Assembly Tips:

- Unpack all components and verify against the parts list in the included manual.
- Assemble on a soft, clean surface to prevent scratches.
- Initially, tighten bolts snugly, then complete a final half to one full turn to secure. Avoid overtightening to prevent damage to fasteners.
- To ensure the table and benches are level and square, place them on a flat surface before fully tightening the side panel leg bolts into the cross pieces.

4. OPERATING INSTRUCTIONS

This dining table set is designed for general indoor use in dining rooms, kitchens, breakfast nooks, or living rooms. The benches can be used for seating and conveniently stored under the table to maximize space when not in use.

Space Spaving Design

Benches can be placed under the table suitable.

5. MAINTENANCE

Proper care will extend the life and appearance of your AWQM Dining Table Set.

- **Cleaning:** Wipe surfaces clean with a damp cloth. Avoid harsh chemicals or abrasive cleaners that may damage the finish.
- **Spills:** Clean spills immediately to prevent staining.
- **Inspection:** Periodically inspect all bolts and connections to ensure they remain tight. Re-tighten as necessary.
- **Weight Capacity:** Do not exceed the stated weight capacities for the table (200 lbs) and benches (500 lbs each).

6. TROUBLESHOOTING

If you encounter any issues with your dining table set, refer to the following common solutions:

- **Wobbling Table/Bench:** If the table or benches wobble, ensure they are placed on a flat, level surface. Loosen the bolts slightly, adjust the furniture to a level position, and then re-tighten all bolts firmly. This often occurs if bolts are tightened on an uneven surface.
- **Missing Parts:** If you find any parts missing upon unboxing, please contact AWQM customer support immediately with your purchase details. Do not attempt to assemble the product with incomplete parts.
- **Difficulty Assembling:** Refer to the detailed assembly manual included in your package. Ensure all steps are followed in order and that the correct hardware is used for each step.
