## MAINTENANCE AND CLEANING

Maintaining the cleanliness of your EHEYCIGA dog bed is straightforward, thanks to its removable and washable cover.

- **Removable Cover:** The bed features a durable zipper closure, allowing for easy removal of the outer cover.
- **Washing Instructions:** Remove the foam insert before washing. The cover can be machine washed on a gentle cycle with cold water. Tumble dry on low heat or air dry.
- **Foam Care:** The foam insert itself is **not washable**. If the foam becomes soiled, spot clean with a mild detergent and allow it to air dry completely before reinserting into the cover.
- **Waterproof Feature:** A waterproof film is located between the fleece sleeping surface and the bottom fabric to protect the foam from liquids. Please note that the faux linen sides are not waterproof.

## TROUBLESHOOTING

If you encounter any issues with your EHEYCIGA Orthopedic Dog Bed, please refer to the following common solutions:

- **Foam Not Fully Expanded:** If the foam insert does not fully expand within 48 hours, gently massage the foam to help break up any compressed areas. Ensure the room temperature is not too cold, as this can slow expansion.
- **Cover Difficult to Zip:** Ensure the foam insert is correctly aligned within the cover before attempting to zip it closed. Avoid forcing the zipper.
- **Odor:** A new foam product may have a slight odor upon unpacking. This is normal and will dissipate within a few days in a well-ventilated area.
- **Slipping:** The bed features a non-slip bottom to help keep it in place. Ensure the floor surface is clean and dry for optimal grip.
