6. MAINTENANCE

Proper care will extend the life and appearance of your sofa.

- **Regular Cleaning:** Vacuum the velvet upholstery regularly using a soft brush attachment to remove dust and debris.
- **Spot Cleaning:** For spills, blot immediately with a clean, dry cloth. Avoid rubbing, as this can spread the stain and damage the fabric. For stubborn stains, use a mild upholstery cleaner specifically designed for velvet, testing on an inconspicuous area first.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fading. Position your sofa away from direct sunlight or use curtains/blinds.
- **Fluff Cushions:** Regularly fluff and rotate cushions to maintain their shape and even out wear.
- **Avoid Harsh Chemicals:** Do not use harsh detergents, abrasive cleaners, or solvents, as these can damage the velvet fabric.

7. TROUBLESHOOTING

- **Sofa feels unstable:** Ensure all legs are securely tightened and the sectional connectors are properly engaged.
- **Pull-out bed mechanism is stiff:** Check for any obstructions under the mechanism. Ensure the floor surface is clear and level. Apply a silicone-based lubricant to the tracks if necessary.
- **Chaise storage lid does not close properly:** Verify that no items are obstructing the closing mechanism or the edges of the storage compartment.
- **Fabric appears flattened:** Gently brush the velvet pile in one direction with a soft brush or cloth to restore its texture.
