## 2. PRODUCT OVERVIEW

Familiarize yourself with the components and controls of your presentation clicker.

# USB-C & USB-A

## 2-in-1 Receiver

## Dual Interfaces

Image 2.1: Detailed diagram of the presentation clicker with key features labeled.

- **Laser Pointer:** Emits a green laser beam for highlighting.
- **Page Up Button:** Advances to the next slide or scrolls up. Also functions as Full Screen/Exit Full Screen.
- **Page Down Button:** Returns to the previous slide or scrolls down. Also functions as Black Screen.
- **Laser Button:** Activates the green laser pointer.
- **Power Switch:** Turns the device ON or OFF.
- **Charging Port:** USB-C port for recharging the internal battery.
- **Indicator Light:** Displays connection status and battery level.
- **Volume Up/Down Buttons:** Controls system volume.
- **USB Receiver:** Wireless dongle for connecting to your computer.

# MAGNETIC DESIGN

Easy to Carry

Image 2.2: The magnetic design allows for secure storage of the USB receiver within the clicker body.

## 3. SETUP

The CLIKBUTM BYJ76-G is a plug-and-play device, requiring no software installation.

1. **Retrieve the USB Receiver:** Gently pull the USB receiver from its magnetic storage slot at the bottom of the presentation clicker.
2. **Connect to Computer:** Insert the 2-in-1 USB-A/USB-C receiver into an available USB-A or USB-C port on your computer. The system will automatically detect and install the necessary drivers.
3. **Power On:** Slide the power switch on the side of the presentation clicker to the 'ON' position. The indicator light will illuminate, signifying a successful connection.

## 4. OPERATING INSTRUCTIONS

Once connected, the presentation clicker provides intuitive control over your slides and media.

- **Page Up:** Press the **Page Up (▲)** button to move to the next slide in your presentation or scroll up in documents.
- **Page Down:** Press the **Page Down (▼)** button to move to the previous slide or scroll down in documents.
- **Green Laser Pointer:** Press and hold the **Laser Button ( )** to activate the green laser pointer. Release the button to turn off the laser. The laser has a range of up to 328 feet (100 meters).
- **Full Screen/Exit Full Screen:** In presentation software, a quick double-press of the **Page Up (▲)** button may toggle full-screen mode.
- **Black Screen:** In presentation software, a quick double-press of the **Page Down (▼)** button may toggle a black screen.
- **Volume Control:** Use the dedicated Volume Up and Volume Down buttons on the side of the clicker to adjust your computer's audio output.
- **Wireless Control Range:** The wireless control distance is up to 100 feet.

## 5. CHARGING

The CLIKBUTM BYJ76-G features a built-in rechargeable Lithium Ion battery.

1. **Low Power Indication:** The indicator light will turn red when the battery level is low.
2. **Connect Charger:** Connect the included USB-C charging cable to the charging port on the clicker and the other end to a USB power source (e.g., computer USB port, wall adapter).
3. **Charging Status:** The indicator light will show charging status (e.g., solid red while charging, turning off or blue when fully charged).
4. **Charging Time:** A full charge typically takes less than 1 hour.
5. **Battery Life:** A single charge provides over two months of worktime or up to 200 days of standby time.

## 7. MAINTENANCE

To ensure the longevity and optimal performance of your presentation clicker, follow these maintenance guidelines:

- **Cleaning:** Wipe the device with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials.
  - **Storage:** When not in use, store the clicker and its USB receiver in a cool, dry place. The magnetic storage for the receiver helps prevent loss.
  - **Battery Care:** Avoid fully discharging the battery frequently. Recharge the device when the low power indicator appears.
  - **Avoid Drops:** While designed with a durable metal casing, excessive drops or impacts can damage internal components.
- 

## 8. TROUBLESHOOTING

If you encounter issues with your presentation clicker, refer to the following common solutions:

- **Device Not Responding:**
    - Ensure the clicker is powered ON.
    - Check if the USB receiver is securely plugged into a working USB port on your computer.
    - Verify the battery level of the clicker and recharge if necessary.
    - Try plugging the USB receiver into a different USB port.
    - Restart your computer.
  - **Laser Pointer Not Working:**
    - Ensure the clicker is powered ON and connected.
    - Press and hold the laser button firmly.
    - Check battery level.
  - **Buttons Not Functioning Correctly:**
    - Ensure the clicker is connected and has sufficient battery.
    - Test the clicker with different presentation software or documents to isolate the issue.
    - Ensure no other wireless devices are causing interference.
  - **Short Wireless Range:**
    - Ensure there are no large metallic objects or other electronic devices obstructing the signal path between the clicker and the receiver.
    - Move closer to the computer.
- 

## 9. SPECIFICATIONS

Feature	Specification
Model Number	BYJ76-G

Item Weight	2.89 ounces (82 grams)
Package Dimensions	5.79 x 2.2 x 0.75 inches (14.7 x 5.6 x 1.9 cm)
Laser Color	Green
Laser Range	Up to 328 feet (100 meters)
Wireless Control Range	Up to 100 feet
Connectivity	2.4GHz Wireless (USB-A & USB-C 2-in-1 Receiver)
Battery Type	1 Lithium Ion battery (included)
