## walimex pro 23109

# walimex pro LED 60W Softbox 40x60cm Bi color Kit 2 Instruction Manual

Model: 23109 | Brand: walimex pro

## INTRODUCTION

This manual provides detailed instructions for the safe and efficient use of your walimex pro LED 60W Softbox 40x60cm Bi color Kit 2. This versatile lighting kit is designed for various photography and video applications, offering adjustable color temperature and flexible positioning.

### Key Features:

- Adjustable color temperature from 3000K to 6000K.
- Flexible tilting up to 135° for precise object illumination.
- Adjustable lamp tripod height from 71 cm to 182 cm.
- Compact 40x60cm softbox for soft and even light distribution.
- Suitable for video, photo, and studio lighting in small spaces, easy to use for both professionals and beginners.

## KEY FEATURE

## SETUP INSTRUCTIONS

Follow these steps to assemble your walimex pro LED Softbox Kit:

### 1. Assemble the Light Stand:

1. Unfold the tripod legs completely to ensure stability.
2. Extend the central column to the desired height (maximum 182 cm) and secure it with the locking knobs.
3. Ensure the stand is stable before attaching any components.

## OPERATING INSTRUCTIONS

Once assembled, your walimex pro LED Softbox Kit is ready for use. Here's how to operate it:

### 1. Power On/Off:

Connect the power adapter to the softbox and plug it into a suitable power outlet. Use the power switch on the cable or the remote control to turn the light on or off.

### 2. Adjusting Color Temperature and Brightness:

Use the included remote control to adjust the color temperature (3000K to 6000K) and brightness levels. The remote has a range of 3-5 meters.

*Image: A product photography setup illustrating the effect of different color temperatures (warm, natural, cool) on an object when using the walimex pro LED softbox, adjustable via remote control.*

### 3. Adjusting Softbox Angle:

The softbox can be tilted up to 135° to direct the light precisely where needed. Loosen the adjustment knob on the stand, position the softbox, and then tighten the knob to secure it.

### 4. Adjusting Stand Height:

Adjust the height of the light stand from 71 cm to 182 cm by loosening the locking collars on the central column, extending or retracting the sections, and then securely tightening them.

## MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your softbox kit:

- **Cleaning:** Use a soft, dry cloth to wipe down the exterior of the softbox and stand. Do not use abrasive

cleaners or solvents.

- **Storage:** When not in use, disassemble the softbox and stand, and store them in the provided storage bag in a cool, dry place to protect them from dust and damage.
- **Bulb Replacement:** Ensure the LED bulb is completely cool before attempting to replace it. Use only compatible E27 LED bulbs.

### TROUBLESHOOTING

If you encounter any issues with your walimex pro LED Softbox Kit, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Light does not turn on.	Power cable not connected, bulb loose, power outlet faulty.	Check power connections, ensure bulb is screwed in tightly, try a different power outlet.
Remote control not working.	Batteries depleted, remote out of range, obstruction.	Replace remote batteries, ensure remote is within 3-5m range, remove any obstructions between remote and light.
Unstable light stand.	Legs not fully extended, locking knobs loose.	Ensure tripod legs are fully spread, tighten all locking knobs securely.

For further assistance, please contact walimex pro customer support.
