## Aobabo EX-ADL Cabinet-2D

# Aobabo 2 Door Garage Cabinet on Wheels Instruction Manual

Model: EX-ADL Cabinet-2D

## PRODUCT OVERVIEW

---

The Aobabo 2 Door Garage Cabinet on Wheels is a versatile and robust storage solution designed for organizing tools, supplies, and other items in various environments, including garages, workshops, and offices. Featuring a durable metal construction, this cabinet offers secure, mobile storage with thoughtful design elements to enhance usability.

Front view of the Aobabo garage cabinet with both doors open, revealing internal storage shelves and side pegboards with tools.

## SETUP AND ASSEMBLY

---

Assembly of your Aobabo garage cabinet is required. Please follow the steps below carefully. For detailed visual instructions, refer to the official Installation Manual (PDF) available online.

### Unboxing and Part Identification

1. Carefully unpack all components from the packaging.
2. Verify all parts against the included parts list in your manual. Contact customer support immediately if any parts are missing or damaged.
3. Ensure you have all necessary tools for assembly, typically a screwdriver and wrench.

### Cabinet Assembly

1. Assemble the main frame of the cabinet according to the diagrams in your manual, securing all panels with the provided fasteners.

2. Install the adjustable shelf at your desired height. The shelf can be removed or repositioned as needed.
3. Attach the two doors, ensuring they swing freely and align correctly.
4. Install the locking mechanism and test with the provided keys.
5. Securely attach the four detachable and lockable 360° rotating casters to the base of the cabinet. Ensure they are firmly in place for stability and mobility.
6. Attach the pegboards to the designated side panels.

## MULTI-FUNCTION STORAGE CABINET

A visual representation of the cabinet's dimensions: 30.31 inches wide, 18.11 inches deep, and 35.43 inches high, highlighting key features like 2 keys, 4 hooks, movability, strength, and durability.

Close-up views illustrating the cabinet's features: a humanized handle, holey board (pegboard), 1 independent lock with keys, height-adjustable shelves, corner guardrails for safety, and 360-degree swivel casters.

## OPERATING INSTRUCTIONS

---

The Aobabo garage cabinet is designed for ease of use and maximum utility.

### Storage and Organization

- **Adjustable Shelf:** Utilize the adjustable or removable shelf inside the cabinet to accommodate items of various sizes. This allows for flexible storage configurations.
- **Pegboards:** The integrated pegboards on the side provide convenient hanging storage for frequently used tools, keeping them easily accessible.
- **Top Fence:** The top surface features a fence on three sides, effectively preventing small items placed on top from falling off during movement or use.
- **Weight Capacity:** Each shelf can hold up to 160 lbs, with a total cabinet capacity of 320 lbs. Distribute weight evenly to maintain stability.

## Mobility and Security

- **Detachable and Lockable Casters:** The four 360° rotating casters allow for easy movement of the cabinet. Engage the locks on the casters when the cabinet is in its desired position to prevent accidental movement.
- **Lockable Doors:** The cabinet features a lock on the door with two keys, providing security for your stored items. Always lock the cabinet when not in use, especially if storing valuable or hazardous materials.

The cabinet shown in an office setting, demonstrating its versatility for storing various items such as files, tools, paints, and packages.

Video demonstrating the features and mobility of the Aobabo Metal Tool Storage Cabinet, including its magnetic sides and use as a portable workbench.

## MAINTENANCE

---

Regular maintenance will ensure the longevity and optimal performance of your Aobabo garage cabinet.

- **Cleaning:** Wipe down the cabinet surfaces with a soft, damp cloth. For stubborn dirt, a mild soap solution can be used. Avoid abrasive cleaners or solvents that could damage the powder-coated finish.
- **Caster Care:** Periodically check the casters for any debris or hair that might impede their movement. Clean as necessary and apply a small amount of lubricant to the swivel mechanisms if they become stiff.
- **Lock Mechanism:** Ensure the lock operates smoothly. If it becomes stiff, a graphite lubricant can be applied to the keyhole.
- **Fasteners:** Over time, fasteners may loosen. Periodically check all screws and bolts and tighten them as needed to

maintain structural integrity.

- **Corrosion Prevention:** The cabinet features a powder-coated finish for rust and corrosion prevention. Avoid prolonged exposure to excessive moisture or harsh chemicals to maintain this protective layer.

## TROUBLESHOOTING

---

Here are some common issues and their potential solutions:

Problem	Possible Cause	Solution
Cabinet is wobbly or unstable.	Loose fasteners; uneven floor.	Check and tighten all assembly screws. Ensure the cabinet is on a level surface.
Doors do not close properly or are misaligned.	Hinges are loose or bent; cabinet frame is not square.	Adjust or tighten door hinges. Re-check frame assembly for squareness.
Casters do not roll smoothly or lock.	Debris in casters; caster lock engaged; lack of lubrication.	Clean debris from casters. Disengage caster locks. Apply lubricant if necessary.
Lock is stiff or difficult to operate.	Lack of lubrication; key bent or damaged.	Apply graphite lubricant to the keyhole. Ensure the key is not bent.
