Podofu 9.3"+back up camera

Podofu 9.3" Portable Car Stereo with Wireless CarPlay & Android Auto

USER MANUAL

1. Introduction

Thank you for choosing the Podofu 9.3" Portable Car Stereo. This device integrates wireless CarPlay and Android Auto, a dash cam, and a reverse camera to enhance your driving experience. This manual provides detailed instructions for installation, operation, and maintenance.

Package Contents:

- 1 x Podofu 9.3" Portable Car Stereo
- 1 x Reverse Camera
- 1 x Monitor Base
- 1 x Camera Power Cable
- 1 x Camera Accessories
- 1 x User Manual
- 1 x 64GB TF Card
- 1 x Power Cord
- 1 x AUX Cable (3m)

Front / Rear View Camera

2. Setup and Installation

The Podofo portable car stereo is designed for easy installation without modifying your vehicle's original console. It is compatible with DC 7-32V vehicle power systems.

2.1 Mounting the Unit

The unit comes with a robust stand that can be mounted directly on the central console. Choose a location that does not

obstruct your view or interfere with driving controls. The mounting options include suction cup (for windshield) or adhesive (for dashboard).

2.2 Connecting Power

Connect the provided power cord to the unit's power input and then to your vehicle's 12V power outlet (cigarette lighter socket).

2.3 Connecting Cameras

The unit includes a front dash cam integrated into the main unit and a separate rear-view camera. Connect the rear-view camera to the designated input on the main unit using the camera extension cord. Ensure proper routing of cables to avoid interference with vehicle operation.

Image 2.1: The system is compatible with 7-32V power systems, suitable for various vehicles including cars, trucks, and buses. It illustrates the connection of the rear-view camera via a 15m extension cord.

Sizes, Sockets and Accessories

Image 2.2: Detailed view of the Podofu 9.3" car stereo, highlighting its dimensions (239mm/9.41 inch width, 100mm/3.94 inch height) and available ports including power, cable holes for rear cameras, storage slot, and AUX hole.

3. Operating Instructions

Once powered on, the device will display its main interface. Use the touchscreen to navigate through functions.

3.1 Wireless CarPlay and Android Auto

The unit supports wireless CarPlay and Android Auto, allowing seamless integration with your smartphone for navigation,

music, calls, and voice control.

1. **Connection:** Turn on Wi-Fi and Bluetooth on your phone. On the car stereo, select 'Apple CarPlay' or 'Android Auto'. Search for the device's Bluetooth name (e.g., TFXXX-XXX) on your phone and pair. Confirm the connection on both devices.
2. **Voice Control:** Use voice commands (e.g., "Hey Siri" or "Ok Google") to control navigation, make calls, or play music without taking your hands off the wheel.
3. **Navigation:** Access maps and real-time traffic information directly on the 9.3-inch display.

Image 3.1: The infotainment interface displaying wireless CarPlay, Android Auto, and Mirror Link functionalities with various app icons.

Your browser does not support the video tag.

Video 3.1: Demonstration of navigating between Android Auto and the main menu on the Podofu car stereo, showcasing touch responsiveness and app access.

3.2 Mirror Link

Mirror Link allows you to display your smartphone screen directly on the car stereo. This feature supports Airplay for iOS devices and Miracast for Android devices.

- **For iOS (Airplay):** Ensure both devices are connected to the same Wi-Fi network. Select Airplay on your iPhone and choose the car stereo.
- **For Android (Miracast):** Enable Miracast or Screen Mirroring on your Android device and select the car stereo from the available devices.

Image 3.2: The car multimedia interface demonstrating wireless CarPlay, Android Auto, and Mirror Link functionalities, including screen mirroring options.

3.3 Dash Cam and Rear View Camera

The integrated front dash cam and external rear-view camera provide comprehensive video recording and parking assistance.

- **Video Recording:** Both cameras support video recording. The included 64GB SD card stores footage, with automatic overwriting when full.
- **Viewing Modes:** Switch between front view, rear view, or a two-screen split view to monitor both cameras simultaneously.
- **Reversing Aid:** When reversing, the rear camera view automatically displays on the screen, often with adjustable guidelines for distance, height, and left/right positioning.

