Mars Gaming MK60WBRFR

Mars Gaming MK60 Mechanical Gaming Keyboard User Manual

Model: MK60WBRFR

INTRODUCTION

This manual provides comprehensive instructions for the setup, operation, maintenance, and troubleshooting of your Mars Gaming MK60 Mechanical Gaming Keyboard. Please read this manual carefully before using the product to ensure optimal performance and longevity.

PRODUCT OVERVIEW

The Mars Gaming MK60 is a 60% ultra-compact mechanical gaming keyboard designed for performance and portability. It features durable anti-dust mechanical switches, 12 FRGB Rainbow lighting effects, and advanced anti-ghosting technology. Its high-performance ARM architecture chip ensures responsive and reliable operation across multiple platforms.

SETUP GUIDE

Connecting the Keyboard

1. Unpack the Mars Gaming MK60 keyboard and the USB cable from the box.
2. Locate an available USB 2.0 port on your computer or gaming console.
3. Connect the USB cable to the keyboard's USB port.
4. Plug the other end of the USB cable into the USB port on your device.
5. The keyboard is plug-and-play and should be automatically recognized by your operating system (Windows, Linux, Mac) or console (PS4, PS5, Xbox One, Xbox Series X-S).

Driver Installation (Optional)

While the keyboard functions without additional drivers, for advanced customization such as macro programming or per-key RGB lighting control, you may download the official software from the Mars Gaming website. Refer to the website for the latest software and installation instructions.

OPERATING INSTRUCTIONS

Basic Keyboard Functions

The MK60 keyboard features a 60% layout, meaning some standard keys are accessed via function (Fn) key combinations. The keyboard supports full anti-ghosting for simultaneous key presses.

Function Key Combinations (Fn)

To access secondary functions, press and hold the **Fn** key (located to the right of the spacebar) and then press the desired key.

Table 2: Fn Key Combinations

Combination	Function
Fn + F1	Media Player
Fn + F2	Volume Down
Fn + F3	Volume Up
Fn + F4	Mute
Fn + F5	Previous Track
Fn + F6	Next Track
Fn + F7	Play/Pause
Fn + F8	Stop
Fn + F9	Email
Fn + F10	Web Browser
Fn + F11	My Computer
Fn + F12	Calculator
Fn + Win	Lock Windows Key
Fn + Spacebar	Change Lighting Effect
Fn + M	Adjust Lighting Brightness
Fn + K	Adjust Lighting Speed

FRGB Lighting Effects

The MK60 features 12 distinct FRGB Rainbow lighting effects. You can cycle through these effects by pressing **Fn + Spacebar**. Adjust brightness with **Fn + M** and speed with **Fn + K**.

Anti-Ghosting

The keyboard is equipped with advanced anti-ghosting technology, ensuring that all simultaneous key presses are registered accurately, which is crucial for fast-paced gaming.

Gaming Mode

The keyboard includes a dedicated gaming mode. Specific instructions for activating and customizing this mode can be found in the optional software or by referring to the official Mars Gaming support resources.

MAINTENANCE AND CARE

Proper maintenance ensures the longevity and optimal performance of your MK60 keyboard.

Cleaning

- Disconnect the keyboard from your device before cleaning.
- Use a soft, lint-free cloth slightly dampened with water or a mild cleaning solution to wipe the surface of the keyboard.

- For dust and debris between keycaps, use compressed air.
- Avoid using harsh chemicals, abrasive cleaners, or solvents, as these can damage the keyboard's finish and keycap legends.

Storage

When not in use, store the keyboard in a cool, dry place away from direct sunlight and extreme temperatures.

TROUBLESHOOTING

If you encounter issues with your Mars Gaming MK60 keyboard, refer to the following common problems and solutions:

Table 3: Common Troubleshooting Steps

Problem	Possible Cause	Solution
Keyboard not responding	Loose USB connection, faulty USB port, driver issue.	<ul style="list-style-type: none"> ◦ Ensure the USB cable is securely connected to both the keyboard and the device. ◦ Try plugging the keyboard into a different USB port. ◦ Restart your computer/console. ◦ Test the keyboard on another device to rule out a device-specific issue.
Keys not registering or ghosting	Software conflict, physical obstruction, extreme wear.	<ul style="list-style-type: none"> ◦ Ensure no debris is lodged under the keycaps. ◦ Update or reinstall keyboard drivers/software. ◦ Perform a factory reset if supported by the keyboard's software.
Lighting not working or incorrect	Lighting mode setting, software glitch.	<ul style="list-style-type: none"> ◦ Cycle through lighting effects using Fn + Spacebar. ◦ Adjust brightness using Fn + M. ◦ Check the keyboard's software for lighting settings.

If the problem persists after trying these solutions, please contact Mars Gaming customer support for further assistance.

WARRANTY AND SUPPORT

Manufacturer's Warranty

The Mars Gaming MK60 Mechanical Gaming Keyboard comes with a **3-year manufacturer's warranty**. This warranty covers defects in materials and workmanship under normal use. Please retain your proof of purchase for warranty claims.
