iPormis ZOP110

iPormis Full Metal Bed Frame Instruction Manual

MODEL: ZOP110

Brand: iPormis

INTRODUCTION

This instruction manual provides detailed guidance for the assembly, operation, maintenance, and troubleshooting of your iPormis Full Metal Bed Frame. Designed for durability and comfort, this bed frame features a faux leather platform with a button-tufted headboard, offering a stylish and functional addition to any bedroom. It includes a 12-inch underbed space for storage and is engineered for noise-free use with robust steel slat support.

SAFETY INFORMATION

Please read and understand all safety warnings before assembly and use to prevent injury or damage to the product.

- Keep hands and feet away from bed legs in the dark to avoid injury. Luminescent strips on the middle legs are designed to assist with positioning in low light conditions.
- Ensure the bed is placed in a safe area, away from obstacles, to protect children from potential harm. The bed frame includes protective covers at the corners to enhance safety.
- Do not exceed the maximum weight capacity of 1000 lbs.
- Ensure all bolts and screws are securely tightened during assembly and periodically check for tightness during use.

Figure 3: Protective covers at the bed's sharp corners help prevent accidental injury.

SETUP AND ASSEMBLY

The iPormis Full Metal Bed Frame is designed for easy assembly. All necessary hardware and tools are conveniently packed within a single box. Assembly typically takes approximately 30 minutes when following the step-by-step instructions provided.

Required Components (Included):

- Headboard
- Metal Bed Frame (various sections)
- Steel Slats
- Installation Manual
- Installation Tools & Accessories (bolts, nuts, Allen wrench)

Assembly Steps:

1. Unpack all components from the box and verify against the parts list in the included installation manual.
2. Assemble the headboard and footboard sections according to the manual's diagrams, securing all connections with the provided hardware.
3. Connect the side rails to the assembled headboard and footboard. Ensure all connections are firm and stable.
4. Install the central support beam and legs, if applicable, to provide additional stability.
5. Lay the steel slats across the frame. The one-click snap-in installation buckle design ensures easy and secure placement.
6. Ensure all connections are tightened before placing a mattress on the frame.

OPERATION AND FEATURES

The iPormis Full Metal Bed Frame is designed for optimal comfort and practicality.

Under-bed Storage Space:

The bed frame stands 12 inches (30.5 cm) off the floor, providing ample space underneath for storage. This feature is ideal for organizing extra items and maximizing space in smaller rooms.

Figure 5: Illustration of the 12-inch under-bed clearance for storage.

Noise-Free Design:

The bed frame incorporates a one-click snap-in installation buckle design combined with EVA strips. This construction has been verified to eliminate noise, ensuring a peaceful sleep environment.

Embedded Mattress Design:

The frame features an embedded structure that securely holds your mattress in place, preventing it from slipping or shifting during use. This provides enhanced stability and a full sense of security.

MAINTENANCE

Proper care will ensure the longevity and appearance of your iPormis bed frame.

- **Cleaning:** Wipe the bed frame surfaces with a dry cloth. The faux leather headboard is water-resistant and easy to clean. Avoid using harsh chemicals or abrasive cleaners that may damage the finish.
- **Inspection:** Periodically check all bolts and connections to ensure they remain tight. Re-tighten if necessary to maintain stability and prevent squeaking.
- **Headboard Care:** The high-quality faux leather is skin-friendly. For minor spills, gently blot with a dry cloth.

TROUBLESHOOTING

This section addresses common issues you might encounter with your bed frame.

Problem	Possible Cause	Solution
Bed frame is noisy/squeaking.	Loose bolts or connections; friction between metal parts.	Ensure all assembly bolts are securely tightened. The integrated EVA strips are designed to prevent noise, but re-checking connections can resolve any residual movement.
Black color rubs off on walls/surfaces.	Surface friction with painted walls or light-colored furniture.	Exercise caution when moving the bed frame near walls. Consider placing protective barriers (e.g., felt pads) between the frame and adjacent surfaces if rubbing occurs.
Mattress slides on the frame.	Mattress not properly seated or non-embedded design.	The iPormis bed frame features an embedded design to prevent mattress slippage. Ensure your mattress is correctly positioned within the frame's edges. If the issue persists, verify mattress dimensions are compatible.
Difficulty during assembly.	Instructions unclear or parts misaligned.	Refer to the detailed step-by-step installation manual. It is recommended to have two people for assembly to ease the process.

SPECIFICATIONS

Feature	Detail
Model Number	ZOP110
Size	Full
Product Dimensions (L x W x H)	77"L x 57"W x 40"H
Color	Black
Material	All-Metal Frame, Faux Leather Headboard
Finish Type	Steel