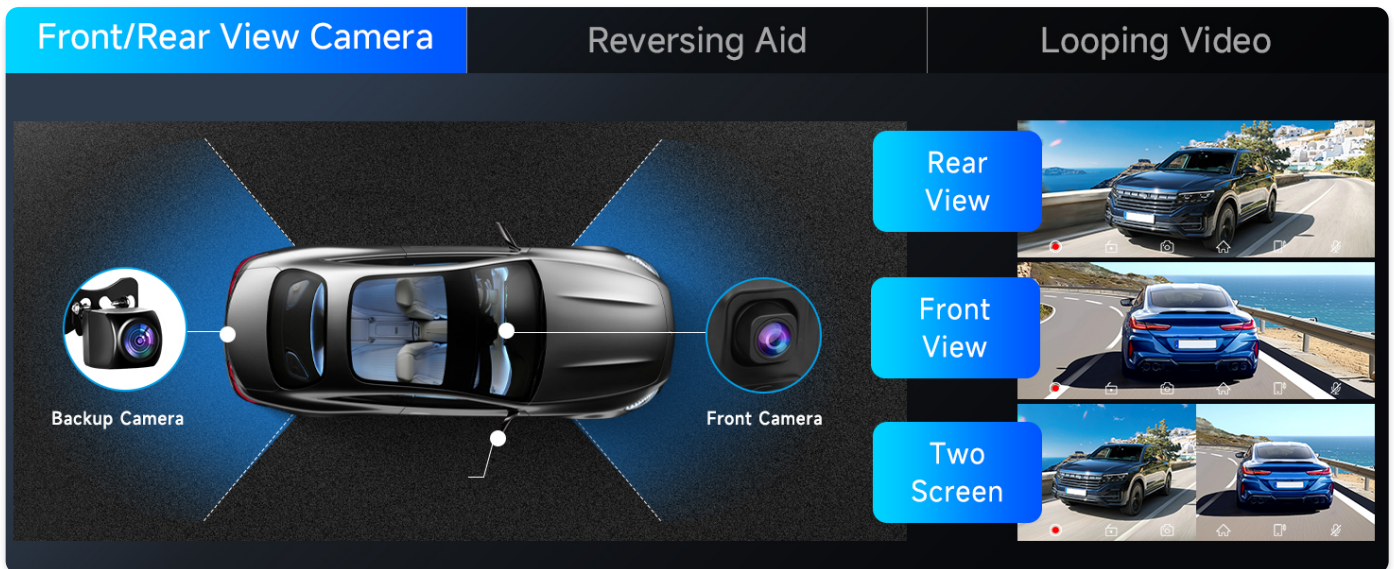

Image 3.3: Diagram of the dual camera safety system, illustrating front and rear cameras, recording capabilities, and multiple viewing angles on split screens.

