Vente-unique LEANDRE

Vente-unique Leandre Low Chest of Drawers Instruction Manual

Model: LEANDRE | Brand: Vente-unique

INTRODUCTION

Thank you for choosing the Vente-unique Leandre Low Chest of Drawers. This manual provides important information regarding the assembly, operation, maintenance, and safety of your new furniture. Please read these instructions carefully before assembly and retain them for future reference.

Safety Information

- Always assemble the product on a clean, soft surface to prevent scratches.
- Ensure all parts are present and undamaged before beginning assembly.
- Do not overtighten screws, as this may damage the material.
- Keep small parts out of reach of children during assembly.
- For stability, it is recommended to secure the chest of drawers to a wall using appropriate anti-tip hardware (not always included, but good general advice for chests).
- Do not exceed the maximum weight capacities specified for the top surface, drawers, and niches.

PACKAGE CONTENTS

Before starting assembly, verify that all components listed below are present. If any parts are missing or damaged, please contact Vente-unique customer support.

- Particle board panels (various sizes for frame, drawers, and shelves)
- 3 Drawer slides (pairs)
- 3 Drawer handles
- Assembly hardware (screws, dowels, cam locks, etc.)
- Back panel

- Base/feet components

Tools Required (not included): Phillips head screwdriver, Hammer, Measuring tape.

SETUP AND ASSEMBLY

Follow these steps carefully to assemble your Leandre Low Chest of Drawers. It is recommended to have two people for assembly.

1. **Prepare the Area:** Clear a spacious, clean, and soft area for assembly to prevent damage to the furniture parts and your floor.
2. **Identify Parts:** Unpack all components and identify them using the provided parts list (if a detailed list was available, I'd reference it). Refer to the dimension diagram for component identification.
3. **Assemble the Frame:** Connect the side panels to the bottom and top panels using the provided hardware (dowels, cam locks, screws). Ensure all connections are secure.
4. **Install Niches:** Insert the shelves for the open niches into the designated slots or attach them with hardware.
5. **Attach Drawer Slides:** Secure the drawer slides to the inner sides of the chest frame according to the markings. Ensure they are level and aligned.
6. **Assemble Drawers:** Construct each of the three drawers by connecting the front, back, and side panels. Attach the drawer bottom. Install the corresponding drawer slides to the sides of each drawer.
7. **Insert Drawers:** Carefully slide the assembled drawers into the frame, ensuring they glide smoothly.
8. **Attach Handles:** Secure the handles to the front of each drawer.
9. **Install Back Panel:** Attach the back panel to the rear of the chest using small nails or screws.
10. **Attach Base:** Secure the base components to the bottom of the chest.
11. **Final Check:** Verify that all screws are tightened, and the chest is stable. If desired, attach anti-tip hardware to secure the chest to a wall.

OPERATING AND USAGE

The Leandre Low Chest of Drawers is designed for storing various items in its three drawers and three open niches. To ensure longevity and safety, please adhere to the following guidelines:

- **Drawer Operation:** Open and close drawers gently. Avoid forcing them if they feel stiff.
- **Weight Distribution:** Distribute weight evenly within drawers and on shelves. Avoid placing heavy items on the edges.
- **Maximum Load Capacities:**
 - Top Surface: 18 kg
 - Each Drawer: 10 kg
 - Each Niche Shelf: 4 kg
- **Stability:** Do not climb on or lean heavily on the chest. If not wall-mounted, ensure it is placed on a level surface to prevent tipping.

