Key Assembly Tips:

- Ensure all screws are securely tightened after assembly is complete, but avoid over-tightening during initial fitting to allow for alignment.
- The heavy-duty nylon base and smooth-rolling casters are designed for stability and mobility on various floor types, including carpet.

Operating Your Chair

The COLAMY office chair offers multiple adjustment features to customize your seating experience for maximum comfort and ergonomic support.

1. Seat Height Adjustment:

Use the pneumatic control lever (typically on the right side under the seat) to raise or lower the seat. Pull the lever up to raise the seat; release it at the desired height. To lower, pull the lever up while seated.

2. Synchro Tilt & Tension Control:

The chair features a synchro tilt mechanism allowing you to rock back. Pull out the handle (right side of the chair) to enable tilting; push it in to lock the chair in an upright position. The tilt tension knob underneath the seat controls the resistance of the reclining motion. Turn clockwise to increase tension (tighter), and counter-clockwise to decrease tension (looser), adjusting it to your personal preferences.

3. Inflatable Lumbar Support:

For enhanced lower back support, the chair includes an inflatable lumbar system. Locate the air pump bulb on the side of the chair. Squeeze the bulb to inflate the lumbar area to your desired firmness. To release air and reduce support, press the small button or valve on the pump.

4. Flip-Up Armrests:

The padded armrests can be flipped up 90 degrees, allowing the chair to fit neatly under most desks for space-saving convenience. Simply lift the armrests upwards until they lock into the vertical position. To return them, gently pull them down.

Maintenance

To ensure the longevity and appearance of your COLAMY office chair, follow these simple maintenance guidelines:

- **Cleaning:** Wipe clean with a damp cloth. For bonded leather, use a mild, non-abrasive cleaner specifically designed for faux leather or vinyl. Avoid harsh chemicals or abrasive materials that could damage the upholstery.
- **Regular Checks:** Periodically check all screws and bolts to ensure they are tight. Re-tighten if necessary to maintain stability and prevent squeaks.
- **Caster Care:** Keep the casters free of debris (hair, dust, etc.) to ensure smooth rolling.

Troubleshooting

If you encounter any issues with your chair, consider the following common solutions:

- **Chair Squeaks:** Check and tighten all assembly bolts. A small amount of silicone lubricant can be applied to moving parts if squeaking persists.
- **Difficulty Adjusting Height:** Ensure the pneumatic lever is fully engaged. If the gas lift is not functioning, it may require replacement.
- **Wobbly Chair:** Re-tighten all screws on the base and armrests. Ensure the chair is assembled on a flat, even surface.
- **Lumbar Support Not Inflating/Deflating:** Check the air pump bulb and its connection for any disconnections or damage. Ensure the valve is properly sealed when inflating and fully open when deflating.

For persistent issues not covered here, please refer to the official support channels.

Safety Information

To ensure safe operation and prevent injury, please adhere to the following:

- **Weight Limit:** This chair is designed to safely support a maximum weight of**275 pounds**. Do not exceed this limit.
- **Proper Use:** Use the chair only for its intended purpose as an office chair. Avoid standing on the chair or using it as a step stool.
- **Children:** Keep children away from the chair's moving parts and do not allow them to play on or around the chair unsupervised.
- **Maintenance:** Regularly inspect the chair for any signs of wear, damage, or loose components. Discontinue use if any significant damage is found and contact support.