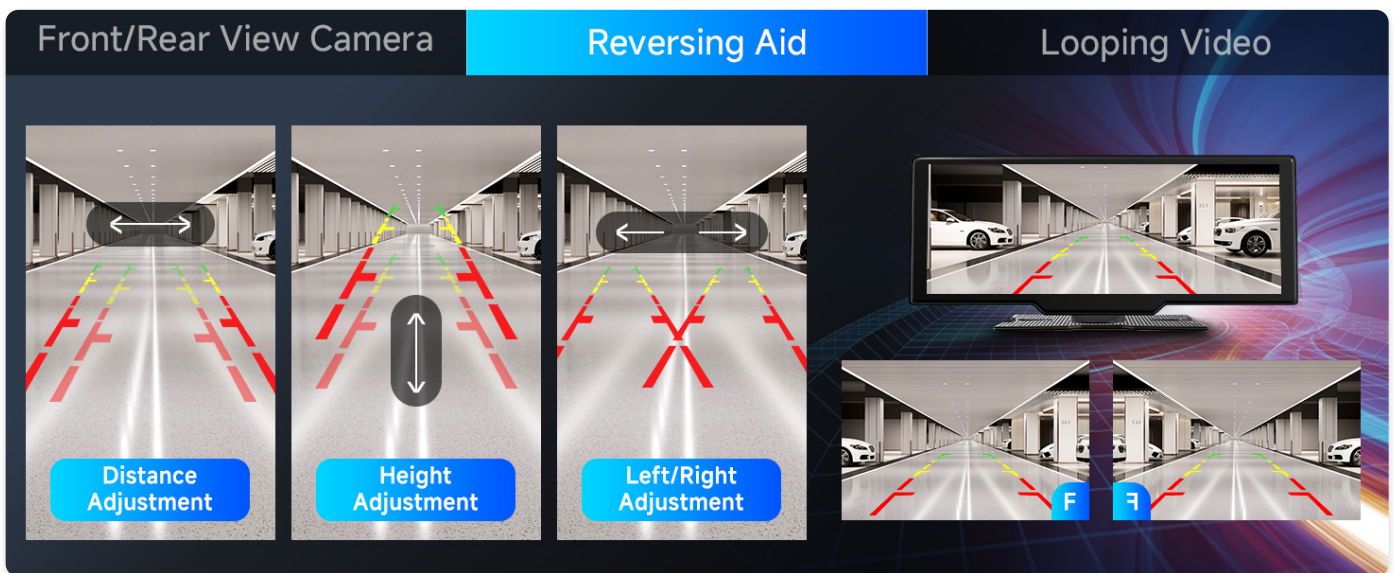

Image 3.4: Vehicle backup camera interface showing multiple viewing angles with red directional indicators and labeled camera modes.

Your browser does not support the video tag.

Video 3.2: A user interacting with the DVR function, demonstrating how to access the camera view and switch between different modes.

3.4 Audio Output Options

The unit offers several ways to output audio for optimal sound quality.

- **Built-in Speakers:** The unit has integrated speakers for direct audio output.
- **Dual Bluetooth:** Connect your phone to the car stereo via Bluetooth, and the car stereo to your vehicle's audio system via a second Bluetooth connection for enhanced sound.
- **AUX Connection:** Use the provided AUX cable to connect the unit to your vehicle's AUX input for a wired audio connection.
- **FM Transmitter:** Transmit audio wirelessly to your vehicle's FM radio by tuning both devices to the same FM frequency.

Image 3.5: The car audio system interface illustrating four audio output options: Dual Bluetooth, AUX connection, FM Transmitter, and the built-in speaker.

4. Maintenance

Proper maintenance ensures the longevity and optimal performance of your Podofu car stereo.

- **Cleaning:** Use a soft, dry cloth to clean the screen and exterior. Avoid abrasive cleaners or solvents.
- **SD Card Management:** The 64GB SD card automatically overwrites old video files when full. Regular manual formatting is not required but can be performed periodically if desired.
- **Temperature:** Avoid exposing the unit to extreme temperatures, both hot and cold, for extended periods.

5. Troubleshooting

If you encounter issues with your Podofo car stereo, refer to the following common solutions:

- **No Power:** Ensure the power cord is securely connected to both the unit and the vehicle's 12V outlet. Check the vehicle's fuse for the 12V outlet.
- **CarPlay/Android Auto Connection Issues:** Verify that Wi-Fi and Bluetooth are enabled on your phone. Ensure the device is properly paired. If connection drops in tunnels, try disconnecting and reconnecting.
- **Poor Audio Quality:** For best audio, use the AUX connection. If using FM transmission, ensure the frequency is clear and not interfered with by other radio stations. Adjust volume levels on both the car stereo and your vehicle's audio system.
- **Camera Not Displaying:** Check that the camera cables are securely connected. Ensure the camera is powered.
- **Screen Unresponsive:** Try restarting the unit by disconnecting and reconnecting the power.

If problems persist, please contact Podofo customer support for assistance.
