Selarlyt 72FT 200 LED Solar String Lights User Manual

Model: 736431986605

INTRODUCTION

Thank you for choosing Selarlyt Solar String Lights. These 72-foot long string lights feature 200 bright LED bulbs, designed for both indoor and outdoor decoration. Equipped with an upgraded monocrystalline solar panel and an IP65 waterproof rating, these lights offer efficient solar energy conversion and reliable performance in various weather conditions. They include 8 distinct lighting modes to suit different ambiance requirements and a memory function to retain your last selected mode.

WHAT'S INCLUDED

- 2 x Solar String Lights (72FT, 200 LED each)
- 2 x Solar Panels
- 2 x Ground Stakes
- 1 x Instruction Manual

SETUP INSTRUCTIONS

Follow these steps to set up your Selarlyt Solar String Lights:

1. **Assemble the Solar Panel:** Attach the ground stake to the solar panel. Ensure the connection is secure.
2. **Position the Solar Panel:** Choose a location where the solar panel can receive direct sunlight for 4-6 hours daily. This ensures optimal charging.
3. **Install the String Lights:** Unwind the string lights and place them in your desired decorative area. The flexible wire allows for easy shaping around trees, bushes, porches, or fences.
4. **Activate the Lights:** Locate the 'ON/OFF' switch on the back of the solar panel and switch it to the 'ON' position. The lights will automatically charge during the day and illuminate at night.

Figure 1: Solar Panel Assembly and Installation Steps. The diagram shows how to connect the stake to the solar panel and insert it into the ground. It also highlights the 'Mode' and 'ON/OFF' buttons on the solar panel and lists the 8 lighting modes.

Figure 2: Solar panel with ground stake, ready for placement in the ground.

OPERATING INSTRUCTIONS

Your Sellarlyt Solar String Lights are designed for ease of use:

- **Automatic Operation:** Once the 'ON/OFF' switch is set to 'ON', the lights will automatically turn on at dusk and turn off at dawn.
- **Charging:** The solar panel charges the built-in battery during the day when exposed to sunlight. Ensure the panel is not obstructed by shadows.
- **Changing Modes:** Press the 'MODE' button on the back of the solar panel to cycle through the 8 different lighting modes. The built-in memory chip will remember your last selected mode for the next use.

LIGHTING MODES

The Sellarlyt Solar String Lights offer 8 dynamic lighting modes:

1. Combination
2. In Waves
3. Sequential
4. Slo-Glo
5. Chasing/Flash
6. Slow Fade
7. Twinkle/Flash
8. Steady On

MAINTENANCE

To ensure the longevity and optimal performance of your solar string lights, consider the following maintenance tips:

- **Clean the Solar Panel:** Regularly wipe the solar panel with a soft, damp cloth to remove dust, dirt, or debris. A clean panel ensures maximum sunlight absorption.
- **Clear Obstructions:** Ensure no trees, buildings, or other objects cast shadows on the solar panel, especially during peak sunlight hours.
- **Waterproof Design:** The lights are IP65 waterproof, meaning they are protected against dust and low-pressure water jets. However, avoid submerging the solar panel or lights in water.
- **Winter Care:** In areas with heavy snow, clear snow from the solar panel to allow it to charge.

TROUBLESHOOTING

If your Sellarlyt Solar String Lights are not functioning as expected, try these troubleshooting steps:

Problem	Possible Cause	Solution
Lights do not turn on at night.	The 'ON/OFF' switch is in the 'OFF' position.	Ensure the switch on the back of the solar panel is set to 'ON'.
Lights are dim or only stay on for a short period.	Insufficient sunlight exposure for the solar panel.	Relocate the solar panel to an area that receives 4-6 hours of direct sunlight daily. Clean the solar panel surface.
Lights flicker or behave erratically.	Low battery charge or loose connection.	Allow the solar panel to charge fully in direct sunlight. Check all connections to ensure they are secure.
Lights do not change modes.	Mode button not pressed correctly.	Press the 'MODE' button firmly to cycle through the available lighting modes.

SPECIFICATIONS

Feature	Detail
Brand	Sellarlyt
Model Number	736431986605
Light Source Type	LED
Number of Light Sources	200 per string (2 pack included)
Total Length	72FT (66FT lights + 6FT lead)
Power Source	Solar Powered
Water Resistance Level	IP65 Waterproof
