any debris from the earbud speaker mesh. Ensure there are no obstructions between the earbuds and your device.
Charging case not charging.	Check the USB-C cable and power adapter. Try a different cable or adapter. Ensure the charging port is clean and free of debris.
