6. TROUBLESHOOTING

If you encounter any issues with your POVISON dining chairs, please refer to the following common solutions:

Problem	Possible Cause	Solution
Chair wobbles or feels unstable.	Loose connections or uneven floor surface.	Check and tighten all assembly screws. Ensure the chair is placed on a flat, level surface. If the floor is uneven, consider using furniture pads or shims.
Squeaking noises.	Loose joints or friction between components.	Tighten all screws. If squeaking persists, disassemble and reassemble, ensuring all parts are correctly aligned. A small amount of silicone lubricant can be applied to contact points if necessary.
PU leather appears dull or stained.	Accumulated dirt or improper cleaning.	Clean with a soft, damp cloth and mild soap solution, then wipe dry. Avoid harsh chemicals. Regular dusting helps prevent buildup.
