IMICE T97

IMICE T97 RGB Honeycomb Gaming Mouse User Manual

Model: T97 | Brand: IMICE

INTRODUCTION

The IMICE T97 RGB Honeycomb Gaming Mouse is designed to provide a precise and comfortable experience for gaming and general computer use. It features a high-precision 4800 DPI sensor, a durable and ergonomic design, and is compatible with various operating systems. This manual will guide you through the setup, operation, and maintenance of your new gaming mouse.

- **Brand:** IMICE
- **Type:** Mouse
- **Compatibility:** Computers and Laptops
- **Key Features:** High precision 4800 DPI, comfortable and durable design, anti-sweat design, precise positioning.
- **Color:** Black

SETUP INSTRUCTIONS

1. Connecting the Mouse

The IMICE T97 mouse uses a standard USB connection for plug-and-play functionality. No additional drivers are typically required for basic operation on supported operating systems.

1. Locate an available USB port on your computer or laptop.
2. Insert the USB connector of the IMICE T97 mouse firmly into the USB port.
3. Your operating system should automatically detect and install the necessary drivers. This process may take a few moments.
4. Once installed, the mouse will be ready for use.

OPERATING THE MOUSE

Basic Functions

- **Left Click:** Primary action, selection, activation.
- **Right Click:** Context menu, secondary actions.
- **Scroll Wheel:** Scroll up/down documents and web pages. Can also be clicked for middle-click functionality.
- **Side Buttons:** (If present, typically for forward/back navigation in browsers or custom functions in games). The T97 model typically includes two side buttons.

DPI Adjustment

The IMICE T97 mouse features adjustable DPI (Dots Per Inch) settings, allowing you to change the cursor sensitivity. This mouse supports up to 4800 DPI. There is usually a dedicated button, often located behind the scroll wheel, to cycle through different DPI levels. Press this button to switch between sensitivity settings to find your preferred speed.

RGB Lighting

The mouse features RGB lighting, which typically cycles through various colors automatically. There may not be user-configurable software for lighting control, and it operates as a default aesthetic feature.

MAINTENANCE

Cleaning

- Disconnect the mouse from your computer before cleaning.
- Use a soft, dry, lint-free cloth to wipe the surface of the mouse.
- For stubborn dirt, slightly dampen the cloth with water or a mild cleaning solution (avoid harsh chemicals).
- Use a cotton swab or compressed air to clean around buttons and the scroll wheel.
- Ensure no liquid enters the mouse's internal components.

Storage

Store the mouse in a cool, dry place away from direct sunlight and extreme temperatures when not in use for extended periods.

TROUBLESHOOTING

Problem	Solution

Problem	Solution
Mouse is not responding.	Ensure the USB cable is securely connected to the computer. Try plugging the mouse into a different USB port. Restart your computer. Test the mouse on another computer to rule out a computer-specific issue.
Cursor movement is erratic or jumpy.	Clean the optical sensor on the underside of the mouse. Ensure you are using the mouse on a clean, non-reflective, and uniform surface (e.g., a mouse pad). Adjust DPI settings using the DPI button.
Buttons or scroll wheel are not working.	Check for any debris lodged around the buttons or scroll wheel and clean if necessary. Ensure the mouse is properly connected.
Cannot find software for customization.	The IMICE T97 mouse is primarily designed for plug-and-play operation. Dedicated software for advanced customization (like button remapping or detailed RGB control) may not be available or easily accessible for this model. Most functions are hardware-controlled.

SPECIFICATIONS

Brand	IMICE
Model	T97
Color	Black
