# SUPERJARE 47 inch Reversible L Shaped Desk

Model: EU7035BC

## Introduction

This manual provides essential information for the assembly, operation, and maintenance of your SUPERJARE 47 inch Reversible L Shaped Desk. Designed for versatility, this desk features integrated LED lighting, convenient power outlets, and ample storage solutions, making it ideal for various uses including computing, gaming, and home office tasks. Please read all instructions carefully before beginning assembly or operation.

## Safety Information

Always follow assembly instructions carefully. Exercise caution when handling electrical components. Consider the item's weight and dimensions during installation and placement to prevent injury or damage. Ensure all screws are tightened securely after assembly. Do not overload the desk; the maximum weight recommendation is 100 pounds.

## Parts List & Assembly Overview

Before assembly, verify all parts are present and undamaged according to the included parts list. Each component is typically numbered for easy identification. The desk features a reversible design, allowing you to configure the L-shape with shelves on either the left or right side to best suit your space.

## Troubleshooting

### LED Lights Not Working

- Ensure the USB plug for the LED strip is securely connected to a powered USB port.
- Check the smart controller or app settings to ensure the lights are turned on and not set to a very low brightness.
- Verify that the power source for the USB port is active.

### Power Outlets Not Functioning

- Confirm that the desk's main power cord is securely plugged into a working wall outlet.
- Check if the connected devices are functioning correctly when plugged into a different power source.
- Avoid overloading the outlets; ensure total power consumption does not exceed the specified limits.

### Desk Instability

- Verify that all assembly screws are tightened securely.
- Adjust the leveling feet at the bottom of the desk legs to compensate for uneven flooring.
- Ensure the desk is placed on a flat, stable surface.