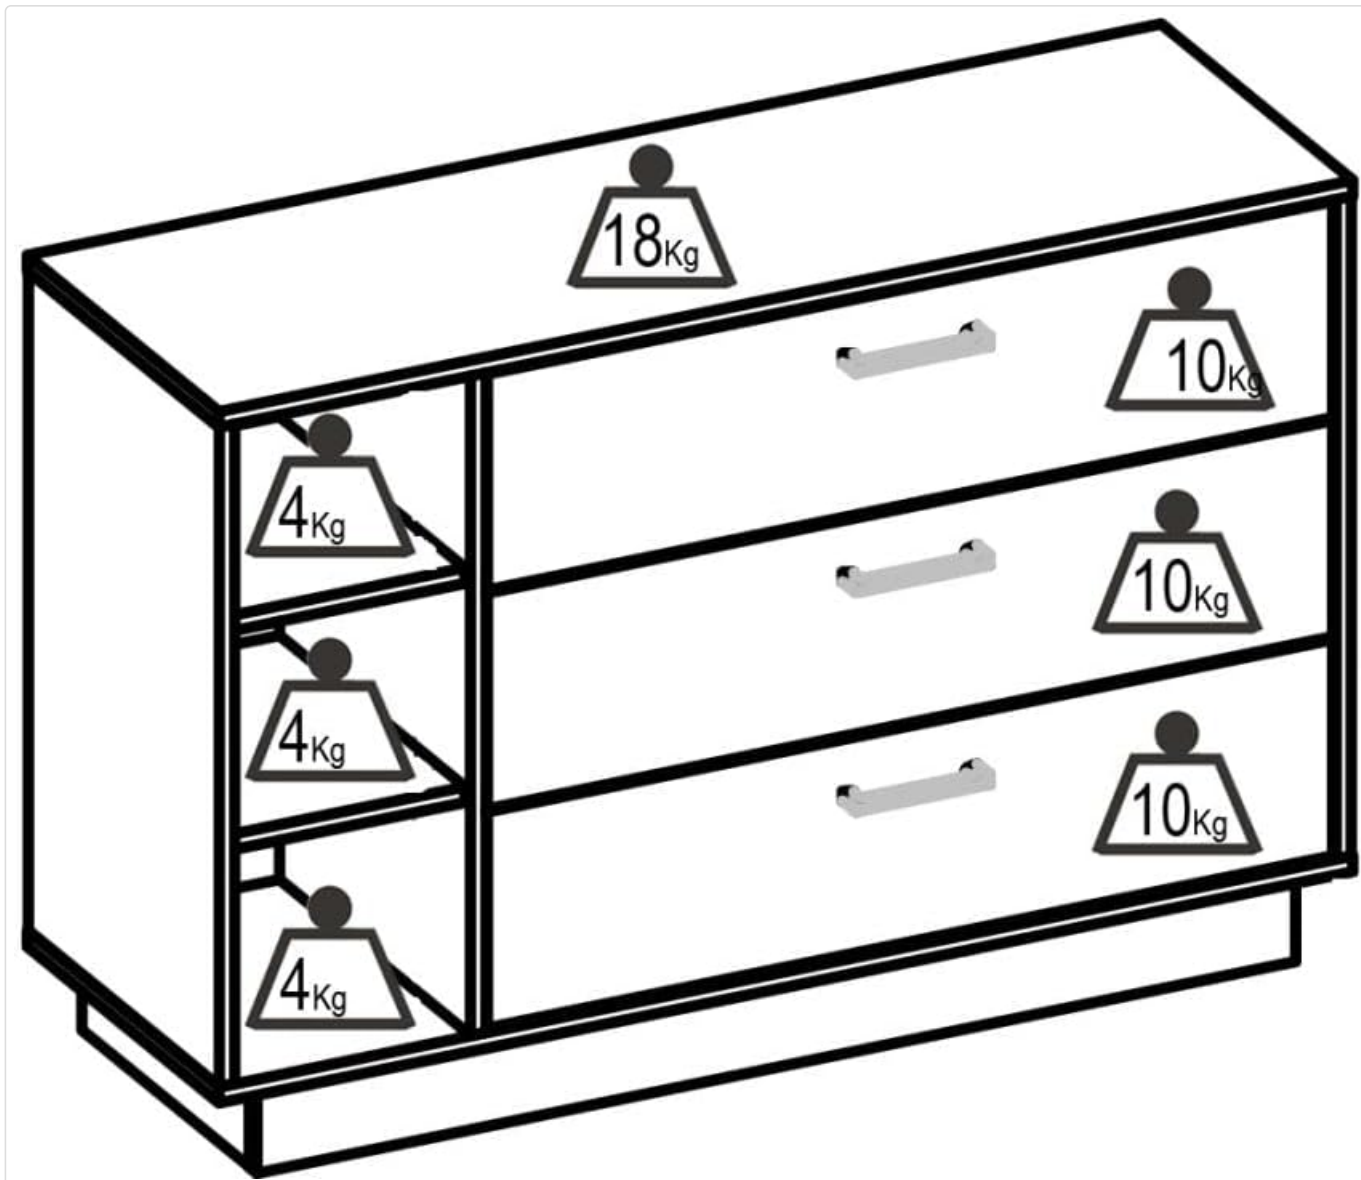

Figure 2: Diagram illustrating the maximum weight capacities for the Leandre chest of drawers: 18 kg on the top surface, 10 kg per drawer, and 4 kg per niche shelf.

MAINTENANCE

Proper care will help maintain the appearance and extend the life of your Leandre Low Chest of Drawers.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. For stubborn marks, use a mild, non-abrasive cleaner specifically designed for furniture. Dry immediately with a clean cloth.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, solvents, or polishes containing silicone, as these can damage the melamine finish.
- **Spills:** Clean up spills immediately to prevent staining or damage to the finish.
- **Sunlight and Heat:** Avoid placing the chest in direct sunlight or near heat sources, as this can cause fading or warping.
- **Hardware Check:** Periodically check all screws and fittings and tighten them if necessary to ensure stability.

TROUBLESHOOTING

If you encounter any issues with your chest of drawers, refer to the following common problems and solutions:

- **Wobbly Chest:**
 - Ensure all assembly screws and fittings are securely tightened.
 - Check that the chest is placed on a level surface. Use shims if necessary.
- **Drawers Not Sliding Smoothly:**
 - Verify that the drawer slides are correctly installed and aligned on both the drawer and the frame.
 - Check for any obstructions in the drawer tracks.
 - Ensure drawers are not overloaded, exceeding their weight capacity.
- **Damaged Surface:**
 - For minor scratches, furniture repair pens or touch-up kits may be used.
 - For significant damage, contact customer support for advice on replacement parts or repair options.
